STATE CAPITOL
Jefferson City, Missouri

MISSOURI HOUSE OF REPRESENTATIVES

July 2011

Dear Fellow Missourian,

The many challenges Missouri families and businesses currently face inspired the General Assembly to work hard to work together, in a bipartisan fashion, to find common sense ways to create jobs, improve our economy, and ensure a responsible state government which does more with less. Despite diminished revenue, we were able to pass a balanced budget that continues to provide funding for our priorities without raising taxes for you and your families. We believe that your Missouri state government must live within its means just like Missouri families must. That is why when times got tough, the House of Representatives made cuts to its own budget and additionally reduced waste, fraud, and abuse elsewhere in state government.

The 2011 session also produced a number of common sense pieces of legislation to improve the quality of life for you, your family, and your friends. Your tax dollars will be protected from waste by a new law requiring drug testing for welfare recipients. Your community will be safer thanks to strengthened laws against human trafficking, domestic violence, and synthetic drugs. Your economic opportunities will improve thanks to the passage of a business relief package known as the "Big Government Get Off My Back Act" and through the reduction of taxes on thousands of Missouri businesses. We believe these common sense reforms, as well as the many others detailed in this booklet, will help give Missouri families and businesses the relief needed during these tough times.

This booklet contains indexed summaries of all legislation passed during the 2011 session. The Missouri House of Representatives makes this booklet available to better inform you of the work of the General Assembly. I hope you find the information contained to be helpful.

Sincerely,

Steven Tilley

SCS HCS HB 38 — WORK-OFF RATE FOR MUNICIPAL PRISONERS AND NOTIFICATION OF JAIL ESCAPES

This bill increases the work-off rate for municipal prisoners from \$10 per day to a portion of the judgment that is equal to the greater of the actual daily incarceration cost or the amount that the municipality is reimbursed by the state for the incarceration.

The chief law enforcement official responsible for a municipal detention facility or a county or regional jail or the chief administrator of a private jail must make notification to the Missouri Uniform Law Enforcement System (MULES) as soon as reasonably possible, but no later than five hours, after an escape of a prisoner who has been convicted of murder in the first degree or a dangerous felony or who is being held on suspicion of having committed murder in the first degree or a dangerous felony. The notification may include the name, description, and photograph of the prisoner as well as any other relevant facts. It must also include the crimes for which the person was incarcerated and contact information for the jail or detention facility in order to report information concerning the whereabouts of the escapee.

SS SCS HCS HB 45 — SMALL BUSINESS TAX RELIEF

This bill changes the laws regarding the Big Government Get Off My Back Act which provides tax relief to certain small businesses. In its main provisions, the bill:

(1) Specifies that any federal mandate compelling the state to enact, enforce, or administer a federal regulatory program must be subject to authorization through appropriation or statutory enactment;

(2) Extends from four years to five years the restriction on an increase of any state-imposed user fee and the requirement that any state agency proposing a rule must certify that it does not have an adverse impact on small businesses; that it is necessary to protect the life, health, or safety of the public; or that any small business is exempt from the rule;

(3) Revises the definition of “small business” to include businesses with fewer than 50 employees instead of the current 25; and

(4) Authorizes, for tax years 2011 through 2014, an income tax deduction for a small business for each full-time job created with an annual salary of at least the county average wage as determined by the Department of Economic Development. To be a full-time job, the employee must work at least an average of 35 hours per week for a 52-week period. The business will be allowed a deduction of \$10,000

for each new full-time job created or \$20,000 for each full-time job if the business offers health insurance and pays at least 50% of the premiums.

The provisions of the bill regarding the income tax deduction will expire December 31 three years from the effective date.

HB 68 — EMERGENCY TELEPHONE SERVICE

This bill prohibits a political subdivision from imposing a fine or penalty on the owner of a pay telephone or on the owner of any property upon which a pay telephone is located for a call made to an emergency telephone service from the pay telephone.

HCS HB 70 — COUNTY HIGHWAY COMMISSIONS

This bill changes the compensation for members of a county highway commission who are not also members of the county’s governing body from \$15 per day for the first meeting of each month and \$5 for each additional meeting during the month to an amount per meeting not to exceed \$100 as established by the county’s governing body. The mileage allowance for those members is also changed from eight cents per mile actually and necessarily traveled in the performance of their duties to the same amount per mile received by the members of the county’s governing body. A member of the commission who is also a member of the county’s governing body will not receive any compensation or mileage allowance for his or her service to the commission.

SS SCS HCS HB 73 & 47 — TEMPORARY ASSISTANCE FOR NEEDY FAMILIES PROGRAM

This bill requires the Department of Social Services to develop a program to screen each applicant for or recipient of Temporary Assistance for Needy Families (TANF) Program benefits and test, using a urine dipstick five panel test, each person whom the department has reasonable cause to believe, based on the screening, engages in the illegal use of a controlled substance. An applicant or recipient who tested positive for the illegal use of a controlled substance which has not been prescribed by a licensed health care provider or who refuses to submit to a test must, after an administrative hearing by the department, be declared ineligible for TANF benefits for three years from the date of the administrative hearing decision and must be referred to an appropriate substance abuse treatment program approved by the Division of Alcohol and Drug Abuse within the Department of Mental Health. However, an applicant or recipient who, after being referred by

the department, enters and successfully completes a substance abuse treatment program and does not test positive for the illegal use of a controlled substance for six months from the date of entry into the program will continue to receive benefits while participating in the program. The department may test these individuals for illegal drug use at random or set intervals, at the department's discretion, after the initial six months; and if the individual tests positive a second time, he or she will be declared ineligible for TANF benefits for a period of three years from the date of the administrative hearing decision.

The case worker of an applicant or recipient is required to report or cause a report to be made to the Children's Division within the Department of Social Services of any suspected child abuse as a result of drug abuse when an applicant or recipient has tested positive for the illegal use of a controlled substance or has refused to be tested. Any member of a household which includes a person who has been declared ineligible for TANF benefits, if otherwise eligible, will continue to receive benefits as protective or vendor payments to a third-party payee.

The electronic benefits card distributed to a recipient of TANF benefits must have imprinted on the card a photograph of the recipient or protective payee authorized to use the card and cannot be accepted for use at a retail establishment if the photograph does not match the person presenting the card. A card will expire and be subject to renewal after three years.

HCS HB 83 — AUTOMATED TELLER MACHINE SURCHARGES

This bill specifies that an agreement to operate or share an automated teller machine (ATM) cannot prohibit the owner or operator of the machine from imposing an access fee or surcharge on an individual conducting a transaction using a foreign bank account if the fee or surcharge is not otherwise prohibited by federal or state law. Currently, foreign banks, trust companies, and credit unions may charge fees but domestic ones cannot.

SS#2 SCS HCS HB 89 — NATURAL RESOURCES

This bill changes the laws regarding natural resources.

STATE DEPARTMENT TRANSPARENCY (Section 37.970, RSMo)

The bill specifies that it must be the policy of each state department to carry out its duties with full transparency to the public and any data collected must be available to the public in a timely fashion with reports and other information being easily

accessible to the public. Each department must broadly interpret any request for information under the Open Meetings and Records Law, commonly known as the Sunshine Law, and must respond accordingly regardless of the format in which the request is made. Any failure to release information will be considered a policy violation and constitute a breach of the public's trust.

COUNTY DRINKING WATER SUPPLY LAKE AUTHORITY (Sections 67.4500 - 67.4520)

A county drinking water supply lake authority is established in Sullivan County which is to be a body corporate and politic and a political subdivision of this state. Its income and property will be exempt from state and local taxation. The bill:

(1) Specifies that the authority must consist of between six and 30 members appointed by the members of the water commission owning the reservoir. The members will serve six-year terms with the initial members being appointed to staggered terms. A member of the authority must be at least 25 years of age and have been registered to vote in Missouri and lived in the county for more than five years;

(2) Requires the water commission, by resolution, to establish a date and time for the initial meeting of the authority. At the initial meeting, and annually thereafter, the authority must elect from its members a chairman and vice-chairman and appoint a secretary and a treasurer. The authority may appoint an executive director who must not be a member of the authority and who will serve at the authority's pleasure. The authority may designate the secretary to act in lieu of an executive director;

(3) Requires each member of the authority to execute a surety bond in the amount of \$50,000 or the authority chairman must execute a blanket bond covering each member and the employees or other officers of the authority;

(4) Prohibits an authority member from participating in any decisions or deliberations concerning issues in which he or she has a direct financial interest;

(5) Allows the authority to acquire, own, construct, lease, and maintain recreational or water quality projects; acquire, own, lease, or sell property to fulfill the purposes of the authority; enter into contracts; sue and be sued; accept gifts, grants, loans, or contributions; employ staff or contract with independent contractors for needed services; disburse funds and set salaries of its employees; fix rates, fees, and charges for the use of any projects and property owned, leased, operated, or managed by the authority; adopt, alter, or repeal its own governing bylaws and rules; sell and supply water; construct, own, and operate infrastructure projects;

issue revenue bonds; and adopt tax increment financing within its boundaries;

(6) Allows the state or any political subdivision or municipal corporation to transfer possession or control of any property to the authority;

(7) Allows the state or any political subdivision to appropriate, allocate, and expend funds for the benefit of the authority; and

(8) Authorizes the authority to exercise all zoning and planning powers that are granted to cities, towns, and villages except that the authority cannot exercise the powers within the limits of any city, town, or village that has adopted a city plan before August 28, 2011.

REAL-TIME BACTERIAL WATER QUALITY TESTING (Section 192.1250)

The Department of Health and Senior Services must examine the feasibility of implementing a real-time water quality testing system for measuring the bacterial water quality at state-owned public beaches and must issue a report of its findings to the General Assembly by December 31, 2011.

PUBLIC WATER SUPPLY DISTRICT DIRECTORS (Section 247.060)

The bill:

(1) Allows each member of a public water supply district board to receive a fee of up to \$100 for attending each regularly or specially called board meeting. A member can receive payment for up to two meetings per month except in a first classification county where a member can receive payment for up to four meetings per month. No member can be paid for attending more than one board meeting per week. Currently, members must serve without compensation;

(2) Allows the president of a board to receive an additional \$50 for attending each regularly or specially called board meeting but prohibits him or her from receiving the additional fee for attending more than two meetings per month;

(3) Specifies that a member will be reimbursed for any actual expenditures in the performance of his or her duties on behalf of the district;

(4) Prohibits a member from receiving any attendance fees or additional compensation until he or she has completed a minimum of six hours of training regarding the responsibilities of the board and its members in specified areas including the basics of water treatment and distribution; budgeting and rates; planning; and the Open Meetings and Records Law, commonly known as the Sunshine Law;

(5) Specifies that the circuit court of the county having jurisdiction over the district is authorized to:

(a) Suspend any member from exercising his or her office when it appears that the member has abused his or her trust or become disqualified;

(b) Remove any member upon proof or conviction of gross misconduct or disqualification for his or her office; or

(c) Restrain and prevent any alienation of property of the district by members in certain specified cases; and

(6) Specifies that the jurisdiction conferred by these provisions must be exercised upon petition by any member or at the instance of any 10 voters residing in the district who join in the petition. The petition must be heard in a summary manner after 10 days' written notice to the member or officer who is the subject of the complaint.

STATE PARKS EARNINGS FUND (Section 253.090)

Any moneys remaining in the State Parks Earnings Fund at the end of the biennium will not revert to the credit of the General Revenue Fund.

PRIVATE LANDOWNER PROTECTION ACT (Section 442.014)

The Private Landowner Protection Act is established which allows for the creation and enforcement of conservation easements designed to protect the environment or preserve certain historical, architectural, archaeological, or cultural aspects of real property. An easement may be created, conveyed, recorded, assigned, released, modified, terminated, or otherwise altered or affected in the same manner as other easements; and a court may modify or terminate an easement based on the principles of law and equity.

An existing real property interest is not affected by a conservation easement unless the owner is a party to the easement or consents to it. A conservation easement will be valid in a number of situations that are specified in the bill which are not recognized by common law. Retroactive application is mandated to the extent allowed by state and federal law but cannot place any additional burden or obligation on any grantor or grantee, or on their successors, of a conservation easement.

MINING PERMITS (Sections 444.771 and 444.773)

The Department of Natural Resources and the Land Reclamation Commission within the department are prohibited from issuing a surface mining or a water or air quality permit to any person whose mine plan boundary is within 1,000 feet of any property where an accredited school has been located for at least five years prior to the permit application. This provision does not apply to a request for an expansion to an existing mine or to any underground mining operation.

Currently, the commission may deny a surface mining permit if it finds in any hearing, based on competent and substantial scientific evidence, that the interested party's health, safety, or livelihood

would be unduly impaired by the issuance of the permit. The bill specifies that it must be in a public hearing and removes the provision placing the burden of proof on the permit applicant.

CLEANFIELDS RENEWABLE ENERGY DEMONSTRATION PROJECTS (Section 620.2300)

An owner of a park consisting of at least 50 contiguous acres in which the property is subject to remediation under a clean-up program supervised by the Department of Natural Resources or the United States Environmental Protection Agency may submit an application to the Department of Economic Development to establish a cleanfields renewable energy demonstration project. The department must review all project applications and, in consultation with the Department of Natural Resources, verify satisfaction of all requirements. If the Department of Economic Development approves a project application, it must forward the application and approval to the Missouri Public Service Commission. Upon receipt of the application and approval, the commission must assign double credit to any electric power, renewable energy, renewable energy credits, or any successor credit generated from certain renewable energy resources or certain electric power generated off-site by utilizing biomass fuel or renewable energy resources.

APPEALS TO THE ADMINISTRATIVE HEARING COMMISSION (Section 621.250)

Currently, any party who is affected by a finding, order, decision, or assessment made by a state regulatory environmental commission may file an appeal with the Administrative Hearing Commission. The bill specifies that the party must be aggrieved or adversely affected by the finding, order, decision, or assessment in order to file an appeal.

Currently, the commission has discretion on whether or not to hold a hearing on an appeal request. The bill requires the commission to hold a hearing and make a recommended decision within 60 days of the date of the request or make a recommended decision within the 60-day period based on the stipulation of the parties, consent order, or agreed settlement or by the disposition in the nature of default judgment, judgment on the pleadings, or summary determination. The commission must issue its final decision on an appeal of a decision by the Director of the Department of Natural Resources within 90 days of the date the notice of appeal is filed.

The bill prohibits a cause of action or appeal arising out of a finding, order, decision, or assessment of a state regulatory environmental commission from accruing in any court unless the party has already filed a notice of appeal with the Administrative

Hearing Commission and received a final decision from the environmental commission in accordance with these provisions.

ENVIRONMENTAL PERMITS (Section 640.018)

In any case in which the Department of Natural Resources has not issued a permit or made a permit decision by the expiration of a statutorily required time frame, the permit must be issued as of the first day following the expiration if all the necessary information has been submitted for the application and the department has had the information for the duration of the required time frame.

All engineering plans, specifications, and designs prepared by a registered professional engineer that are submitted to the department as part of a permit application or modification must include a statement that the plans, specifications, and designs were prepared in accordance with all applicable requirements and must be sealed by the registered professional engineer. The department must use the complete sealed plans, specifications, and designs as submitted in addition to a permit application or other relevant information, documents, and materials in developing comments on the engineering submittals and in determining whether to issue or deny a permit. The review of documents, plans, specifications, and designs sealed by a registered professional engineer must be conducted by a registered professional engineer or an engineering intern on behalf of the department.

The department must designate a supervisory registered professional engineer for permitting purposes in environmental programs. Any applicant receiving written comments on an engineering submittal may request a determination from the department's supervisory engineer as to a final disposition of the department's comments. The supervisory engineer must inform the applicant of a preliminary decision within 15 days of the request and must make a final determination within 30 days.

These requirements cannot be construed to require plans or other submittals to the department that come under a general permit or an application for a site specific permit to be prepared by a registered professional engineer unless otherwise required by state or federal law.

NOTIFICATION OF PUBLIC HEALTH RISKS (Section 640.128)

The Department of Natural Resources must immediately notify the local public health authority and the Department of Health and Senior Services if it receives water quality test results voluntarily conducted and submitted by a permitted entity that indicate a potential risk to public health.

CONSOLIDATION OF STATE SERVICES (Section 640.850)

The Governor must convene a committee consisting of representatives from the departments of Agriculture, Conservation, Economic Development, Health and Senior Services, and Natural Resources to evaluate ways to consolidate services with the goal of improving efficiency and reducing costs while optimizing benefits to Missourians. The committee must specifically review the transfer of the Division of Energy from the Department of Natural Resources to the Department of Economic Development and the consolidation of laboratory testing for water quality under the Department of Health and Senior Services and must provide recommendations to the Governor and the General Assembly by December 31, 2011.

