

HB 301 -- Dispensing Motor Fuel for the Disabled

Sponsor: Grisamore

This bill requires gas attendants at motor vehicle fuel dealers that provide self-service and full-service sales to dispense fuel to any motor vehicle parked at a self-service pump that displays a license plate issued to a disabled veteran or license plate or placard issued to a disabled person if the disabled individual is not accompanied by a person capable of dispensing the fuel. The price will be the same as that charged the general public for self-service fuel.

The bill also requires the Governor's Council on Disability to post on its web site, a list of all full-service stations located in the state.
