

House Concurrent Resolution No. 5

95TH GENERAL ASSEMBLY

INTRODUCED BY REPRESENTATIVES KUESSNER (Sponsor), HODGES, MEADOWS, ATKINS,
WALTON GRAY, AULL, WALLACE AND SCHIEFFER (Co-sponsors).

3381L.011

Be it enacted by the General Assembly of the state of Missouri, as follows:

2 **Whereas**, the Commercial Motor Vehicle Safety Act of 1986 was signed into law
3 with the goal to improve highway safety by ensuring that drivers of large trucks and buses are
4 qualified to operate those vehicles and to remove unsafe and unqualified drivers from the
5 highways; and

6
7 **Whereas**, the federal Act retained a State's right to issue a driver's license, but
8 established minimum national standards which States must meet when licensing commercial
9 motor vehicle drivers; and

10
11 **Whereas**, the federal Act corrected the situation that existed prior to 1986 by
12 making it illegal to hold more than one license and by requiring States to adopt testing and
13 licensing standards for truck and bus drivers to check a person's ability to operate the type of
14 vehicle the driver plans to operate; and

15
16 **Whereas**, since April 1, 1992, drivers have been required to have a commercial
17 driver's license (CDL) in order to drive a commercial motor vehicle. The Federal Highway
18 Administration (FHWA) issued standards for testing and licensing of commercial motor vehicle
19 drivers which require States to issue CDLs to their commercial motor vehicle drivers only after
20 the driver passes knowledge and skills tests administered by the State related to the type of
21 vehicle to be operated; and

22
23 **Whereas**, drivers need CDLs if they are in interstate, intrastate, or foreign
24 commerce and drive a vehicle that meets the federal definition of a commercial motor vehicle;
25 and

26

27 **Whereas**, States develop their own tests which must be at least as stringent as the
28 federal standards; and
29

30 **Whereas**, this restriction does not prohibit States from allowing a person 19 years
31 of age to qualify for a CDL, because it is limited to intrastate operation only. Such a restriction
32 prohibits a person between the ages of 19 and 21 with a CDL from the interstate operation of a
33 commercial motor vehicle; and
34

35 **Whereas**, the establishment of a controlled pilot program by the Federal Motor
36 Carrier Safety Administration (FMCSA) lowering the federal minimum age for commercial
37 motor vehicle drivers in interstate commerce from 21 to 19, which would include behind the
38 wheel training, mentoring, and an evaluation component, would be the first step in advancing
39 the program while still promoting highway safety; and
40

41 **Whereas**, a FMCSA controlled pilot program for 19 to 21 year-olds has the
42 potential of relieving a severe commercial motor vehicle driver shortage in the States and Nation,
43 and creating excellent career opportunities:
44

45 **Now, therefore, be it resolved** that the members of the House of
46 Representatives of the Ninety-fifth General Assembly, Second Regular Session, the Senate
47 concurring therein, hereby urge the Federal Motor Carrier Safety Administration to establish a
48 controlled pilot program to evaluate the potential of lowering the age requirements for interstate
49 commercial motor carrier drivers from 21 to 19 years of age; and
50

51 **Be it further resolved** that the Chief Clerk of the Missouri House of
52 Representatives be instructed to prepare a properly inscribed copy of this resolution for the
53 Assistant Administrator of the Federal Motor Carrier Safety Administration, Rose A. McMurray,
54 and each member of the Missouri Congressional Delegation.