ASBESTOS AND AIR QUALITY (Sections 643.020 - 643.080, 643.191, 643.225, 643.232, 643.237, and 643.240 - 643.250)

The bill:

(4) Removes the option to complete an annual refresher course that is accredited by the United States Environmental Protection Agency (EPA) in order to qualify for a renewal of an asbestos-related certificate. Currently, an individual must complete an annual course that is accredited by the EPA or the State of Missouri;

(5) Reduces, from 24 months to 12 months, the amount of time after the expiration of a certificate in which an individual must complete the annual refresher course or retake the original training course;

(6) Removes the provisions exempting certain individuals who are subject to EPA and OSHA asbestos regulations from certain state asbestos

(7) Reduces, from at least 20 working days to at least 10 working days, the period of time that a person must submit an application to the department in advance of an asbestos abatement or demolition project. The application must include a copy of an asbestos inspection survey for the structure which includes, but is not limited to, sample analysis results, quantities of asbestos materials identified, and documentation that the inspection was conducted by a certified asbestos inspector;

(8) Removes the notification requirements for an asbestos abatement project of a magnitude of less than 160 square feet or 260 linear feet but greater than 10 square feet or 16 linear feet;

(10) Requires asbestos abatement projects of a magnitude of greater than or equal to 160 square feet or 260 linear feet or 35 cubic feet or all regulated demolition projects to be subject to inspection. Currently, projects greater than or equal to 10 square feet or 16 linear feet must be inspected;

(12) Repeals provisions exempting state asbestos abatement projects for single-family, owner-occupied dwellings, and vacant public or privately owned residential buildings of four units or less that are being demolished for public health, safety, or welfare purposes from certain requirements.

Any action seeking judicial review of a final decision made by the Air Conservation Commission, the Clean Water Commission, or the Director of the Department of Natural Resources must be filed in a court of appeals instead of a circuit court.

CLEAN WATER NOTICE REQUIREMENTS AND FEES (Sections 644.036 and 644.054)

The bill removes the expiration date on the public notice requirements of the Clean Water Commission within the Department of Natural Resources when listing any impaired waters of the state under Section 303(d) of the federal Clean Water Act.

The commission's authority to charge fees for construction permits, operating permits, and

operator's certifications related to water pollution control is extended from December 31, 2010, to September 1, 2013.

The department director must conduct a comprehensive review of the water pollution fee structure including input from stakeholders and submit a report to the General Assembly by December 31, 2012, including the findings and a recommended plan for the fee structure. The plan must include timelines for permit issuance, expedited permits, and recommendations for improved services.

CLEAN WATER COMMISSION PERMITS AND APPEALS (Section 644.051)

The bill:

(1) Allows a potential permit applicant to appeal the terms and conditions of a water pollution control general permit template to the Clean Water Commission within the Department of Natural Resources within 30 days of the issuance of the template by the department if the applicant can demonstrate that he or she is or may be adversely affected by any term or condition of the permit;

(2) Specifies that in matters heard by the commission, the burden of proof is on the department or the commission that issued the finding, order, decision, or assessment being appealed except in a matter involving the denial of a permit, license, or registration when the burden of proof is on the applicant;

(3) Allows a permit to be modified, reissued, or terminated at the request of the permit holder. A request must be in writing and contain facts or reasons in support of the request; and

(4) Requires the department to implement permit shield provisions that are equivalent to the provisions implemented pursuant to federal law.

AFFORDABILITY DETERMINATIONS ON CERTAIN SANITARY SEWER OR TREATMENT SYSTEMS (Section 644.145)

The Department of Natural Resources must make a determination regarding the affordability to communities and their residents of permit requirements and other department decisions related to combined or separate sanitary sewer systems or publicly owned treatment works when issuing permits under Chapter 644 or when enforcing state or federal laws. If the department fails to make a determination, the proposed permit or decision will be void and unenforceable. The bill specifies the criteria that the department must use in determining if a permit or decision is affordable. A department's finding may be appealed to the Clean Water Commission.

PRIVATE SEPTIC SYSTEMS

(Sections 701.033 and 701.058)

The Department of Health and Senior Services is authorized to provide technical assistance and guidance to a local administrative authority on the regulation and enforcement of standards for individual on-site sewage disposal systems. The department may provide this assistance at the request of the local government or in any case where the department determines that its intervention is necessary to prevent a violation of state law.

The departments of Natural Resources and Health and Senior Services must jointly hold stakeholder meetings to gather data and information regarding permits and inspections for on-site sewage disposal systems and submit a report to the General Assembly by December 31, 2011.

MISSOURI ENERGY TASK FORCE

(Section 386.850)

The bill repeals the provisions requiring the Missouri Energy Task Force within the Missouri Public Service Commission to reconvene at least one time a year and issue a status report to the Governor and General Assembly by December 31 of each year.

The provisions of the bill are nonseverable; and if any provision is found to be invalid for any reason, the remaining provisions, except for those regarding cleanfields renewable energy demonstration projects, will be invalid.

The bill contains an emergency clause for the provisions regarding state department transparency, county drinking water supply lake authority, real-time bacterial water quality testing, State Parks Earnings Fund, mining permits, cleanfields renewable energy demonstration projects, environmental permits, notification of public health risks, consolidation of state services, judicial review of certain environmental-related decisions, clean water notice requirements and fees, Clean Water Commission permits and appeals, affordability determinations on certain sanitary sewer or treatment systems, private septic systems, and the Missouri Energy Task Force.

A circuit court may adopt a local rule authorizing the pretrial release of certain offenders on electronic monitoring in lieu of incarceration.

A judge may credit any period of electronic monitoring against any period of confinement or incarceration ordered; however, an individual on electronic monitoring will not be considered to be in custody or incarceration for purposes of eligibility for MO HealthNet benefits or considered confinement in a correctional center or jail for purposes of determining responsibility for the individual's health care.

SEXUAL CONTACT WITH A STUDENT

(Section 566.086)

Currently, a person who works for or volunteers at a school commits the crime of sexual contact with a student while on public school property, a class D felony, if he or she has sexual contact with a student while on any public school property. The bill removes the requirement that the crime be committed while on public school property and adds an elected or appointed official of the school district to the list of individuals to whom the provision applies.

SEXUAL OFFENDERS

(Sections 566.147 and 589.040)

Currently, any person who, since July 1, 1979, has pled guilty or nolo contendere to, been convicted of, or been found guilty of certain specified sexual offenses is prohibited from residing within 1,000 feet of certain public schools, private schools, or child care facilities. The bill specifies that a child care facility includes any licensed child care facility or any facility which is exempt from licensure but subject to state fire, safety, health, and sanitation inspections and holds itself out to be a child care facility.

The bill also requires a person incarcerated for a sexual assault offense to successfully complete the treatment, education, and rehabilitation program provided by the Department of Corrections prior to being eligible for parole or conditional release.

CRIMINAL NONSUPPORT (Section 568.040)

A person commits the crime of nonsupport if he or she knowingly fails to provide adequate support for his or her spouse or child as he or she is legally obligated. Currently, a person commits this crime if he or she did so without good cause.

RECEIVING STOLEN PROPERTY

(Section 570.080)

The bill revises the penalty for the crime of receiving stolen property, a class A misdemeanor. If the value of the property or services stolen is \$500 but less than \$25,000 or a person physically takes the property from the victim or the property consists of certain specified items, the person will be guilty of a class C felony. The receipt of any item of property or services that exceed \$500 may be considered a separate felony and may be charged in separate counts. Any person with a prior conviction for receiving stolen livestock or captive wildlife who violates those same provisions a subsequent time when the value of the animal stolen exceeds \$3,000 will be guilty of a class B felony and will be required to serve at least 80% of any sentence imposed before he or she is eligible for probation, parole, conditional release, or other early release by the Department of Corrections. Anyone committing an offense in which the value of the property or services is an element will be guilty of a class B felony if the value equals or exceeds \$25,000.

STEALING LEASED OR RENTED PROPERTY OFFENSES (Section 578.150)

The bill revises the crime of failing to return leased or rented property and changes the name of the crime to stealing leased or rented property.

The following actions are added to the list of offenses that constitute the crime if the person commits the offense with the intent to deprive the owner of the

property: aiding or abetting the concealment of leased or rented property; selling, encumbering, conveying, pawning, loaning, abandoning, or giving away the leased or rented property without the written consent of the lessor or without informing the person who receives the property that it is subject to a lease; and failing to pay the lease charges and any extensions after returning the property with the intent to deprive the lessor of the agreed upon charges.

Currently, it is evidence of the crime when a person who has leased or rented property, other than a motor vehicle, fails to return the property 10 days after the owner has sent a written demand by certified or registered mail to the address provided in the lease agreement. The demand must include a statement that the failure to return the property may subject the person to criminal prosecution. The bill specifies that evidence of intent to commit the crime is established if the lessee uses a false; fictitious; or not current name, address, or place of employment in obtaining the property or if the lessee fails or refuses to return the property or pay the lease charges within seven days after a written demand is sent by certified mail, return receipt requested, to the address provided in the lease agreement or the person's last known address.

Currently, failure to return leased or rented property is a class A misdemeanor unless the property is valued at \$500 or more, in which case it is a class C felony. The bill increases the maximum property value so that the crime of stealing leased or rented property becomes a class C felony if the property is valued at \$1,000 or more.

STATE REIMBURSEMENT FOR SHERIFFS

(Section 632.312)

A sheriff is allowed to receive reimbursement from the state, subject to appropriation, for the actual costs of transporting a person to and from a mental health facility from a public or private hospital, a nonprofit charitable organization, the state, or a political subdivision.

The bill contains an emergency clause for the provisions regarding the hospital district sales tax.

This bill changes the laws regarding unemployment benefits for military spouses and courtesy professional licenses for nonresident military spouses.

UNEMPLOYMENT BENEFITS FOR MILITARY SPOUSES

The bill specifies that a claimant seeking unemployment compensation is not disqualified for

waiting week credit or benefits, regardless if the claimant has earned wages for insured work equal to 10 times the claimant's weekly benefit amount, if the claimant quit work in order to relocate with his or her spouse who is on active duty in the United States armed forces, the national guard, or other reserve. If a claimant is not disqualified as a result of this provision, no benefits based on wages paid for work prior to the quitting date can be chargeable to the claimant's former employer.

COURTESY PROFESSIONAL LICENSES FOR NONRESIDENT MILITARY SPOUSES

Any state agency or board that regulates an occupation or profession must establish criteria for the issuance of a temporary courtesy license to a nonresident spouse of an active duty member of the military who has been transferred to Missouri allowing the spouse to lawfully practice his or her occupation or profession in this state. The bill:

(1) Requires an applicant for a courtesy license to hold a current license or certificate from another state, district, or United States territory whose licensing requirements are equivalent to those established by Missouri law for that occupation or profession;

(2) Requires an applicant to have been engaged in the active practice of the occupation or profession for at least two of the five years immediately preceding the date of his or her application;

(3) Specifies that an applicant cannot have committed an act in any jurisdiction that would have constituted grounds for the refusal, suspension, or revocation of a license or certificate under Missouri law at the time the act was committed;

(4) Specifies that an applicant cannot have been disciplined by a licensing or credentialing entity in another jurisdiction or be the subject of an unresolved complaint, review, or disciplinary proceeding by a licensing or credentialing entity in another jurisdiction;

(5) Authorizes the appropriate board or agency to conduct and pay for a criminal background check;

(6) Requires an applicant to pay any required fees and comply with other requirements as provided by the appropriate board; and

(7) Specifies that a temporary courtesy license or certificate will be valid for 180 days and may be extended at the discretion of the applicable regulatory board or agency for another 180 days upon application of the holder.

These provisions will not apply to the practice of law or the regulation of attorneys.

The bill also authorizes the Governor to convey:

(1) State property located at the Algoa Correctional Center in Jefferson City in Cole County;

SS SCS HCS HB 163 — UNEMPLOYMENT COMPENSATION

This bill specifies that a claimant will be ineligible for waiting week credit or benefits for any week that he or she has an outstanding penalty which was assessed based upon an overpayment of benefits and reduces the maximum total amount of benefits payable to any insured worker during any benefit year from the lesser of 26 times his or her weekly benefit amount or 33 1/3% of his or her wage credits to the lesser of 20 times his or her weekly benefit amount or 33 1/3% of his or her wage credits.

In order for Missouri to receive recently approved additional extended federal unemployment benefit funds until August 28, 2013, the bill changes the laws regarding unemployment compensation. Currently, "extended benefit period" as it relates to unemployment compensation benefits means a period which begins with the third week after a week for which there is a state "on" indicator, as determined by the Director of the Division of Employment Security within the Department of Labor and Industrial Relations, and ends on the third week after the first week for which there is a state "off" indicator or other specified conditions. The bill removes the provision which limits the period for a state "on" indicator from extending beyond March 3, 2011, when 100% federal sharing is available under Public Law 111-5, Section 2005(a) and specifies that there is a state "on" indicator beginning after the date of enactment of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010, Public Law 111-312, and ending on or before the last day allowable by the act when the average rate of total unemployment in the state (seasonally adjusted), as determined by the United States Secretary of Labor, for the most recent three-month period for which data for all states are published equals or exceeds 110% of the average for any or all of the corresponding three-month periods ending in the three preceding calendar years.

(3) Changes the penalty for a screening violation by a junkyard located within 200 feet of a state or county road by making a first violation a class C misdemeanor and a second or subsequent violation

a class A misdemeanor. In addition to the penalties, a violator must be ordered to remove the junk or build a fence to fully screen the junk from public view. These provisions will not apply to a junkyard located in any incorporated town, village, or city;

(4) Specifies that the exclusive damages that may be awarded to a claimant for a private nuisance originating from property primarily used for crop or animal production purposes will be as follows:

(a) For a permanent nuisance, compensatory damages must be measured by the reduction in the fair market value of the claimant's property caused by the nuisance not to exceed the fair market value of the property;

(b) For a temporary nuisance, compensatory damages must be measured by the reduction in the fair rental value of the claimant's property caused by the nuisance; and

(5) Specifies that if a person or his or her successor with ownership interest brings a subsequent claim against the same defendant or the defendant's successors for a temporary nuisance related to a similar activity or use of the property and the activity or use is deemed a nuisance, the activity or use of property at issue must be considered a permanent nuisance and the claimant and his or her successors must be limited to and bound by the remedies available for a permanent nuisance;

(6) Specifies that if a defendant in a private nuisance case where the alleged nuisance is from property used for crop or animal production purposes demonstrates a good faith effort to abate the condition determined to be a nuisance, the nuisance is to be deemed to be not capable of abatement. Substantial compliance with a court order regarding the property will constitute a good faith effort;

(7) Specifies that no person will have standing to bring an action for a private nuisance unless the person has an ownership interest in the property alleged to be affected by the nuisance;

(9) Requires a copy of the final judgment in any action alleging a private nuisance to be filed with the recorder of deeds in the county in which the judgment was issued. The filing will operate as notice to any purchaser of the claimant's property that the property was related to a previous nuisance claim.

SS HCS HB 213 — LATE-TERM ABORTIONS

This bill revises the definition of "abortion" to mean the act of using or prescribing an instrument, device, medicine, drug, or any other means or substance with the intent to destroy the life of an embryo or fetus in the mother's womb. Except in the case of a medical emergency, no abortion of a viable, unborn child can be performed or induced unless the abortion is necessary to preserve the life of the pregnant woman whose life is endangered by a physical disorder, illness, or injury or when the continuation of the pregnancy will create a serious risk of substantial and irreversible physical impairment of a major bodily function of the pregnant woman. "Viable" means the stage of fetal development when the life of the unborn child may be continued indefinitely outside the womb by natural or artificial life-supportive systems.

Except in the case of a medical emergency, a physician must, prior to performing or inducing an abortion, determine the gestational age of the unborn child in a manner consistent with accepted obstetrical and neonatal practices and standards. If a physician determines that the gestational age of the unborn child is 20 weeks or more, he or she must, prior to performing or inducing an abortion, determine if the unborn child is viable by medically determining the gestational age, weight, and lung maturity of the unborn child and enter that information in the woman's medical record. If a physician determines the gestational age of the unborn child is 20 weeks or more and the unborn child is not viable and an abortion is performed or induced, the physician must report these findings and determinations and the reasons for the determinations to the health care facility in which the abortion is performed and to the State Board of Registration for the Healing Arts within the Department of Insurance, Financial Institutions and Professional Registration. The physician must also enter the determinations in the woman's medical records and in the individual abortion report submitted to the Department of Health and Senior Services.

