

# House Concurrent Resolution No. 15

## 95TH GENERAL ASSEMBLY

0603L.011

**Whereas**, children deserve a healthy and safe beginning in life:

2 (1) Prior to the age of three, 85% of a child's brain structure is formed;

3 (2) The quality of early childhood programs affect the social, emotional, and academic  
4 outcomes of children; and

5

6 **Whereas**, families are the first and most important teachers in a child's life. Sixty-  
7 four percent of mothers with children under the age of six and sixty percent of mothers with  
8 children under the age of two are employed outside the home:

9 (1) Early childhood education programs allow parents to work and support their families;

10 (2) Working families support Missouri's economy;

11 (3) On average, children from birth to eight years of age spend 40 hours a week in early  
12 childhood programs;

13 (4) The working poor cannot bear the cost of early education alone. An adequately  
14 funded child care subsidy program is necessary to support families' ability to secure early  
15 childhood services for their children; and

16

17 **Whereas**, early childhood programs have a significant impact on the State's current  
18 and future economy, parents' ability to work, and the healthy development and school readiness  
19 of Missouri's young children:

20 (1) Early childhood programs employ 34,000 people in 5,000 small businesses and  
21 supports 120,000 workers in other industries. Combined gross annual receipts total \$635 million  
22 and 181,000 children are being prepared for long-term workplace success;

23 (2) High-quality early childhood programs provide children with a safe, nurturing, and  
24 stimulating environment, which helps them gain the skills needed for school and to become  
25 productive adults;

26 (3) Research indicates a savings of \$17 for every \$1 spent on supporting children and  
27 families with well-designed programming; and

28

29       **Whereas**, well-trained and adequately compensated early childhood professionals  
30 are critical to the provision of quality early learning experiences:

31           (1) Teacher education is a vital aspect of quality early childhood programs, however,  
32 approximately 65% of Missouri's early childhood professionals do not have adequate formal  
33 education;

34           (2) A stable workforce is crucial to ensure that young children's well being and  
35 development is supported through consistent teacher-child relationships. Therefore, measures  
36 must be taken to reduce the alarming 23% teacher turnover rate:

37       **Now, therefore, be it resolved** that the members of the House of  
38 Representatives of the Ninety-fifth General Assembly, First Regular Session, the Senate  
39 concurring therein, hereby support efforts to begin investing in children now because an  
40 investment in children and early childhood programs is an investment in Missouri's future.
