

HB 1802 -- Purchase of Rifles and Shotguns

Sponsor: Gatschenberger

Currently, a Missouri resident is only allowed to purchase rifles and shotguns in states contiguous to Missouri and a resident of a contiguous state is allowed to purchase these items in Missouri if he or she conforms to the Federal Gun Control Act of 1968, the laws regarding these purchases in Missouri, and the laws of the state in which the purchase was made. This bill repeals these provisions and allows a Missouri resident or the resident of any state to make these purchases if he or she conforms to the federal act and the laws of both states.