If a physician determines that the unborn child is viable, the physician cannot perform or induce an abortion except in the case of a medical emergency. A physician must certify in writing the medical threat posed to the life of the pregnant woman or the medical reasons that continuation of the pregnancy would

cause a serious risk of substantial and irreversible physical impairment of a major bodily function of the pregnant woman before the physician can proceed with performing or inducing an abortion on a woman when it has been determined that the unborn child is viable. Before a physician may perform or induce an abortion on a woman carrying an unborn child that has been determined to be viable, he or she must:

(1) Obtain the agreement of a second physician who has knowledge of accepted obstetrical and neonatal practices and standards and concurs that the abortion is necessary to preserve the life of the pregnant woman or that continuation of the pregnancy would cause a serious risk of substantial and irreversible physical impairment of a major bodily function of the pregnant woman. The second physician must also report the reasons and determinations to the health care facility and the board and enter that information in the woman's medical record and the individual report to the Department of Health and Senior Services. The second physician cannot have any legal or financial affiliation or relationship with the physician performing or inducing the abortion; however, this will not apply to a physician whose affiliation or relationship is the result of being employed by or having staff privileges at the same hospital;

(2) Use the available method or technique of abortion that is most likely to preserve the life or health of the unborn child;

(3) Certify in writing the available methods considered and the reasons for choosing the method used; and

(4) Have in attendance at the abortion a second physician who is responsible for taking control of and providing immediate medical care for a child born as a result of the abortion.

Any person who knowingly performs or induces an abortion of an unborn child in violation of these provisions will be guilty of a class C felony and subject to imprisonment for not less than one year and a fine of between \$10,000 and \$50,000. Any physician licensed in this state who pleads guilty to or is found guilty of performing or inducing an abortion of an unborn child in violation of these provisions can have his or her license suspended or revoked by the State Board of Registration for the Healing Arts within the Department of Insurance, Financial Institutions and Professional Registration. Any licensed hospital or ambulatory surgical center that knowingly allows an abortion to be performed or induced in violation of these provisions can be subject to the suspension or revocation of its license.

The provisions of the bill are intended by the state legislature to be severable in regards to validity

for purposes of upholding the state and federal constitutions. The General Assembly may appoint, by concurrent resolution, one or more sponsoring members of the bill to intervene if the provisions of the bill are constitutionally challenged.

The crime will be punishable by imprisonment for a term of not less than five years and not more than 20 years and a fine of up to \$250,000. It will not be a defense that the defendant believed the person was 18 years of age or older. The crime will be punishable by imprisonment for a term of not less than 10 years or life and a fine of up to \$250,000 if the child is younger than 18 years of age. If a violation of this crime was effected by force, abduction, or coercion, the crime will be a felony for which the authorized term of imprisonment is life without eligibility for probation or parole until the defendant serves at least 25 years of his or her sentence (Section 566.212);

(5) Expands the crime of sexual trafficking of a child younger than 12 years of age to include if a person knowingly uses force, abduction, coercion, fraud, deception, or blackmail or causes or threatens to cause financial harm to a person younger than 12 years of age to participate in a commercial sex act, a sexual performance, or the production of specified explicit sexual material or causes a person younger than 12 years of age to engage in a commercial sex act, a sexual performance, or the production of specified explicit sexual material. It will not be a defense that the defendant believed the person was 12 years of age or older (Section 566.213);

(6) Specifies that a court must order a defendant convicted of trafficking or contributing to human trafficking to pay restitution to the victim regardless of whether the defendant is sentenced to a term of imprisonment or probation. The minimum restitution must be an amount determined by the court necessary to compensate the victim for the value of the victim's labor and/or for the mental and physical rehabilitation of the victim and any child of the victim (Section 566.218);

(7) Specifies that it will be an affirmative defense for the offense of prostitution that the defendant engaged in the conduct charged because he or she was coerced to do so by the use of, or threatened use of, unlawful physical force upon himself or herself or a third person in which a person of reasonable firmness in his or her situation would have been unable to resist (Section 566.223.2);

(8) Authorizes the Department of Public Safety to establish procedures for identifying victims of trafficking and to develop training programs and standard protocols for appropriate agencies to educate officials and employees on state and federal laws regulating human trafficking and with the identification and assistance of human trafficking victims. Upon a first encounter with a person who reasonably appears to be a victim of trafficking, a law enforcement agency must notify the Department of Social Services and, where applicable, juvenile justice authorities in order for the agencies to determine whether the victim may be eligible for state or federal services, programs, or assistance (Sections 566.223.3 and 566.223.4);

(9) Allows the Department of Social Services to coordinate with relevant state, federal, and local agencies to evaluate appropriate services for victims of trafficking and allows state agencies to implement programs and enter into contracts with nonprofit agencies, domestic and sexual violence shelters, and other nongovernment organizations to provide services to confirmed victims of trafficking if funds are available (Section 566.223.5);

(10) Allows a victim of trafficking to bring a civil action within 10 years after the later of the final order in the criminal case, the victim's emancipation from the defendant, or the victim's eighteenth birthday against any person who pled guilty to or was found guilty of trafficking to recover the actual damages sustained, court costs, reasonable attorney fees, and punitive damages when determined appropriate by the court (Section 566.223.6); and

(11) Allows the Attorney General to file a civil action to recover from any person or entity that benefits from trafficking a civil penalty of up to \$50,000 for each violation and injunctive and other equitable relief as may be ordered by the court. Any money or property collected by a civil action must first be used to pay restitution to the victim (Section 566.223.7).

HB 217 — ELECTRONIC VOTER IDENTIFICATION VERIFICATION SYSTEMS

This bill allows an election authority to use an electronic voter identification system or electronic signature pad to verify a voter's address, registration status, and signature information at any polling place.

The system or pad must be able to read identifying information from an individual's driver's or nondriver's license and must allow the election authority to manually enter information into the system from a valid form of personal identification containing the voter's signature.

HCS HB 220 — REAL ESTATE LICENSEE LIABILITY

Currently, a real estate licensee is immune from liability for statements made by certain expert professionals unless the expert was selected and engaged by the licensee, the statement was made by a person employed by the licensee or broker, or the licensee knew that the statement was false or acted in reckless disregard as to whether the statement was true or false. This bill specifies that the ordering of a report or an inspection alone will not constitute selecting or engaging a person.

HCS HB 223 & 231 — HIGHER EDUCATION FINANCIAL ASSISTANCE PROGRAMS

Subject to appropriation, this bill requires the Department of Higher Education to make available a nonrenewable advanced placement incentive grant of \$500 to any recipient of financial aid under the A+ Schools or Access Missouri programs if the recipient received a score of three or higher on two advanced placement examinations in mathematics or science while attending a Missouri public high school.

The Nursing Education Incentive Program is established within the Department of Higher Education to address nursing shortages. The State Board of Nursing within the Division of Professional Registration in the Department of Insurance, Financial Institutions and Professional Registration is authorized to provide funding for the program; and subject to appropriation, the Department of Higher Education will award grants to eligible higher education institutions accredited by the Higher Learning Commission of the North Central Association based on criteria to be determined by the board and the Department of Higher Education. Grant award amounts cannot exceed \$150,000, and no campus may receive more than one grant per year. An eligible institution must offer a nursing program that meets the predetermined category and area of need as established by the board and the Department of Higher Education based on data from sources specified in the bill.

The bill also repeals the provisions regarding an obsolete incentive grant program which focused on nontraditional nursing students and the provisions regarding the Nurse Training Incentive Fund.

HB 229 — PUBLIC SCHOOL RETIREMENT SYSTEM OF KANSAS CITY

This bill changes the laws regarding the Public School Retirement System of Kansas City. In its main provisions, the bill:

(1) Revises the definition of “actuarial equivalent” to require the formulas and tables in effect that are used to determine actuarial equivalents to be in a written document maintained at the system’s office and treated for all purposes as part of the documents governing the system. The formulas and tables can be changed if recommended by the system’s actuary and approved by the board of trustees (Section 169.270, RSMo);

(2) Specifies that the system’s retirement plan is intended to be a qualified plan under federal law and requires the board of trustees to interpret the statutes governing the system and to administer the system consistently in all respects with that intent. System assets must be held in trust for the exclusive benefit of its members and their beneficiaries and for defraying reasonable administrative costs (Section 169.280);

(3) Specifies that the rights of all members to benefits accrued to the date of termination or discontinuance, to the extent funded at that time, will be fully vested and nonforfeitable if the system is completely terminated or contributions are discontinued to the system (Section 169.301.4);

(4) Specifies that if a member leaves employment to perform qualified military service and dies while in that service, his or her survivors will be entitled to any additional benefits that would have been provided had the member resumed employment with the employer and then terminated on account of death. In this case, the member’s period of qualified military service will be counted as creditable service for the purpose of vesting but not for the purpose of determining the amount of the member’s retirement allowance (Section 169.301.5);

(5) Specifies that any retired member of the system performing substitute, part-time, or temporary employment for an employer in the system cannot earn more than 50% of the annual salary or wages earned prior to retirement adjusted for inflation and continue to receive his or her retirement allowance. Anyone exceeding this limit will have his or her retirement allowance suspended for any month in which the limit was exceeded and each subsequent month he or she receives remuneration from any employer in the system (Section 169.324); and

(6) Allows any member or beneficiary who is entitled to receive an eligible rollover distribution under federal law to elect to have that distribution transferred directly to another eligible retirement plan. An eligible rollover distribution must include

a distribution to a nonspouse beneficiary that is treated as an eligible rollover distribution under the Internal Revenue Code. The transfer must be made in compliance with the requirements of Section 401(a)(31) of the federal Internal Revenue Code (Section 169.328).

HCS HB 250 — WATER WELL REGULATIONS

This bill specifies that any water system that exclusively serves a charitable or benevolent organization will be exempt from all rules relating to well construction except those applying to a multifamily well unless the well or pump installation for the well is determined to present a threat to groundwater or public health. A water system cannot be exempt if it regularly serves an average of 100 or more people for at least 60 days of the year or if it serves a school or day care facility.

If a system has three or more violations of the total coliform maximum contaminant level in a 12-month period or one acute violation of the maximum contaminant level, the system’s owner must provide an alternative source of water, eliminate the source of contamination, or provide treatment that reliably achieves at least 99.99% treatment of viruses.

An exempt organization cannot be required to replace, change, upgrade, or alter an existing well constructed prior to August 28, 2011, unless the well is determined to be a threat to groundwater or public health or contains certain contaminant levels.

SCS HB 256 — BASIC CIVIL LEGAL SERVICES FUND

(Vetoed by the Governor)

This bill extends the expiration date of the provisions regarding the Basic Civil Legal Services Fund from December 31, 2012, to December 31, 2018.

HB 260 — UNIFORM INTERSTATE FAMILY SUPPORT ACT

This bill repeals the provisions regarding the Uniform Interstate Family Support Act; re-enacts them to be consistent with the changes adopted by the National Conference of Commissioners on Uniform State Laws; and extends the provisions of the act to the establishment, enforcement, or modification of a child or spousal support order that involves a foreign country that is a party to the Hague Convention on the International Recovery of Child Support and Other Forms of Family Maintenance.

Whenever more than one state is involved in establishing, enforcing, or modifying a child or spousal support order, the act specifies the jurisdiction and power of the courts in the different states and establishes which state’s law will be applied in the proceeding. The act establishes rules

requiring every state to defer to the child support order entered by the court of the child's home state. The place where the order was originally entered holds continuing exclusive jurisdiction; and only the law of that state can be applied to a request to modify the order of child support, unless the original tribunal loses the continuing exclusive jurisdiction. Various direct interstate enforcement mechanisms are specified in the bill.

The bill becomes effective upon ratification by the United States Congress.

This bill changes the laws regarding professional registration.

PROFESSIONAL LICENSES (Section 324.014, RSMo)

Any board, commission, committee, council, or office in the Division of Professional Registration within the Department of Insurance, Financial Institutions and Professional Registration must notify any known current employer of a change in a licensee's license and discipline status. An employer may provide any board, commission, committee, council, or office in the division with a current list of licensed employees and request in writing to the board, commission, committee, council, or office to be notified regarding any change in the licensing status of an employee.

DIVISION OF PROFESSIONAL REGISTRATION (Sections 324.043, 324.045, 536.036, 536.067, 621.045, and 621.100)

The division or any board, committee, commission, or office within the division is authorized to enter a default decision against a licensee if he or she fails, upon proper notice, to plead or otherwise defend against a disciplinary proceeding. A default decision may be set aside if, within 30 days after the default decision, the person files a motion which states facts constituting a meritorious defense and for good cause shown.

If the requested information is more than five years old, the board may charge a fee as specified by regulation;

(2) Removes the provision authorizing the board to require a doctor licensed in another state to pass an examination prior to waiving the Missouri examination requirement. The board is authorized to require the successful completion of another examination,

A licensee or applicant whose right to practice has been affected must be given an opportunity at reasonable intervals not to exceed 12 months to demonstrate that he or she can resume the competent practice of his or her profession or should be granted a license;

(5) Authorizes the board to cause a complaint to be filed with the Administrative Hearing Commission against a licensee for additional causes including prescribing drugs without a valid physician-patient relationship, being on a state or federal sexual offender registry, violating a probation order or other settlement agreement, unethical or unprofessional conduct involving a minor, knowingly making a false statement to the board, habitual intoxication or dependence on alcohol, failing to comply with a treatment or an aftercare program or probation, or voluntary termination of any controlled substance authority while under investigation;

The definition of "insurance-funded preneed contract" is revised to include a preneed contract designated to be funded by a deferred annuity contract that is not classified as a variable annuity and has death benefit proceeds that are never less than the sum of premiums paid. The bill also changes the procedure for a funeral provider to receive funds after providing funeral services and merchandise and the procedure for a purchaser who wants to cancel a preneed contract funded by a joint account.

SCS HB 270 — STATE EMPLOYEES' HEALTH INSURANCE BENEFITS

Beginning with the open enrollment period for the 2012 plan year, this bill requires the Missouri Consolidated Health Care Plan Board of Trustees to offer a qualified high-deductible health insurance plan that has a monthly subscriber premium that is materially lower than the non-high deductible health plan premium with a goal of it being at least 50% lower. The amount of the annual deductible for the high-deductible plan offered cannot be greater than 200% of the minimum annual deductible for self-only coverage and family coverage as established by the federal Internal Revenue Service for the current tax year. The coverage afforded by the high-deductible

plan, after the deductible has been met, must be substantially similar or better than the annual coverage provided by the non-high deductible plan.

If, after the completion of the open enrollment period for the 2012 plan year, fewer than 10% of Missouri's active state employees have enrolled in a high-deductible plan, the board must offer a more competitive high-deductible plan with increased financial and coverage incentives including, but not limited to, alternative annual deductibles, out-of-pocket expenses, and other health plan design features, all within the established federal guidelines, with the goal of having 40% of Missouri's active state employees enrolling in a health savings account compatible high-deductible plan by the open enrollment period for the 2015 plan year.

Currently, the state employees' health insurance plan must provide the same full health benefit coverage to participants who are also eligible for and covered by Medicare. The bill requires the state employees' plan to provide a health insurance plan that offers substantially similar benefits to Medicare to participants who are eligible for and covered by Medicare as well as to participants who are eligible for but not covered by Medicare.

(2) Changes the start date for benefits of a member who retires or terminates after August 28, 2011, to the first day of the month following the month in which a

(3) Specifies the requirements and time frame for the final beneficiary payment or a survivor's benefit upon the death of a retired member;

(4) Allows creditable service to be purchased by a member who is on an unpaid leave of absence for 30 consecutive days or less and returns from the leave prior to August 28, 2011, if the leave has been approved by the board of police commissioners;

(5) Requires a member, when purchasing prior creditable service after a leave of absence and a return to active service, to pay the actuarial cost as determined at the time of purchase rather than repaying the amount of his or her accumulated contributions with interest; and

(6) Requires a member who terminates membership and later returns to the system and is eligible to purchase prior creditable service to deposit in the pension fund an amount equal to the member's portion of the actuarial cost to restore the service. The portion will be determined on the ratio of the member's contribution rate to the total of the member and employer contribution rate at the time the member elects to purchase the service.

