New summary as follows:

Currently, state, county, or city employees in U.S. military service under competent orders will not lose time, pay, regular leave, efficiency rating, or any other right or benefit of their position for service for a period not to exceed 15 days per federal fiscal year.

This bill allows employee on military leave to receive the difference between their regular monthly pay and their military pay. This bill provides for the continuation of these payments beyond the 15-day limit until the completion of service.

The bill also provides for the continuation of insurance benefits beyond the 15-day limit until the completion of service at the request of the employee and at the same rate as if the employee were not on military leave.
