

HB 539 -- Teacher Salary Incentives

Sponsor: Icet

This bill gives school districts the right to include hiring incentives and salary schedule modifications, which can include credit for all prior years of service in another district, to attract and retain teachers. Teachers must be certificated in subject areas that have a demonstrated teacher shortage and must have qualities or credentials that are suited to a district's academic needs. Teachers may be required to teach in the district offering the incentive for up to three years.