(2) Changes the laws regarding a member of the system who retires on or after August 28, 2011, because of accidental disability as follows:

(a) Any member retiring because of accidental disability based on a condition of the heart, lungs, or cancer or based on a permanent and total disability which will prevent the member from obtaining employment elsewhere, as determined by the board of trustees of the retirement system, based on medical evidence presented by the system's physicians will receive, regardless of his or her years of credible service, 75% of the earnable compensation then provided for the step in range of salary for the title or rank held by the member at the time of his or her retirement;

(b) Any member retiring because of accidental disability for a condition not stated above will receive a base pension equal to 25% of his or her salary at

the time of retirement. If a member has 25 years or less of creditable service at retirement, he or she will receive an additional 2.75% for each year of creditable service equal to or greater than 10 years but not more than 25 years. A member with more than 25 years of creditable service will receive an additional pension equal to 50% of his or her salary;

(c) A member retiring because of accidental disability other than on a condition of the heart, lungs, or cancer or based on a permanent and total disability which will prevent the member from obtaining employment elsewhere can elect to receive an education allowance in an amount not to exceed the tuition for a state resident at the University of Missouri-St. Louis. The member must enroll in a college, university, community college, or vocational or technical school at the first opportunity after retirement, and the member will be reimbursed upon proof of payment to the institution. The education allowance must cease if the member is no longer a full-time student, fails to provide proof of achievement of a grade point average of two on a four-point scale or the equivalent on another scale for each academic term, or is restored to active service as a firefighter. The education allowance cannot be available for more than five years after the member retires. A member with 25 years or less of creditable service electing to receive the education allowance who is a full-time student will also receive an additional supplemental disability retirement pension in an amount that will pay him or her 100% of the member's active duty salary, excluding the education allowance, for up to five years;

(d) A member who retired due to accidental disability for a reason other than based on a condition of the heart, lungs, or cancer or based on a permanent and total disability which prevents the member from obtaining employment elsewhere with more than 20 years but not more than 25 years of creditable service may waive the right to receive the education allowance, the additional pension allowance, and the supplemental disability retirement pension and may elect instead to receive in addition to the accidental disability retirement base pension an additional pension equal to 40% of the member's salary at the time of retirement if the election is made prior to receiving his or her first accidental disability pension payment; and

(e) The retirement allowance will be increased annually in October for a member who retired due to accidental disability for a reason other than based on a condition of the heart, lungs, or cancer or based on a permanent and total disability which prevents the member from obtaining employment

elsewhere, unless a member has more than 25 years of creditable service, the accidental disability allowance can only increase at a rate of 1% per year, compounded each year, up to age 60, then 5% per year for five years. For a member having more than 25 years of creditable service, the accidental disability allowance can only increase at a rate of 2.25% per year, compounded each year, up to age 60, then 5% per year for five years.

Any person employed by the Missouri Development Finance Board on or after September 1, 2011, in a full-time position will be a state employee and a member of the Missouri State Employees' Retirement System (MOSERS). The employee will not have coverage under the Missouri Consolidated Health Care Plan unless the coverage is requested by the finance board and approved by the board of trustees of the health care plan. An employee of the finance board prior to September 1, 2011, may elect to purchase all or a portion of his or her prior creditable or credited service in MOSERS up to the actual years of prior full-time service with the finance board.

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) and the Missouri State Employees' Retirement System (MOSERS) must transfer money between the two systems when an employee transfers service between the systems on or after September 1, 2011. The bill specifies the method the systems are required to use to calculate the amount of the transfer payment, and the amount of the money transferred cannot be less than the amount of the employee's accumulated contributions and interest plus any purchased service payments.

QUARTERLY REPORTING BY PUBLIC RETIREMENT SYSTEMS (Section 105.661)

Each public retirement system that provides a defined benefit retirement plan is required to submit a quarterly report about the plan's investment performance to the Joint Committee on Public Employee Retirement. If a plan fails to submit the report, the committee may subpoena witnesses, take testimony under oath, and compel the production of records regarding this information pursuant to the committee's authority under Section 21.561.

STATE OF MISSOURI DEFERRED
COMPENSATION PLAN
(Sections 105.915 and 105.927)

Each new employee eligible to participate in the State of Missouri Deferred Compensation Plan who is hired on or after July 1, 2012, will automatically be enrolled in the plan unless he or she elects not to participate within the first 30 days of employment. An employee of a state college or university will not be automatically enrolled but may elect to participate in the plan and make contributions. Contributions to the plan will be effective on or after the first day of the month following the date of hire; and the employer will withhold and contribute to the plan an amount equal to 1% of eligible compensation received on and after the date of hire. An employee may change his or her contribution amount or opt in or out of the plan at any time.

Beginning September 1, 2011, if a member is married on the date of his or her death, the member's surviving spouse must automatically be designated as the primary beneficiary under the deferred compensation plan unless the surviving spouse consented in writing, witnessed by a notary public, to allow the participating member to designate someone else as the beneficiary. The automatic beneficiary designation will not apply to designations made prior to that date. The Missouri State Employees' Retirement System (MOSERS) is authorized to adopt and amend plan documents to change the terms and conditions of the plan that are consistent with federal law.

Currently, the state must credit an amount up to \$75 per month, as determined by appropriation, to each qualified participant's deferred compensation account if the participant is making continuous deferrals of at least \$25 per month, the participant has been employed by the state for at least 12 consecutive months, and the state contribution does not exceed the amount that the participant contributes. The bill removes these contribution conditions and allows the funds to be credited to each participant directly by a state agency if that agency's payroll is not issued through the State Treasurer.

(9) Specifies that current provisions do not preclude a member of the General Assembly, a full-time or legislative employee of the General Assembly, or a statewide elected official and his or her employees who hold a valid concealed carry endorsement from carrying a concealed firearm in the State Capitol Building (Section 571.107);

(10) Specifies that a certificate of firearms safety training course completion may be issued to any applicant for a concealed carry endorsement by any qualified firearms safety instructor if the applicant completes at least eight hours of instruction that includes a live firing exercise of sufficient duration for the applicant to fire both a revolver and a semiautomatic pistol and successfully hits the target with both handguns. A firearms safety instructor who knowingly provides a sheriff with any false information concerning an applicant's performance on any portion of the required training and qualification will be guilty of a class C misdemeanor (Section 571.111); and

(11) Specifies that a municipality may regulate, by order or ordinance, the shooting of pneumatic guns within its boundaries when, in the opinion of the governing body, it is so heavily populated that the conduct is dangerous to its inhabitants. The municipality may require any minor younger than 12 years of age when using a pneumatic gun on public

property to be supervised. A municipal ordinance may specify that a minor 12 years of age or older can, with parental or guardian consent, use a pneumatic gun at any place designated for its use or on private property with the owner's consent and that a minor must obey all laws, regulations, and restrictions regardless of whether a parent or guardian has permitted the use. No ordinance can prohibit the use of pneumatic guns at facilities approved for shooting ranges (Section 1).

The provisions regarding the issuance of nondriver's licenses containing conceal carry endorsements and the lowering of the age at which a person can obtain a concealed carry endorsement will become effective when the Director of the Department of Revenue begins to issue nondriver's licenses with the conceal carry endorsement that expire three years from the date the certificate of qualification was issued or January 1, 2013, whichever occurs first.

SCS HCS HB 300, 334 & 387 — INTERSCHOLASTIC YOUTH SPORTS BRAIN INJURY PREVENTION ACT

This bill establishes the Interscholastic Youth Sports Brain Injury Prevention Act which requires, by December 31, 2011, the Department of Health and Senior Services to work with a statewide association of school boards, a statewide student athletic activities association, and an organization that specializes in support services, education, and advocacy for persons with brain injuries to establish rules which develop guidelines, information, and forms to educate coaches, student athletes, and their parents or guardians on the nature and risk of concussion and brain injury including continuing to play after a concussion or brain injury.

Every school district must annually distribute a concussion and brain injury information sheet to each youth athlete in the district's athletic program which must be signed by the athlete's parent or guardian and submitted to the school district prior to the youth athlete participating in any practice or competition.

A youth athlete suspected of sustaining a concussion or brain injury must be removed from competition at that time and for at least 24 hours. He or she must not return to competition until being evaluated by a licensed health care provider trained in the evaluation and management of concussions under the guidelines developed by the department and receiving a written clearance from the provider to return to competition.

An annual report regarding the impact of student athlete concussions and head injuries and efforts that may be made to minimize damages from school sports injuries must be published by any statewide athletic

organization with a public school district as a member and must be distributed to the Joint Committee on Education, the House of Representatives Committee on Elementary and Secondary Education, and the Senate Committee on Education or any other education committee designated by the Speaker of the House of Representatives or the President Pro Tem of the Senate. The first report must be distributed by January 31, 2012, and made available to school districts and parents of students. A public school is prohibited from being a member of any statewide athletic organization which fails to publish the annual report.

HCS HB 315 — MULTIPLE VERSIONS OF STATE STATUTES

This bill changes the provisions of the Revised Statutes of Missouri that have been enacted by more than one bill so that there is only one version of a statute.

Some revisions may result in a clarification or change to an existing statute.

SS HCS HB 338 — TELECOMMUNICATIONS

This bill specifies that a telecommunications company may, upon written notice to the Missouri Public Service Commission, elect to be exempt from certain retail rules relating to the provision of service to retail customers which include provisions already mandated by the Federal Communications Commission including, but not limited to, federal rules regarding customer proprietary network information; verification of orders for changing telecommunications service providers, commonly known as slamming; submission or inclusion of charges on customer bills, commonly known as cramming; or the installation, provision, or termination of retail service.

A telecommunications company cannot be exempt from any Missouri Public Service Commission rule which was established under authority delegated to it pursuant to federal statute, rule, or order including, but not limited to, universal service funds, number pooling and conservation efforts, or any authority delegated to the commission to facilitate or enforce any interconnection obligation or other intercarrier issue including, but not limited to, intercarrier compensation, network configuration, or other similar matters.

The bill also allows a telecommunications company, upon written notice to the commission, to elect to be exempt from any requirement to file or maintain with the commission any tariff or schedule of rates, rentals, charges, privileges, facilities, rules, regulations, or forms of contract for telecommunications services offered or provided to residential or business retail end user customers if it posts generally available retail prices for those available services on a publicly accessible web site.

The provisions of the bill cannot affect the rights and obligations of any entity, including the commission, established pursuant to federal law; any state law, rule, regulation, or order related to wholesale rights and obligations; or any tariff or schedule that is filed with and maintained by the commission.

SS HB 339 — TELECOMMUNICATIONS

This bill changes the laws regarding telecommunications as they relate to the carrier of last resort obligations. In its main provisions, the bill:

(1) Relieves a local exchange carrier from serving as the carrier of last resort in a greenfield area and from being obligated to provide basic local voice service or any telecommunications service to any occupant of real property if the owner or developer of the property or a person acting on his or her behalf:

(a) Allows an alternative service provider to install its facilities or equipment used to provide local voice services during the construction phase of the real property based on a condition of exclusion of the local exchange carrier;

(b) Accepts or agrees to accept incentives or rewards from an alternative service provider that are contingent upon the provision of any or all local voice services by one or more alternative service providers to the exclusion of the local exchange carrier; or

(c) Collects from the occupants or residents of the property mandatory charges for the provision of any local voice service provided by an alternative service provider including, but not limited to, collection through rent, fees, or dues;

(2) Requires the local exchange carrier relieved of its carrier of last resort obligation to notify the Missouri Public Service Commission in writing of that fact within 120 days after receiving knowledge of that fact;

(3) Allows a local exchange carrier to seek a waiver of its carrier of last resort obligation from the commission for good cause shown based on the facts and circumstances of the provision of services to a particular property. Notice of the petition to seek the waiver must also be given by the carrier to the relevant owner or developer. The commission must make a determination on or before 90 days after the petition is filed with certain specified exceptions;

(4) Requires the owner or developer of the property, if a local exchange carrier is relieved of its carrier of last resort obligation, to notify the occupants of the property and any subsequent owners that the incumbent local exchange carrier does not have facilities installed to serve their property and the name of the person who will be providing the local communications service and the type of technology that will be used to provide the service;

(5) Specifies the conditions for resuming the carrier of last resort obligation by a local exchange carrier if the circumstances under which an exemption was granted change. The local exchange carrier must provide notice to the commission that it is assuming

the carrier of last resort obligation. The local exchange carrier may require an owner or developer to pay the carrier in advance a reasonable fee to recover the costs that exceed the costs that would have been incurred to construct or acquire facilities to serve customers at the real property initially. A petition may be submitted to the original carrier of last resort to make local voice service available if the exclusive contract with the alternative service provider changes or the services are no longer provided. The petition must be submitted by more than 50% of the residents within the exclusive contract area, and the carrier must provide local service within a reasonable period of time but not to exceed 180 days after the request or petition;

(6) Requires the owner or developer who allows an alternative service provider to install its facilities or equipment used to provide local voice service to the property based on a condition of exclusion of the local exchange carrier to provide written notice to the purchaser of the property that there is an exclusion of that local exchange carrier and that the alternative service provider is the exclusive provider of service to the property;

(7) Allows an incumbent local exchange carrier to require a payment from an owner or developer in certain cases where the costs of extending facilities to provide service are not economically reasonable;

(8) Specifies that a telecommunications company may meet its carrier of last resort obligations and its obligations to provide or offer basic local voice or basic interchange telecommunications service by providing local voice service using any technology. If the company uses a wireless technology, the company must use a technology that provides 911 caller location information technology which meets or exceeds wireless Phase II enhanced 911 rules requirements as adopted by the Federal Communications Commission;

(9) Prohibits the carrier of last resort obligation from being transferred to an alternative service provider or provider of local voice service and specifies that any local carrier relieved of its carrier of last resort obligation in a greenfield area will not be deemed to have lost its general designation as a carrier of last resort for service outside the greenfield area;

(10) Allows a telecommunications company, upon notice to the Missouri Public Service Commission, to elect to no longer be designated as a carrier of last resort for any telecommunications service in St. Louis County, St. Louis City, or the portion of Kansas City in Jackson County. The company may provide local voice service using any technology; and

(11) Prohibits a telecommunications company from receiving state high-cost universal service funds

in a high-cost area as defined in Section 392.248, RSMo, if it has been relieved of its carrier of last resort obligation. The company may receive high-cost universal service funds for those areas where it retains the carrier of last resort obligation.

HB 340 — COUNTY FACILITIES

This bill allows a county of any classification to erect and maintain a jail or holding cell facility at a site other than the county seat. Currently, only fourth classification and certain third classification counties are allowed this option.

Currently, the circuit court in Cape Girardeau County is required to hold court and maintain an office of the probate division in the courthouses in the cities of Jackson and Cape Girardeau and the circuit clerk is required to maintain offices in both courthouses. The bill removes that requirement and specifies that the circuit court may hold court and maintain an office of the probate division in Jackson and Cape Girardeau and the circuit clerk may maintain an office at both locations.

The bill contains an emergency clause for the provisions regarding counties erecting and maintaining a jail or holding cell facility at a site other than the county seat.

SCS HCS HB 344 — AGRICULTURE

This bill establishes the Farm-to-Table Advisory Board and changes the laws regarding the Commodity Merchandising Council Program.

FARM-TO-TABLE ADVISORY BOARD (Section 262.950, RSMo)

The Farm-to-Table Advisory Board is established consisting of at least one representative from the University of Missouri-Extension Service; the departments of Agriculture, Corrections, Economic Development, and Elementary and Secondary Education; and the Office of Administration. The Director of the Department of Agriculture will appoint one person who is actively engaged in the practice of small agribusiness. The representative from the Department of Agriculture will serve as chair of the board and coordinate meetings. The board must hold at least two meetings but may hold more if necessary to fulfill its requirements.

The mission of the board is to provide recommendations for strategies that allow schools and state institutions to more easily incorporate locally grown agricultural products into their cafeteria offerings, salad bars, and vending machines and that increase public awareness of local agricultural

practices and the role that local agriculture plays in sustaining healthy communities and supporting healthy lifestyles.

The board must:

(1) Investigate the status and availability of local, state, federal, and any other resources that may be used to link schools and state institutions with local and regional farms for the purchase of locally grown products, to increase market opportunities for locally grown products, and to assist schools and other entities with education campaigns that teach children and the public about the concepts of food production and consumption, the value of an accessible supply of locally grown food, and the interrelationships between nutrition, food choices, obesity, and health;

(2) Identify any type of barrier that prevents or hinders schools and state institutions from purchasing more locally grown products, the expansion of market opportunities for locally grown products, or schools and other entities from engaging in the educational campaigns;

(3) Develop recommendations for the maximization of existing resources and the development of new or expanded resources that are necessary to accomplish its objectives and the elimination of barriers that hinder these objectives; and

(4) Submit a report with its findings and recommendations to the Governor, General Assembly, and the director of each agency represented on the board by August 31, 2012.

COMMODITY MERCHANDISING COUNCIL PROGRAM (Section 275.360)

The provisions regarding the Farm-to-Table Advisory Board will expire August 31, 2012.

HCS HB 354 — EMISSIONS INSPECTION OF ELECTRIC DRIVE VEHICLES

This bill exempts a qualified plug-in electric drive vehicle from the state's motor vehicle emissions inspection program. A "qualified plug-in electric drive vehicle" means a plug-in electric drive vehicle that is made by a manufacturer, has not been modified from the original manufacturer's specifications, can operate solely on electric power, and is capable of recharging its battery from an on-board generation source and an off-board electricity source.

HB 358 — POLICE RETIREMENT SYSTEM OF ST. LOUIS

This bill changes the laws regarding the Police Retirement System of St. Louis by applying federal tax law requirements to the provisions related to annuity distributions, rollovers to individual retirement accounts, rollovers from other retirement plans and accounts, and the annual amount allowed to be distributed to a member.

The bill also specifies that if a member of the retirement system dies on or after January 1, 2007, while performing qualified military service, the member's surviving spouse and other dependents will be entitled to the benefits that would have been provided if the member had returned to active service as a police officer and died while in active service.

SCS HB 388 — PATIENT INFORMATION REGARDING BREAST IMPLANTATIONS

Currently, the attending physician must make available to any patient the advantages; disadvantages; and risks, including cancer, associated with breast implantation prior to surgery as provided in a standardized written summary prepared by the Department of Health and Senior Services. This bill removes the provisions requiring the department to provide the standardized summary information, the physician to make it available to the patient, and the patient to sign a statement acknowledging receipt of the information and requires the attending physician to advise the patient of the advantages, disadvantages, and risks prior to surgery.

HCS HB 407 — CERTIFICATE OF INSURANCE FOR PROPERTY AND CASUALTY INSURANCE COVERAGE

This bill prohibits a person from preparing, issuing, or requesting the issuance of a certificate of insurance form regarding property and casualty insurance unless it has been filed with the Director of the Department of Insurance, Financial Institutions and Professional Registration and from altering or modifying a filed certificate of insurance form. A certificate of insurance is not a policy of insurance but for information only and cannot confer to a holder new or additional policy rights beyond what the referenced insurance policy expressly provides and cannot contain references or opinions on the effect of any other contract. A certificate holder has the legal right to notification of the cancellation, non-renewal, or any material change regarding an insurance policy only if he or she is named within the policy and the notification is required to be provided in the policy. A certificate of insurance cannot create or alter the

terms and conditions of the notice, including the required timing of the notice. An insurance producer can charge a reasonable fee for issuing a certificate of insurance to a policyholder or certificate holder. Any person violating these provisions will be subject to an administrative order and the imposition of any authorized penalty or remedy from the department director.

No person, wherever located, can demand or request the issuance of or knowingly prepare or issue a certificate of insurance that contains any false or misleading information; and no person can prepare, issue, or request an opinion letter or other document that is inconsistent with these provisions, but an insurer or insurance producer may prepare or issue an addendum to a certificate of insurance that lists the forms and endorsements by an insurance policy. These provisions apply to all certificate holders, policyholders, insurers, insurance producers, and certificate of insurance forms issued as a statement of coverage on property operations or risks located in this state regardless of where the holder or producer is located.

Any lender requesting use of an evidence of commercial property insurance exempted under the provisions of the bill which has not been approved for use by the insurer issuing the insurance policy and the insurance producer has advised the lender in writing that the insurance provider has not been authorized to use the requested evidence of commercial insurance will have no cause of action against an insurance producer arising from the use of the form except for acts of intentional misrepresentation or fraud.

This bill changes the laws regarding pharmacies.

MISSOURI RX PLAN (Section 208.798, RSMo)

VETERINARY LEGEND DRUGS (Sections 338.010, 338.140, 338.150, 338.220, and 338.240)

A licensed veterinarian is allowed to administer or prescribe for use only in animals any medicine, drug, or pharmaceutical product including legend drugs under 21 U.S.C. Section 353 by expanding class L veterinary permits issued by the Board of Pharmacy within the Department of Insurance, Financial Institutions and Professional Registration to include the administering or prescribing of legend drugs.

The membership of an advisory committee appointed by the Board of Pharmacy to review

and make recommendations to it regarding drug distributors is increased from five to six by adding a licensed veterinarian recommended by the Board of Veterinary Medicine within the department. The committee will also review and make recommendations to the Board of Pharmacy regarding rules and regulations on veterinary legend drugs.

A pharmacy that only holds a class L veterinary permit is not required to have a pharmacist on site except for when noncontrolled drugs for use in animals are being compounded. A supervising registered pharmacist is responsible for reviewing the activities and records of a class L pharmacy permit holder.

BOARD OF PHARMACY (Section 338.055)

The Board of Pharmacy within the Department of Insurance, Financial Institutions and Professional Registration is authorized to refuse to issue a certificate of registration, permit, or license to an applicant for a pharmacy or drug distributor license if the designated pharmacist-in-charge, manager-in-charge, or any office owner, manager, or controlling shareholder of the applicant has committed an act which would be grounds for discipline.

WHOLESALE DRUG DISTRIBUTORS (Section 338.330)

The bill defines “legend drug” as it relates to regulating wholesale drug distributors as any drug or biological product that is subject to Section 503(b) of the Federal Food, Drug and Cosmetic Act; is required under federal law to be labeled in certain ways; or is required by law or regulation to be dispensed by prescription only or that is restricted to use by practitioners only. Any investigational new drug or a drug product being used for conducting a clinical trial or investigation under specified situations is exempt from this provision.

The bill contains an emergency clause for the provisions regarding wholesale drug distributors.

HB 423 — HEALTH CARE COMPACT

This bill authorizes Missouri to adopt the provisions of the Health Care Compact to improve health care policy within the states by securing consent from the United States Congress to return the authority to regulate health care to the states that have adopted the compact by specifying that the state legislatures have the primary responsibility to regulate health care in their respective states. Missouri and other states that join the compact may suspend federal laws, rules, regulations, and orders regarding health care that are inconsistent with the laws and regulations adopted by the member state pursuant to the compact.

Each member state will have the right to a specified amount of federal funds each fiscal year to support the exercise of the member state’s authority under the compact. The federal funding cannot be conditional on any action of or regulation, policy, law, or rule being adopted by the member state. At the beginning of each fiscal year, Congress must establish an initial funding level for each member state that must be calculated based on information provided by each member state and audited by the United States Government Accountability Office.

The Interstate Advisory Health Care Commission is established to study the issues of health care regulation of particular concern to the member states and may make nonbinding recommendations to them. The commission must collect information and data to assist the member states in their regulation of health care, including assessing the performance of various state health care programs and compiling information on health care prices, and must make this information and data available to the legislatures of the member states. The commission must not take any action within a member state that conflicts with any state law of that state.

The compact will become effective upon adoption by at least two member states and the consent of Congress unless Congress, in consenting to the compact, alters its fundamental purposes.

The compact can be amended by the unanimous agreement of the member states; and any amendment will be effective unless, within one year of its adoption, Congress disapproves the amendment.

Any member state may withdraw from the compact by adopting a law to that effect but no withdrawal can take effect until six months after the governor of the withdrawing member state gives notice of the withdrawal to the other member states. The compact must be dissolved upon the withdrawal of all but one of the member states.

An owner entering into a reset agreement with the commission will receive compensation for the actual cost of resetting the sign. A sign must be reconstructed with the same type of materials and cannot exceed the square footage of the original sign;

(4) Allows a sign owner 120 days from receiving a written notice that a sign will be displaced by construction to execute a partial waiver and reset agreement. If an owner fails to execute an agreement, the commission has the right to initiate normal

Any driver passing another motor vehicle within an active emergency zone will be guilty of a class C misdemeanor. No person can be assessed an additional fine if the area is not visibly marked by emergency personnel.

LIMITED DRIVING PRIVILEGES (Section 302.309)

The bill removes the provisions allowing the issuance of limited driving privileges to a repeat driving while intoxicated offender for the purpose of seeking medical treatment or for any other circumstance that the court or department director finds would create an undue hardship if not allowed but specifies that it can be used for driving to or from the person's place of employment, attending school, attending an alcohol or drug treatment program, or seeking the services of a certified ignition interlock device provider.

The bill specifies that certain repeat offenders will not be eligible for limited driving privileges until they have completed the first 30 days of a suspension or 45 days of a revocation.

COMMERCIAL DRIVER'S LICENSES (Sections 302.341, 302.700, and 302.768)

The bill:

(1) Requires the Director of the Department of Revenue to return the license and remove the suspension from an individual's driving record if he or she was not operating a commercial motor vehicle or was not a commercial driver's license holder at the time of the offense and he or she provides proof of the disposition of the charges, payment of the fine and any court costs, and payment of the reinstatement fee;

(2) Specifies that a person will be disqualified for a commercial driver's license for any withdrawal of his or her privilege to drive a commercial vehicle by the countries of Canada or Mexico as the result of certain specified motor vehicle violations;

(3) Requires an applicant for a commercial driver's license or commercial driver's instruction permit to comply with the requirements of the Federal Motor Carrier Safety Administration by certifying that he or she is:

(a) A driver operating or expecting to operate in interstate or foreign commerce or is otherwise subject to and meets federal rules and is required to obtain a medical examiner's certificate;

(b) A driver operating or expecting to operate entirely in interstate commerce that is exempt from federal law and not required to obtain a medical examiner's certificate;

The bill specifies the certification process. A person who falsifies any information in an application for or an update of medical certification status information cannot be licensed to operate a commercial vehicle or his or her commercial driver's license must be canceled for a period of one year after the department director discovers the falsification.

MUNICIPAL STREETS (Sections 304.120 and 537.293)

A municipality is required to allow at least one street, with lawful traffic movement and access from both directions, to be available for use by a commercial vehicle to access any road in the state highway system. The bill specifies that the legal use of a vehicle on a public street or highway cannot constitute a public or private nuisance and cannot be the basis of a civil action for a public or private nuisance.

VEHICLES HAULING LIVESTOCK OR AGRICULTURAL PRODUCTS (Section 304.180)

The bill specifies that the total gross weight of a vehicle or a combination of vehicles hauling livestock on U. S. Highway 36 from St. Joseph to U. S. Highway 63, on U. S. Highway 65 from the Iowa state line to U. S. Highway 36, and on U. S. Highway 63 from U. S. Highway 36 to the Iowa state line cannot exceed 85,500 pounds. Currently, this weight limit cannot be exceeded on U. S. Highway 36 from St. Joseph to U. S. Highway 65 and on U. S. Highway 65 from the Iowa state line to U. S. Highway 36.

RELOCATION OF MANUFACTURED HOMES (Section 304.200)

The transportation of a manufactured home is prohibited unless the owner of the home has paid property taxes on the home for the taxable year in which the home is being moved and for all prior taxable years. The homeowner or title holder must obtain a receipt from the county collector showing that all property taxes on the home have been paid prior to the transport.

HOUSEHOLD GOODS MOTOR CARRIER REGULATIONS (Sections 387.040, 387.050, 387.080, 387.110, 387.137, 387.139, 387.207, 387.355, 390.051, 390.054, 390.061, 390.116, and 390.280)

The bill:

(1) Exempts a motor carrier transporting household goods in intrastate commerce from the requirement to file its schedule of rates, fares, and charges with the Highways and Transportation Commission within the Department of Transportation. Currently, only a household goods motor carrier operating exclusively within a commercial zone is not required to file its schedule. In lieu of filing this information with the commission, a household goods motor carrier engaged in intrastate commerce must maintain and publish its schedule of rates, fares, charges, and tolls in each of its stations and offices. The rates must be available for inspection by the commission, shippers, and the public upon request;

(2) Prohibits a household goods motor carrier from participating in a joint tariff except for a joint tariff relating to joint rates for the transportation of household goods over any through routes or by interline service performed by two or more separate motor carriers. A household goods motor carrier participating in through routes or interline service must publish a joint tariff and evidence of its concurrence or acceptance or individual tariff for each participating carrier;

(3) Removes the provision which prohibits a household goods motor carrier from using any schedule of rates or charges that divide the state into territorial rate areas;

(4) Requires the commission to establish consumer protection requirements for motor carriers transporting household goods in intrastate commerce and to establish a system for filing, logging, and responding to consumer complaints;

(5) Specifies that all rates, tolls, charges, schedules, and joint rates fixed by the commission with reference to the transportation of passengers and household goods by a motor carrier will be in force and will be prima facie lawful and reasonable until found otherwise in a suit brought under Chapter 387;

(6) Voids, on August 28, 2011, all rate orders issued by the commission affecting the intrastate transportation of household goods to the extent that the rate order requires or prescribes any minimum, maximum, or minimum and maximum rates for the transportation of the goods;

(7) Specifies that, beginning August 28, 2011, no certificate or permit to transport household goods in intrastate commerce will be issued or renewed unless the applicant demonstrates compliance with state workers' compensation insurance coverage laws for all of its employees;

(8) Removes the provision requiring a contract motor carrier transporting household goods to demonstrate that the proposed service will serve a useful present or future public purpose when applying for a certificate of authority or permit. An applicant for a household goods moving certificate of authority or permit will not have to satisfy the public convenience and necessity test when proposing a new service, an extension of existing service, or a transfer of authority. An applicant for a household goods certificate of authority or permit must be fit and willing and able to perform the proposed service and must conform to other specified requirements; and

(9) Voids any geographic restriction or provision limiting a household goods motor carrier's scope of authority to particular routes within this state contained in a certificate, permit, or both which was issued prior to August 28, 2011, and any similar provision contained in a carrier's tariff schedule filed prior to that date. In lieu of the geographic restrictions, a carrier must be authorized to provide intrastate transportation of household goods between all points and destinations within the state until the time the certificates, permits, and tariff schedules are reissued or amended to reflect the carrier's statewide operating authority.

MINING PERMITS (Section 444.771)

The Department of Natural Resources and the Land Reclamation Commission within the department are prohibited from issuing a surface mining or a water or air quality permit to any person whose mine plan boundary is within 1,000 feet of any property where an accredited school has been located for at least five years prior to the permit application. This provision does not apply to a request for an expansion to an existing mine or to any underground mining operation.

COMMUNITY SERVICE FOR INTOXICATION- RELATED TRAFFIC OFFENSES (Section 577.023)

Currently, as an alternative to imprisonment, a prior offender of an intoxication-related traffic offense can perform at least 30 days of community service as one

condition of being eligible for parole or probation and a persistent offender can perform at least 60 days of community service. The bill specifies that a prior offender must perform at least 30 days involving at least 240 hours of community service and a persistent offender must perform at least 60 days involving at least 480 hours of community service before he or she is eligible for probation or parole.

The provisions regarding motor vehicle registrations become effective July 1, 2012; and certain provisions regarding commercial driver's licenses become effective on the date the Director of the Department of Revenue begins accepting medical certifications or May 1, 2013, whichever occurs first.

SS SCS HCS HB 431 — FOSTER CARE AND ADOPTION

Beginning January 1, 2011, the bill authorizes an individual or corporation to designate at least \$1 on a Missouri individual income tax return or at least \$2 on a combined return of his or her tax refund amount to the newly created Foster Care and Adoptive Parents Recruitment and Retention Fund. A taxpayer may also donate to the fund by sending a separate check with the payment of his or her taxes. TASK FORCE ON FOSTER CARE RECRUITMENT, LICENSING, AND RETENTION (Section 210.112)

The Children's Division within the Department of Social Services must convene a task force to review the recruitment, licensing, and retention of foster and adoptive parents statewide. The task force will include representatives of the division, the department, and the private sector and faith-based community which provide recruitment and licensure services. The task force must study the extent to which changes in the system of recruiting, licensing,

and retaining foster and adoptive parents would enhance the effectiveness of the system statewide and must report its findings with recommendations by December 1, 2011, to the General Assembly and the Governor.

FOSTER CARE AND SIBLING PLACEMENTS (Section 210.565)

The bill establishes the following order of preference for the placement of a child in foster care: grandparents and relatives, a trusted adult who has a pre-existing relationship with the child, and any foster parent who is currently licensed and capable of accepting placement of the child. Any person receiving a preference may be licensed in an expedited manner if a child is placed under the person's care.

The Children's Division within the Department of Social Services is required to make reasonable efforts to place siblings in the same foster care, kinship, guardianship, or adoptive placement unless doing so would be contrary to the safety or well-being of any of the siblings. If siblings are not placed together, the division must make reasonable efforts to provide frequent visitation or other ongoing interaction between the siblings unless this interaction would be contrary to a sibling's safety or well-being.

MISSOURI STATE FOSTER CARE AND ADOPTION BOARD (Section 210.617)

The Missouri State Foster Care and Adoption Board is established to provide consultation and assistance to the Department of Social Services. The board must draft and provide an independent review of the policies and procedures of the Children's Division within the department related to the provision of foster care and adoption in Missouri. The board must also determine the nature and content of in-service training which must be provided to foster and adoptive parents in order to improve these services to children statewide. Additional duties of the board are specified.

The board must be comprised of two foster or adoptive parents from each of the division's seven areas. Area members must be appointed by the Governor, with the advice and consent of the Senate, from recommendations by regional foster care and adoption boards or other similar entities. The board must annually provide a written report of its activities to the department director; Governor; Office of Child Advocate; and upon request, members of the General Assembly.

The provisions regarding the Foster Care and Adoptive Parents Recruitment and Retention Fund will expire six years from the effective date.

CCS SS HB 458 — AGRICULTURE

This bill changes the laws regarding sales tax exemptions for farm equipment, noxious weeds, listing of livestock brands, and grain dealers and establishes the Missouri Farmland Trust Act and the Private Landowner Protection Act.

SALES TAX EXEMPTION FOR FARM EQUIPMENT
(Section 144.030, RSMo)

The bill exempts from state and local sales and use taxes the sale of any accessories for and upgrades to farm machinery and equipment, rotary mowers used exclusively for agricultural purposes, and freight charges on any exempt item.

MISSOURI FARMLAND TRUST ACT
(Section 262.815)

The Missouri Farmland Trust Act is established to allow individuals and entities to donate or otherwise convey farmland to the Department of Agriculture to preserve it as farmland and to assist beginning farmers by allowing long-term low and variable cost leases on the land making it affordable for the next generation of farmers to produce food, fiber, and fuel.

The Missouri Farmland Trust will be implemented to accomplish the following objectives:

- (1) Protecting and preserving Missouri's farmland;
- (2) Linking new generations of prospective farmers with present farmers; and
- (3) Promoting best practices in environmental, livestock, and land stewardship.

The Missouri Farmland Trust Advisory Board is established within the department to make recommendations to the department director regarding the appropriate uses of farmland in the trust and the criteria for the selection of program participants and to review and make recommendations regarding applications to lease farmland in the trust.

The bill specifies the membership of the board and the terms of its members. The department is authorized to accept or acquire by purchase, lease, donation, or agreement any agricultural lands, easements, or real and personal property including, but not limited to, buildings, structures, improvements, equipment, or facilities subject to preservation and improvement which will be the property of the trust.

The Missouri Farmland Trust Fund is created consisting of gifts, donations, and appropriations by the General Assembly. Upon appropriation, moneys in the fund must be used for the administration of the trust and may be used to make payments to counties for the value of land in lieu of real and personal property taxes for privately owned land acquired and for the maintenance, operation, regulation, and improvement of the trust's assets to promote agriculture and the general welfare.

Property acquired by the department must be used for agricultural purposes and must be farmed and maintained using the best environmental, conservation, and stewardship practices as specified by the department. No beginning farmer can lease farmland in the trust for more than 20 years. Any person or entity donating to or leasing land from the department must release the state, its employees, volunteers, agents, and any entity acting in concert or on behalf of the state from any and all claims, actions, or demands that he or she and his or her relatives and legal representatives have now or may have in the future for any injury, death, or property damage related to participation in these activities as well as the negligence or any other acts connected to the activities and the condition of the property where the activities occurred.

(Sections 263.190 - 263.241 and 263.450)

The bill:

- (1) Specifies that "noxious weed" means any weed designated as noxious by rules established by the Director of the Department of Agriculture and requires the department to maintain a list of noxious weeds and make it available to the public;
- (2) Expands the requirement of every landowner to control all noxious weeds growing on his or her land sufficiently to prevent the weeds from going to seed to include any person, association of persons, corporation, partnership, the Highways and Transportation Commission within the Department of Transportation, any state department, state agency, county commission, township board, school board, drainage board, governing body of an incorporated city, railroad company or other transportation company and its authorized agent, and any person supervising state-owned lands;

- (4) Repeals provisions designating specific plants as noxious weeds and requiring entities to control the spread of the weeds as well as the provisions regarding a county noxious weed fund.

LISTING OF LIVESTOCK BRANDS

(Section 268.121)

Currently, the Director of the Department of Agriculture must publish a list of all recorded livestock brands in a book form and send a copy of the book and any supplement to the county recorder of deeds in each county and to each licensed livestock market and slaughter plant in the state. The bill removes this requirement and instead specifies that the department director must create a list and make it available on a publicly accessible web site. The list must be updated from time to time.

GRAIN DEALERS (Sections 276.401, 276.416, 276.421, 276.436, 276.441, 276.446, and 411.280)

The bill:

(1) Revises the definition of “grain dealer” or “dealer” to exempt a producer or feeder of grain for livestock or poultry who exclusively buys grain for his or her own farming or feeding purposes from licensed grain dealers or whose total grain purchases from producers during his or her fiscal year do not exceed 50,000 bushels instead of the current \$100,000;

(2) Requires every licensed grain dealer or applicant for a grain dealer’s license to maintain a minimum net worth equal to 5% of annual grain purchases as established in the required financial statements. Currently, only certain dealers or applicants are required to maintain a specified minimum net worth;

(3) Requires any licensed grain dealer or applicant to have and maintain current assets at least equal to 100% of current liabilities and specifies certain requirements regarding the calculation of the amount of a dealer’s or applicant’s assets and liabilities;

(4) Increases the minimum surety bond requirement for a licensed grain dealer from \$20,000 to \$50,000 and the maximum from \$300,000 to \$600,000;

(5) Changes the formula for determining the amount of surety bond required by specifying that the amount must be equal to 2% of the dealer’s previous year’s grain purchases or 2% of the estimated amount if the dealer has been engaged in the business for less than a year. Currently, the amount must be between 1% and 5% of the purchases or the estimate;

(6) Changes the net worth an owner of a licensed grain warehouse must have and maintain to the greater of \$10,000 or the amount which results from multiplying the storage capacity of the warehouse by 25 cents per bushel instead of the current 15 cents per bushel; and

(7) Repeals the provision allowing a grain dealer who has purchased less than \$400,000 of grain during the previous year to satisfy the bond requirement by filing with the Director of the Department of Agriculture a bond at the rate of \$1,000 for every \$20,000 worth of grain purchased with a minimum bond of \$10,000.

PRIVATE LANDOWNER PROTECTION ACT (Section 442.014)

The Private Landowner Protection Act is established which allows for the creation and enforcement of conservation easements designed to protect the environment or preserve certain historical, architectural, archaeological, or cultural aspects of real property. An easement may be created, conveyed, recorded, assigned, released, modified, terminated, or otherwise altered or affected in the same manner as other easements; and a court

may modify or terminate an easement based on the principles of law and equity.

An existing real property interest is not affected by a conservation easement unless the owner is a party to the easement or consents to it. A conservation easement will be valid in a number of situations that are specified in the bill which are not recognized by common law. Retroactive application is mandated to the extent allowed by state and federal law but cannot place any additional burden or obligation on any grantor or grantee, or on their successors, of a conservation easement.

(2) Requires the division director and each employee, before entering upon the discharge of his or her duties, to take an oath that he or she will not reveal any facts, conditions, or affairs of any credit union that he or she may have knowledge of by virtue of his or her official position unless required to do so by law in the discharge of the duties of his or her office or when testifying in any court proceeding;

(3) Prohibits the division director and any division employee who participates in the examination of a credit union or who may be called upon to make an official determination, other than as a member of the Credit Union Commission, from being an officer or director of any credit union regulated by the division or from receiving any payment or gratuity from any of these credit unions, negotiating loans for others, or being indebted to any state-chartered credit union;

(4) Authorizes the division director to compel the production of documents and the attendance of and administer oaths to any person having knowledge of any issue involved with an examination or investigation. The division director may seek judicial enforcement of an administrative subpoena by application to the appropriate court which will be subject to the same defenses or subject to a protective order or conditions as deemed appropriate by the court in accordance with Missouri Supreme Court rules. All information must be held in confidence absent a court's finding of compelling reasons for disclosure except in specified circumstances;

SCS HCS HB 506 — PROPERTY TAX LEVIES

This bill authorizes any political subdivision that approved a tax increase after August 27, 2008, to levy a rate to collect substantially the same amount of tax revenue as would have been collected by applying the voter-approved increased tax rate ceiling to the total assessed valuation of the political

subdivision on or before the election date, increased by the percentage increase in the federal Consumer Price Index.

Currently, certain political subdivisions that levy separate tax rates on the different subclasses of property are required to revise tax rates when there is a tax rate reduction after certain tax revenue calculations. The bill requires a school district to revise the rates. If voters approved before January 1, 2011, separate stated tax rates to be applied to the different subclasses of property or if voters increase the separate rates that may be levied on the different subclasses of property by different amounts, the single tax rate calculation must be a blended rate that is to be calculated in the manner specified by law.

The bill increases the number of years before a newly constructed residential property which has never been occupied is assessed for property taxation from the second year following the year the construction on the home was completed to the fourth year. This provision will apply to those counties, including St. Louis City, in which the governing body has previously adopted or hereafter adopts these provisions.

Currently, the owner of record of real property located within a transportation development district without residents is allowed one vote per acre. The bill allows the owner of record of real property located within a district without residents which was formed as a joint establishment to have one vote per acre.

The department director must confirm receipt by mail or electronically as soon as possible, but no later than 15 business days, after the filing of the notice of lien.

SCS HB 1008 — HIGHWAY INFRASTRUCTURE IMPROVEMENT AGREEMENTS

(Vetoed by the Governor)

This bill allows the Highways and Transportation Commission within the Department of Transportation to enter into binding highway infrastructure

improvement agreements to reimburse or repay any funds advanced by or for the benefit of a county, political subdivision, or private entity to expedite state road construction or improvement. An agreement may provide for the assignment of the commission’s reimbursement or repayment obligations.

The commission may condition the reimbursement or repayment upon projected highway revenues only if terms of the contract explicitly state such a condition. The contract must further provide for a date or dates certain for repayment of funds, and the commission may delay repayment if highway revenues fall below the projections used to determine the repayment schedule or if repayment would jeopardize the receipt of federal highway funds if these conditions are included in the terms of the contract.

HJR 2 — RELIGIOUS FREEDOM IN PUBLIC PLACES

Upon voter approval, this proposed constitutional amendment guarantees a citizen’s right to pray and worship in all private and public areas including schools as long as the activities are voluntary and subject to the same rules and regulations that apply to all other types of speech.

A citizen’s right to choose any religion or no religion at all is reaffirmed by prohibiting the state or any of its political subdivisions from establishing an official state religion and from coercing any person to participate in any prayer or other religious activity.

The resolution also reaffirms the right of employees and elected officials of the State of Missouri to pray on government premises and public property and ensures the General Assembly and the governing bodies of political subdivisions the right to have ministers, clergy persons, and other individuals offer prayers or invocations at meetings or sessions of the General Assembly or a governing body.

Students are allowed to express their religious beliefs in assignments free from discrimination and cannot be compelled to participate in assignments or presentations that violate their beliefs. A public school receiving state funds is required to display the text of the Bill of Rights of the United States Constitution in a conspicuous and legible manner.

The provisions of the resolution cannot be construed to expand the rights of prisoners in state or local custody beyond those guaranteed by federal law.

HCS#2 SB 3 — ELECTIONS***(Vetoed by the Governor)***

This bill changes the laws regarding elections. In its main provisions, the bill:

(1) Requires each local election authority to establish one advance voting center in each county in the state or at least one center for every 100,000 persons which is reasonably distributed throughout the county. Any registered voter may vote by advance ballot in person at any election for a federal or statewide office. Advance voting will begin on the third Saturday prior to the election until the Tuesday immediately preceding the election, excluding Sundays, using absentee voting procedures and ballots including the casting and counting of ballots and the appointment of election judges and polling places. Advance voting centers will be open from 8:00 a.m. to 5:00 p.m. on weekdays and for a four-hour period between 8:00 a.m. and 4:00 p.m. on Saturdays. All provisions of state law regarding the appointment of election judges and polling places and the procedures for casting and counting ballots will apply to advance voting. The counting of votes may be done by automatic tabulating or electronic data processing equipment. The Secretary of State and each local election authority must provide adequate public notice of the advance voting centers and voting times including, but not limited to, a posting at each local election authority's respective office and on the web site of each authority that maintains a web site. All costs associated with the implementation of advance voting must be reimbursed by the state. If there is no appropriation and distribution of funds, an election authority must not conduct advance voting;

(2) Specifies that a person seeking to vote in a public election must establish his or her identity and eligibility to vote as a United States citizen lawfully residing in this state by presenting to election officials one of the specified forms of personal identification which contains his or her photograph. All costs incurred by an election authority to implement the photo identification requirement must be reimbursed by the state. If there is no appropriation and distribution of funds, the election authority must not enforce the photo identification requirement;

(3) Allows an individual to vote by casting a provisional ballot after signing an affidavit if he or she does not possess a required form of personal identification because of a physical or mental disability or handicap, the inability to pay for a birth certificate or other documentation necessary to obtain the identification required to vote, or a sincere religious belief against these forms of personal identification or the person was born on or before January 1, 1941;

(4) Allows an individual to vote by casting a provisional ballot if he or she lacks photographic identification and then return to the election authority within three days after the election with a valid form of identification so that the provisional ballot may be counted;

(5) Requires the state and all fee offices to provide at no cost at least one form of personal identification required to vote to a qualified individual who does not already possess the required identification and desires the identification in order to vote; and

(6) Removes the provision allowing a disabled or elderly person to obtain a nondriver's license photo identification through a mobile processing system operated by the Department of Revenue.

The provisions of the bill are nonseverable; and if any provision is found to be invalid for any reason, the remaining provisions will be invalid. The bill will become effective only upon voter approval of a constitutional amendment that authorizes the General Assembly to enact laws regarding photo identification requirements for elections and advance voting.

SCS SB 19 — CORPORATE FRANCHISE TAX

Beginning in the 2012 tax year, this bill gradually reduces the annual corporate franchise tax rate from one-thirtieth of 1% until no tax is imposed for tax years beginning on or after January 1, 2016. The annual tax liability of a corporation for corporate franchise tax for tax years 2011 through 2015 is limited to the amount of the corporation's tax liability for the tax year ending on or before December 31, 2010. If a corporation did not have a corporate franchise tax liability in the 2010 tax year because the corporation was not doing business within the state or did not exist, the corporation's annual franchise tax liability cannot exceed the amount of the corporation's franchise tax liability for its first full taxable year of existence or doing business in the state.

SB 36 — LEAVE OF ABSENCE FOR CERTAIN CIVIL AIR PATROL MEMBERS

This bill requires any employee of an employer with 50 or more workers who is or may become a member of the civil air patrol and has met certain qualifications or certification to be granted a leave of absence to perform civil air patrol emergency service duty or counter narcotics missions. The employee will not lose time, regular leave, or any other rights or benefits as a result of this leave of absence. The leave cannot be for more than 15 working days in any calendar year, except for when responding to a state or nationally declared emergency in Missouri.

The employer cannot be required to pay a salary to the employee during this leave of absence and has the right to request that the employee be exempted from responding to a specific mission which must be honored by the Missouri Wing Commander of the Missouri Civil Air Patrol.

The bill contains an emergency clause.

SB 38 — PROSTATE CANCER PILOT PROGRAMS

Subject to securing a cooperative agreement with a non-profit entity for funding, this bill establishes two prostate cancer pilot programs within the Department of Health and Senior Services to fund prostate cancer screening and treatment services and to provide education to men residing in the state. One program must be located in St. Louis City and one in Pemiscot, New Madrid, or Dunklin county. The department can contract with the Missouri Foundation for Health to implement the pilot programs. In its main provisions, the bill:

(1) Specifies that the programs must be open to uninsured men or men who have a gross income of up to 150% of the federal poverty level and who are at least 50 years of age or between 35 and 49 years of age who are at high risk for prostate cancer;

(2) Requires the programs to provide prostate cancer screening, referral and treatment services, and outreach and education activities;

(3) Requires, upon appropriation, the department to distribute grants to local health departments and federally qualified health centers for the administration of the programs; and

(4) Requires the department to report to the Governor and General Assembly three years after the initial grants were first administered regarding the number of individuals screened and treated under the programs, including racial and ethnic data, and any cost savings as a result of the early detection of prostate cancer.

The provisions of the bill will expire six years from the effective date.

CCS HCS SB 48 — UTILITIES

This bill changes the laws regarding utilities. In its main provisions, the bill:

(1) Removes the certified mail requirement for a notice regarding the disconnection of service for the nonpayment of sewer service charges. Currently, any municipality, sewer corporation, or sewer district that contracts with a water company to terminate water service to customer premises for nonpayment of sewer bills is required to send the notice of termination of water service by certified mail (Sections 250.236 and 393.015, RSMo);

(2) Requires an appeal of a Missouri Public Service Commission order or decision to be heard in the appellate court instead of the circuit court and changes the appellate procedures by:

(a) Requiring the commission in any proceeding resulting in the establishment of new rates for certain public utilities to cause to be prepared and approve, after allowing the parties a reasonable opportunity to provide written input, a detailed reconciliation containing the dollar value and rate or charge impact of each contested issue decided by the commission and the customer class billing determinate used by the commission;

(b) Allowing a notice of a commission order affecting a person or corporation to be provided by electronic service in addition to the current options of personal delivery or prepaid mail to the individuals or, in the case of a corporation, to any officer or agent upon whom a summons may be served in accordance with provisions of the code of civil procedure and removing the provision which requires a person or corporation who is served a certified copy of a commission order to notify the commission of its receipt;

(c) Specifying that an appellant may file a notice of appeal with the commission and the appropriate appellate court within 30 days after a request for a rehearing is denied or a final decision on rehearing is made for a commission order or decision issued on or after the effective date of these provisions. The bill specifies the information which must be included with the notice of appeal. Currently, the appellant may apply to the appropriate circuit court within 30 days after the rehearing is denied or the final decision on the rehearing is made;

(d) Requiring the commission to certify its record in the case to the court of appeals within 30 days of the filing of the notice of appeal unless otherwise ordered by the court of appeals;

(e) Specifying that the commission and any party to a commission action or proceeding must have the right to intervene and participate fully in the review proceedings;

(f) Requiring the court of appeals, upon the submission of a case, to render its opinion affirming or setting aside, in whole or in part, the order or decision of the commission under review;

(g) Allowing an appellate court to stay or suspend the operation of a commission order or decision, in whole or in part, that does not involve the establishment of new rates and charges for a public utility if the court determines that great or irreparable damage would otherwise result to the appellant. No stay or suspension of a commission's order or decision will be issued for orders or decisions involving new rates or charges for public utilities that are not classified

as price-cap or competitive companies; however, temporary rate adjustments may be allowed. An appellate court may require the commission to provide temporary rate adjustments in a case where the court determines that a commission order or decision unlawful or unreasonably decided an issue in a manner affecting rates. The requirements for calculating a temporary rate adjustment based on the type of deviation from lawful or reasonable rates are specified in the bill;

(h) Specifying that no action affecting a public utility's collection of rates and charges can be taken in a case where the appellate court cannot make a determination because the commission failed to include adequate findings of fact to support the commission's decision or failed to receive properly offered evidence and requiring the commission to provide the findings of fact to support its decision or issue a new order within 90 days of the court-issued mandate; and

(i) Allowing the commission and any party that is aggrieved by the opinion of an appellate court to seek a rehearing or a transfer to the Missouri Supreme Court under rules established by the court and removing the provision which requires a \$500 bond be filed within 10 days after a judgment has been entered in a circuit court in order to file an appeal with the Missouri Supreme Court or a court of appeals (Sections 386.420, 386.490, and 386.510 - 386.540);

(3) Prohibits any public utility regulated under Chapter 393 from requiring a deposit or guarantee as a condition of continued residential service to any existing customer who has been delinquent in paying his or her utility bill at least five times in 12 consecutive months if the customer has consistently made a payment by the delinquent date each month during the 12 consecutive months and the payment is at least \$75 or 25% of the outstanding balance if the total outstanding balance is \$300 or less. These provisions do not apply to a customer who owes more than \$300 or who has a previously established payment plan with the utility (Section 393.152); and

(4) Allows an owner of a park consisting of at least 50 contiguous acres in which the property is subject to remediation under a clean-up program supervised by the Department of Natural Resources or the United States Environmental Protection Agency to submit an application to the Department of Economic Development to establish a cleanfields renewable energy demonstration project. The department must review all project applications and, in consultation with the Department of Natural Resources, verify satisfaction of all requirements. If the Department of Economic Development approves a project application, it must forward the application and

approval to the Missouri Public Service Commission. Upon receipt of the application and approval, the commission must assign double credit to any electric power, renewable energy, renewable energy credits, or any successor credit generated from certain renewable energy resources or certain electric power generated off-site by utilizing biomass fuel or renewable energy resources (Section 620.2300).

The bill contains an emergency clause for certain provisions regarding the appeal of an issue initially decided by the Missouri Public Service Commission and for the provisions regarding cleanfields renewable energy demonstration projects.

SCS SB 54 — PROTECTION OF CHILDREN FROM SEXUAL OFFENDERS

This bill changes the laws regarding the protection of children from sexual offenders. In its main provisions, the bill:

(1) Authorizes the Office of Child Advocate within the Office of Administration to file any findings or reports regarding the parent or child with the court, issue recommendations regarding the disposition of an investigation which may be provided to the court and the investigating agency, and mediate between an alleged victim of sexual misconduct and a school district (Section 37.710, RSMo);

(2) Specifies that certain provisions regarding the protection of children from sexual offenders will be known as the Amy Hestir Student Protection Act (Section 160.085);

(3) Requires a school employee who is a mandated reporter and the superintendent of the school district to forward any allegation reported by a student of sexual misconduct on the part of a teacher or other school employee to the Children's Division within the Department of Social Services within 24 hours of receiving the information in order for the division to investigate the report. The district must not conduct an investigation for the purpose of determining whether the allegation should be substantiated, but it may investigate the allegation for the purpose of making a decision regarding the accused employee's employment. The investigating officer must review the report using a preponderance of evidence standard (Section 160.261);

(4) Authorizes the Office of Child Advocate to coordinate mediation efforts between a school district and a student when requested by both parties for a child abuse allegation arising in a school setting. The mediator cannot be a mandated reporter of child abuse; and no student, parent, school employee, or district can be required to participate in mediation. The requirements of the mediation procedure are specified in the bill (Section 160.262);

(5) Establishes Erin's Law which creates the Task Force on the Prevention of Sexual Abuse of Children consisting of 18 members including one member appointed by the President Pro Tem of the Senate, one member by the Minority Leader of the Senate, one member by the Speaker of the House of Representatives, and one member by the Minority Leader of the House of Representatives. The task force must make recommendations for reducing the incidents of sexual abuse of children in Missouri; must submit a final report to the Governor, General Assembly, and the State Board of Education within the Department of Elementary and Secondary Education by January 1, 2013; and may adopt and implement a policy addressing sexual abuse of children (Sections 160.2100 and 160.2110);

(6) Prohibits a registered sexual offender or a person required to be registered as a sexual offender from being a candidate for any school board (Section 162.014);

(7) Requires, by July 1, 2012, every school district to adopt a written policy on information that the district provides about a former employee to another public school. A district must immediately suspend an employee who has been investigated by the division and for whom there has been a substantiated finding of sexual misconduct with a student. The district may return the person to employment if the Child Abuse and Neglect Review Board's finding that the allegation is substantiated is reversed by a court on appeal and becomes final. Nothing will preclude a district from otherwise lawfully terminating the employment of an employee about whom there has been an unsubstantiated finding from an investigation. A district employee who is permitted to respond to a request for information regarding a former employee, communicates only the information that the policy directs, and acts in good faith without malice will be immune from any civil action for damages brought by the former employee arising from the communication of the information. If an action is brought against the employee, he or she may request the Attorney General to defend him or her in the suit, except as specified in the bill. If a district received an allegation of an employee's sexual misconduct or the substantiation of an allegation by the review board and the district dismissed or allowed the employee to resign in lieu of being fired and failed to disclose the allegation when furnishing a reference for the former employee or when responding to a potential employer's request for information, the district will be liable for damages to any student of a subsequently employing district who is found by a court of competent jurisdiction to be a victim of the former employee's sexual misconduct. The district will bear third-party

liability for any legal liability and expenses incurred by the employing district caused by the failure to disclose the information. A district that has employed a person for whom there was a substantiated finding from a division investigation must disclose the results of the division's investigation to any other public school that contacts it for a reference. A district is prohibited from discharging or discriminating against an employee who, when acting in good faith, reports alleged sexual misconduct of a teacher or other school employee (Section 162.068);

(8) Requires every school district to develop a written policy by January 1, 2012, concerning teacher-student communication and employee-student communication. Each policy must include appropriate oral and nonverbal personal communication and appropriate use of electronic media. A teacher cannot establish or use a work-related web site unless it is available to school administrators and the child's legal custodian, physical custodian, or legal guardian and cannot establish or use a nonwork-related web site that allows exclusive access with a current or former student. By July 1, 2012, each district must include in its teacher and employee training a component on identifying signs of sexual abuse in children and danger signals of potentially abusive relationships between children and adults with an emphasis on the importance of mandatory reporting of abuse. The training must also include an emphasis on the obligation of mandated reporters to report suspected abuse by other mandatory reporters and how to establish an atmosphere of trust so that students feel their school has concerned adults with whom they feel comfortable discussing matters related to abuse (Section 162.069);

(9) Clarifies that an applicant must complete a background check as provided in Section 168.133 in order to obtain a teaching certificate (Section 168.021);

(10) Adds the crimes of sexual contact with a student while on public school property as well as sexual misconduct in the second or third degree to the offenses for which a teacher's certificate may be revoked (Section 168.071);

(11) Specifies that the criminal background check for a bus driver employed by a pupil transportation company under contract with a school district must be conducted through the State Highway Patrol's criminal record review and must conform to the requirements of the National Child Protection Act of 1993, as amended by the Volunteers for Children Act. The school district will be responsible for conducting the background check on a bus driver employed by the district. A district's criminal background check on school employees must include a search of publicly

available information in an electronic format that displays information through a public index or single case display (Section 168.133.1);

(12) Changes the number of sets of fingerprints an applicant must submit for a criminal history background check from two to one. The Department of Elementary and Secondary Education must facilitate an annual check of employed individuals with current active teaching certificates against criminal history records in the central repository, sexual offender registry, and child abuse central registry. The department must also facilitate procedures for school districts to submit personnel information annually for persons employed by districts who do not hold a certificate but are required to undergo the background checks. The patrol must provide ongoing electronic updates to criminal history background checks of those persons previously submitted by the department. A district may, in its discretion, conduct a new criminal background check and fingerprint collection for a newly hired employee at its expense (Sections 168.133.2 and 168.133.4);

(13) Grants immunity from any civil or criminal liability to a person who is not a school district employee and reports an alleged incident of child abuse to any employee of a district unless he or she makes a false report knowing that it is false or acts in bad faith or with ill intent in making the report. The person will have the same immunity with respect to participation in any judicial proceeding resulting from the report (Section 210.135);

(14) Requires the Children's Division within the Department of Social Services to provide information about the Office of Child Advocate and its services to anyone who is not satisfied with the results of an investigation (Section 210.145);

(15) Allows the division to reopen a case for review at the request of an alleged victim, an alleged perpetrator, or the Office of Child Advocate under certain specified circumstances. An investigation cannot be reopened while a case is pending before a court or when a court has entered a final judgment after a de novo judicial review. Any person who makes a request to reopen an investigation based on facts which the person knows to be false will be guilty of a class A misdemeanor (Section 210.152);

(16) Adds the Department of Elementary and Secondary Education to the list of departments that must collaborate to compare records on child care; elder care; mental health; and personal care workers, including individuals required to undergo a background check under Section 168.133, and to the list of departments that may use registry information to carry out assigned duties (Sections 210.915 and 210.922); and

(17) Changes the statute of limitations for a prosecution of an unlawful sexual offense involving a person 18 years of age or younger so that the prosecution must be commenced within 30 years, rather than 20 years, after the victim reaches the age of 18 with the exception of certain specified crimes (Section 556.037).

The provisions of the bill regarding Erin's Law will expire January 1, 2013.

SS SB 55 — TAX CLASSIFICATION OF SAWMILLS

This bill classifies a sawmill or planing mill defined in the United States Department of Labor's Standard Industrial Classification (SIC) Manual under Industry Group 242 with the SIC number 2421 as agricultural and horticultural property instead of commercial property for property taxation purposes.

In the case of a conservatorship, the final settlement of the public administrator's conservatorship must be filed in the original county within 30 days of the transfer and forwarded to the receiving county upon audit and approval.

The bill also specifies that risk coverages procured by an association formed by three or more political subdivisions to provide liability and other insurance will not be deemed to constitute a contract, purchase, or expenditure of public funds and does not require the solicitation of competitive bids. The association is authorized to close meetings, records, and votes under the Open Meetings and Records Law, commonly known as the Sunshine Law, to the extent that the meetings, records, and votes pertain to actuarial analysis, loss history, claims, data, reports, and similar information relating to the determination of member rates and contributions.

The provisions of the bill are nonseverable; and if any provision is found to be invalid for any reason, the remaining provisions will be invalid.

SS SCS SB 65 — LATE-TERM ABORTIONS

This bill revises the definition of "abortion" to mean the act of using or prescribing an instrument, device, medicine, drug, or any other means or substance with the intent to destroy the life of an embryo or fetus in the mother's womb. Except in the case of a medical emergency, no abortion of a viable, unborn child can be performed or induced unless the abortion is necessary to preserve the life of the pregnant woman whose life is endangered by a physical disorder, illness, or injury or when the continuation of the pregnancy will create a serious risk of substantial and irreversible physical impairment of a major bodily function of the pregnant woman. "Viable" means the

stage of fetal development when the life of the unborn child may be continued indefinitely outside the womb by natural or artificial life-supportive systems.

Except in the case of a medical emergency, a physician must, prior to performing or inducing an abortion, determine the gestational age of the unborn child in a manner consistent with accepted obstetrical and neonatal practices and standards. If a physician determines that the gestational age of the unborn child is 20 weeks or more, he or she must, prior to performing or inducing an abortion, determine if the unborn child is viable by medically determining the gestational age, weight, and lung maturity of the unborn child and enter that information in the woman's medical record. If a physician determines the gestational age of the unborn child is 20 weeks or more and the unborn child is not viable and an abortion is performed or induced, the physician must report these findings and determinations and the reasons for the determinations to the health care facility in which the abortion is performed and to the State Board of Registration for the Healing Arts within the Department of Insurance, Financial Institutions and Professional Registration. The physician must also enter the determinations in the woman's medical records and in the individual abortion report submitted to the Department of Health and Senior Services.

If a physician determines that the unborn child is viable, the physician cannot perform or induce an abortion except in the case of a medical emergency. A physician must certify in writing the medical threat posed to the life of the pregnant woman or the medical reasons that continuation of the pregnancy would cause a serious risk of substantial and irreversible physical impairment of a major bodily function of the pregnant woman before the physician can proceed with performing or inducing an abortion on a woman when it has been determined that the unborn child is viable. Before a physician may perform or induce an abortion on a woman carrying an unborn child that has been determined to be viable, he or she must:

(1) Obtain the agreement of a second physician who has knowledge of accepted obstetrical and neonatal practices and standards and concurs that the abortion is necessary to preserve the life of the pregnant woman or that continuation of the pregnancy would cause a serious risk of substantial and irreversible physical impairment of a major bodily function of the pregnant woman. The second physician must also report the reasons and determinations to the health care facility and the board and enter that information in the woman's medical record and the individual report to the Department of Health and Senior Services. The second physician cannot have any legal or financial affiliation or relationship with the physician performing or inducing the abortion;

however, this will not apply to a physician whose affiliation or relationship is the result of being employed by or having staff privileges at the same hospital;

(2) Use the available method or technique of abortion that is most likely to preserve the life or health of the unborn child;

(3) Certify in writing the available methods considered and the reasons for choosing the method used; and

(4) Have in attendance at the abortion a second physician who is responsible for taking control of and providing immediate medical care for a child born as a result of the abortion.

Any person who knowingly performs or induces an abortion of an unborn child in violation of these provisions will be guilty of a class C felony and subject to imprisonment for not less than one year and a fine of between \$10,000 and \$50,000. Any physician licensed in this state who pleads guilty to or is found guilty of performing or inducing an abortion of an unborn child in violation of these provisions can have his or her license suspended or revoked by the State Board of Registration for the Healing Arts within the Department of Insurance, Financial Institutions and Professional Registration. Any licensed hospital or ambulatory surgical center that knowingly allows an abortion to be performed or induced in violation of these provisions can be subject to the suspension or revocation of its license.

The provisions of the bill are intended by the state legislature to be severable in regards to validity for purposes of upholding the state and federal constitutions. The General Assembly may appoint, by concurrent resolution, one or more sponsoring members of the bill to intervene if the provisions of the bill are constitutionally challenged.

SCS SB 68 — POWERS OF THE GENERAL ASSEMBLY

Upon the death of the beneficiary, the board must promptly determine the principal balance of the account and, after paying any expenses of the beneficiary and the authorized fees and expenses of the board, distribute it to the persons, entities, or organizations designated by the settlor as remainder beneficiaries;

(6) Allows the settlor or co-trustee of a revocable third-party trust account, if authorized by the settlor in the trust documents and upon written notice to the board and with the board's consent, to withdraw from time to time part of the trust account if the amount when aggregated with all withdrawals within the preceding 12 months does not reduce the remaining balance of the account below certain specified levels;

(7) Allows the settlor or co-trustee of a revocable third-party trust account, if authorized by the settlor in the trust documents and upon written notice to the board and with the board's consent, to revoke and terminate the trust account;

(7) Authorizes the governing body of a hospital district in the counties of Iron or Madison to impose, upon voter approval, a local sales tax of up to 1% in lieu of a property tax to fund the hospital district (Sections 144.032 and 205.205); and

(8) Authorizes the City of Columbia to impose, upon voter approval, a retail sales tax of up to 1% for the purpose of capital improvements for public safety, including expenditures for new construction and equipment, repair and maintenance of buildings and equipment, and for financing the capital improvements (Section 1).

HCS SS SB 118 — SPRINKLER SYSTEM REQUIREMENTS FOR LONG-TERM CARE FACILITIES

(Vetoed by the Governor)

Currently, certain long-term care facilities are required to install and maintain an approved sprinkler system by December 31, 2012. This bill extends the required implementation date to December 31, 2014.

A facility applying for a loan from the State Treasurer in order to comply with the sprinkler facility requirements will have its loan repayment terms set in accordance with the facility's average total Medicaid reimbursement rate for Fiscal Year 2012. Currently, the repayment terms are based on the reimbursement rate at the time the loan is received.

HCS SS SCS SB 132 — CERTAIN SPECIALTY LINES INSURANCE

This bill changes the laws regarding certain specialty lines insurance.

INSURANCE CLAIMS HANDLING OPERATIONS (Section 44.114, RSMo)

At the time of any emergency, catastrophe, or other life or property threatening event which jeopardizes the ability of an insurer to address the financial needs of its insureds or the public, no political subdivision can impose restrictions or enforce local licensing or registration ordinances with respect to an insurer's claims handling operations. However, nothing can prohibit the political subdivision from performing any safety inspection as authorized by local ordinance of the premises of the insurer's base of operations within the disaster area.

INSURANCE COMPANY RETALIATORY TAXES (Section 375.916)

The bill changes the laws regarding retaliatory taxes on Missouri insurance companies or carriers. An insurance company claiming a state premium tax credit or deduction cannot be required to pay any additional retaliatory tax levied pursuant to Section 375.916 as a result of claiming the credit or deduction. Effective January 1, 2012, operating assessments based upon workers' compensation paid losses that are imposed on an insurance company by the laws of its state or foreign country of domicile cannot be considered any premium or income or other taxes or any fees, fines, penalties, licenses, or deposit requirements or other obligations, prohibitions, or restrictions if, with respect to the tax year in question, the insurance company has its principal place of business within Missouri and receives more than \$3 million of direct insurance premiums on business done in this state.

INSURANCE COVERAGE FOR PORTABLE ELECTRONIC DEVICES (Sections 379.1500 - 379.1550)

Beginning January 1, 2012, a portable electronics transaction vendor must obtain a license from the Department of Insurance, Financial Institutions and Professional Registration in order for an employee or authorized representative to sell or offer portable electronics insurance at each location where the vendor engages in a portable electronics transaction. The initial cost of a license cannot exceed \$1,000, and the annual renewal fee cannot exceed \$500. The fees will be deposited into the Insurance Dedicated Fund.

A vendor is required to have available at each location specific brochures and actual policies or certificates of coverage available to prospective customers which disclose information about portable electronics insurance benefits, duplication of coverage, material terms of the coverage, process for filing a claim, and option to cancel a policy at any time and receive a prorated refund. Portable electronics insurance will be deemed the primary coverage over any other collateral coverage.

Eligibility and underwriting standards for a customer electing to enroll in coverage must be established for each portable electronics insurance program. Each insurer must maintain all eligibility and underwriting records for five years and appoint a business entity to supervise administration of the program. The supervising entity will be responsible for the development of a training program for the employees and authorized representatives of the vendor. Insurers and applicable supervising business entities offering portable electronics insurance must share

all complaint, grievance, and inquiries regarding any conduct that is specific to a vendor and that may not comply with applicable state laws and regulations. A supervising business entity must maintain a registry of authorized vendor locations; and upon request of the department director and within 10 days' notice to the supervising entity, the registry must be open to inspection and examination. Within 30 days of a supervising business entity terminating a vendor location's appointment to sell or solicit the insurance, the entity must update at no charge the registry with the effective date of termination.

A vendor can bill and collect any charge that is not included with the purchase or lease of portable electronics or related services if the fee is listed separately on the customer's bill. A vendor must clearly and conspicuously disclose to the customer if the cost of the portable electronics insurance is included in the purchase price of the electronic device or related services.

A licensed vendor will be subject to specified provisions of law under the Insurance Producers Act and to investigation and examination by the department. The department director can suspend, revoke, refuse to issue, or refuse to renew a license of an insurer or a vendor for specified reasons and can impose other penalties, issue an administrative order, or maintain a civil action against the vendor.

An insurer may terminate or change the terms and conditions of a policy if he or she gives at least 30 days' notice to the policyholder and enrolled customers. An insurer can terminate a policyholder's coverage upon 15 days' notice for the discovery of fraud or nonpayment, for inactivity of service with the vendor, or if he or she exceeds coverage limits.

REGULATION OF SURPLUS LINES INSURANCE (Sections 384.015, 384.017, 384.021, 384.043, 384.051, 384.057, and 384.061)

The bill changes the laws regarding the regulation of surplus lines insurance to comply with the federal Nonadmitted and Reinsurance Reform Act of 2010 (NRRRA) to bring about uniformity in the licensing of surplus lines insurance professionals, the standards under which surplus lines insurance may be sold, and the taxes that can be collected from the sale of surplus lines insurance. The bill:

(1) Specifies that surplus lines insurance may be placed by a surplus lines licensee if the insurer is authorized to write that type of insurance in its domiciliary jurisdiction;

(2) Changes the requirements and qualifications for a nonadmitted insurer to furnish coverage. A surplus lines licensee must not place coverage with a nonadmitted insurer unless, at the time of placement, the licensee determines that the nonadmitted insurer:

(a) Meets the capital and surplus requirements of Missouri or \$15 million. The Director of the Department of Insurance, Financial Institutions and Professional Registration may waive the financial requirements if the nonadmitted insurer's capital and surplus is at least \$4.5 million and upon an affirmative finding of acceptability based on specified factors by the department director; and

(b) Appears on the most recent list of eligible surplus lines insurers published by the department director or on the most recent quarterly listing of alien insurers maintained by the International Insurers Department of the National Association of Insurance Commissioners (NAIC);

(3) Specifies that a surplus lines licensee seeking to procure or place nonadmitted insurance in Missouri for an exempt commercial purchaser cannot be required to satisfy any requirement to make a due diligence search to determine whether the full amount or type of insurance sought by the exempt commercial purchaser can be obtained from nonadmitted insurers if:

(a) The surplus lines licensee procuring or placing the surplus lines insurance has disclosed to the exempt commercial purchaser that the insurance may or may not be available from the admitted market that may provide greater protection with more regulatory oversight; and

(b) The exempt commercial purchaser has subsequently requested in writing the surplus lines licensee to procure or place the insurance from a nonadmitted insurer;

(4) Changes the licensing requirements for an insurance producer in the surplus lines insurance market. Beginning on or before July 1, 2012, the department director must participate in the national insurance producer database of the NAIC or any other equivalent uniform national database for the licensure of surplus lines licensees and the renewal of these licenses. A person selling, soliciting, or negotiating nonadmitted insurance with respect to an insured must obtain or possess a current surplus lines insurance license issued by the department director only if this state is the insured's home state;

(5) Requires every insured or self-insurer whose home state is Missouri who procures or causes to be procured or continues or renews any surplus lines insurance, other than through a surplus lines broker, to file a report before March 2 with the department director containing the names and addresses of the insureds and insurers, the subject and description of the insurance, the amount of premium charged, and any pertinent information that may be requested by the department director. Currently, this is required of every insured or self-insurer in this state;

(6) Imposes a 5% tax on the gross amount of the premium for nonadmitted or surplus lines insurance policies for which the home state of the insured is Missouri. Currently, it is based on the net amount of the premium in respect to risks located in this state;

(7) Specifies that only the home state of the insured will have the authority to tax and regulate the placement of these policies regardless of where risks or portions of the risk are located; and

(8) Specifies that the placement of nonadmitted insurance must be subject to the statutory and regulatory requirements of Missouri law only if this state is the insured's home state. A surplus lines broker must be licensed as a surplus lines licensee under the provisions of Chapter 384 only if this state is the insured's home state.

MOTOR VEHICLE EXTENDED SERVICE CONTRACTS (Sections 385.200 - 385.211)

The bill:

(1) Specifies that it is unlawful for a motor vehicle extended service contract provider to fail to deliver a fully executed contract to the consumer within a commercially feasible time period, but no more than 45 days, from the date the consumer's initial payment is processed. It will also be unlawful for any provider, administrator, producer, or any other person selling a contract to fail to deliver, upon request, an unsigned copy of the contract to the consumer prior to the time the consumer's initial payment is processed. A seller may comply with this provision by directing the consumer to a web site containing an unsigned copy of the contract. Anyone violating these provisions will be guilty of a level two violation under Section 374.049;

(2) Specifies that the following are authorized to sell motor vehicle extended service contracts: any licensed motor vehicle dealer offering the contract in connection with the sale of a motor vehicle or vehicle maintenance or repair services; a manufacturer of motor vehicles; a federally insured depository institution; a lender licensed under Section 367.100 - 367.215; a provider along with its subsidiaries and affiliated entities registered with the Director of the Department of Insurance, Financial Institutions and Professional Registration who has demonstrated financial responsibility as required in Section 385.202; an authorized employee of any of the aforementioned entities; a business entity producer or individual producer licensed as an insurance producer for the limited line of motor vehicle extended service contracts; an authorized employee of certain administrators under contract to effect coverage, collect provider fees, and settle claims on behalf of a registered provider; and a vehicle owner transferring an existing contract to a subsequent owner of the

same vehicle. The bill specifies the application and testing requirements for a person to obtain a license to sell these contracts;

(3) Allows a purchaser of a motor vehicle extended service contract to return the contract for cancellation to the provider within 20 business days of the mailing date of the contract or the contract date if the contract is executed and delivered at the time of sale. Currently, a contract must be returned within 20 business days of the mailing or within 10 days of the date the contract is delivered;

(4) Specifies that if a contract is returned within the free-look period and no claim has been made, the provider must refund the full purchase price to the contract holder. If a claim has been made, the provider must refund the purchase price less any claims that have been paid. A contract must contain a statement which specifies that a contract holder may cancel a contract after the free-look period at any time; and the provider must refund 100% of the unearned pro rata provider fee, less any claims paid. A reasonable administrative fee can be charged in an amount of up to \$50. If the refund is not paid within 45 days, a 10% penalty of the outstanding amount per month must be added to the refund. Currently, the penalty can be added if the refund is not paid within 30 days. Anyone violating these provisions will be guilty of a level two or three violation under Section 374.049;

(5) Requires a business entity applying for a producer license to make application to the department director and pay an initial and renewal fee as determined by the department director which cannot exceed \$100. An application must include the name and address of the business entity, the type of ownership, and certain information as required by the department director. If the business is a partnership or unincorporated association, the application must contain the name and address of every person or corporation having a financial interest in or owning any part of the business entity. If the business is a corporation, the application must include the name and address of every officer and director. If the business is a limited liability company, the application must contain the name and address of every member and officer and a list of every person employed by the business entity to whom it pays any salary or commission for the sale, solicitation, negotiation, or procurement of any motor vehicle extended service contract;

(6) Requires an individual applying for a producer license to make application to the department director and pay an initial and renewal fee as determined by the department director which cannot exceed \$25. An applicant will not be required to take an examination;

(7) Specifies that it is unlawful and will be a level three violation under Section 374.049 for a provider, administrator, producer, or any other motor vehicle extended service contract seller or solicitor to use "warranty" in its materials and to represent in any manner a false, deceptive, or misleading statement with respect to:

(a) An affiliation with a motor vehicle manufacturer or dealer;

(b) Possession of information regarding a motor vehicle owner's current motor vehicle manufacturer's original equipment warranty;

(c) The expiration date of a motor vehicle owner's current motor vehicle manufacturer's original equipment warranty;

(d) A requirement that a motor vehicle owner register for a new contract with the provider in order to maintain coverage under the current contract or the manufacturer's original equipment warranty; or

(e) Any term or provision of a contract;

(8) Specifies that it is unlawful for any person, in connection with the offer, sale, solicitation, or negotiation of a motor vehicle extended service contract to:

(a) Employ any deception, device, scheme, or artifice to defraud;

(b) Make or use any misrepresentation, concealment, or suppression of any material fact;

(c) Engage in any pattern or practice of making any false statement of material fact; or

(d) Engage in any act, practice, or course of business which operates as a fraud or deceit upon any person;

(9) Specifies that any person who knowingly employs, uses, or engages in any conduct in violation of selling a motor vehicle extended service contract with the intent to defraud will be guilty of a felony and may be subject to imprisonment for up to 10 years as well as court-ordered restitution and a fine;

(10) Allows the department director to suspend, revoke, or refuse to issue or renew a registration or license to sell motor vehicle extended service contracts for specified causes. If a license is not renewed or is denied, an appeals process to the Administrative Hearing Commission is specified. The license of a producer may be suspended, revoked, or not renewed or an application can be refused if the department director finds that a violation by the producer was known or should have been known by his or her business entity and the violation was not reported to the department director and no corrective action was taken;

(11) Requires a licensed contract producer to notify the department director within 30 days of any address change, any license revocation or civil action

taken against the producer in another jurisdiction or by another state governmental agency, and the initial pretrial hearing date or arraignment for any felony proceeding initiated by any state or the federal government for any law violation; and

(12) Requires a provider to maintain a register of business entity motor vehicle extended service contract producers who are authorized to sell, offer, negotiate, or solicit the sale of these contracts in this state and to make the list available for inspection upon the request of the department director. Within 30 days of a provider authorizing a producer to sell, offer, negotiate, or solicit the sale of contracts, the provider must enter the name and license number of the producer in the company registry of producers. If a producer's appointment is terminated, the provider must update the registry with the effective termination date within 30 days. A provider must notify the department director in writing if he or she has possession of information relating to any cause for discipline.

The provisions of the bill regarding motor vehicle extended service contracts become effective January 1, 2012.

The bill contains an emergency clause for the provisions regarding the regulation of surplus lines insurance.

The cost of transferring the tires or shred must be less than the cost the state, political

subdivision, or agency would have otherwise incurred had it disposed of the tires or shred. The private entity must pay for the transportation of the used tires it receives.

DRY-CLEANING FACILITIES (Section 260.965)

The expiration date on the provisions regarding dry-cleaning facilities, their operations, and payments to the Dry-cleaning Environmental Response Trust Fund is extended from August 28, 2012, to August 28, 2017.

(Section 319.130)

On or before April 1, 2012, the board of trustees of the Petroleum Storage Tank Insurance Fund must hold one or more public hearings to determine whether to establish and fund an underground storage tank operator training program. The bill specifies the criteria the board must consider when making its decision. If after conducting the hearings, a majority of the board votes to establish and fund a program, the program at a minimum must:

- (1) Meet federal requirements;
- (2) Be developed in collaboration with the departments of Natural Resources and Agriculture, the board's advisory committee, and affected members of the private sector;
- (3) Be offered at no cost to those required to participate;
- (4) Specify standards, reporting, and documentation requirements; and

(Section 319.132)

The bill adds to the list of activities for which the board of trustees of the Petroleum Storage Tank Insurance Fund can administer the surcharge on petroleum products to include the inspection fees paid on any petroleum product which is shipped

outside Missouri for use, sale, or distribution and all applicable provisions in Chapter 142 governing the administration, collection, and enforcement of the state motor fuel tax.

MOTOR FUEL MEASURING DEVICES

(Section 414.072 and Section 1)

The manufacturer's expiration date on motor fuel pump nozzles, hoses, and hose breakaway equipment must not be the sole factor in requiring their repair or replacement or in imposing a fine, penalty, or punishment by the state or any political subdivision. The manufacturer's expiration date on these items cannot impose any new or additional liability on the state, political subdivisions, motor fuel retailers, wholesalers, suppliers, and distributors as well as the retailers and wholesalers of the devices and equipment.

Any automatic volumetric correction device for measuring gasoline and certain specified motor fuel blends sold at retail fueling facilities is prohibited by state rule or the automatic adoption or incorporation of national standards or rules unless the device is first specifically authorized and required by state law.

Only the Department of Natural Resources is authorized to set stage 1 and 2 motor fuel vapor recovery fees, including permit and construction fees, which must be uniform across the state and which cannot be changed by a political subdivision or local enforcement agency.

WATER WELL REGULATIONS (Section 640.116)

A water system cannot be exempt if it regularly serves an average of 100 or more people for at least 60 days of the year or if it serves a school or day care facility.

If a system has three or more violations of the total coliform maximum contaminant level in a 12-month period or one acute violation of the maximum contaminant level, the system's owner must provide an alternative source of water, eliminate the source of contamination, or provide treatment that reliably achieves at least 99.99% treatment of the viruses.

An exempt organization cannot be required to replace, change, upgrade, or alter an existing well constructed prior to August 28, 2011, unless the well is determined to present a threat to groundwater or public health or contains certain contaminant levels.

ENVIRONMENTAL PERMITS (Section 640.905)

All engineering plans, specifications, and designs prepared by a registered professional engineer that are submitted to the Department of Natural Resources as part of a permit application or modification must include a statement that the plans, specifications, and designs were prepared in accordance with all applicable requirements and must be sealed by the registered professional engineer. The department must use the complete sealed plans, specifications, and designs as submitted in addition to a permit application or other relevant information, documents, and materials in developing comments on the engineering submittals and in determining whether to issue or deny a permit. The review of documents, plans, specifications, and designs must be conducted by a registered professional engineer or an engineering intern on behalf of the department.

The department must designate a supervisory registered professional engineer for permitting purposes in environmental programs. Any applicant receiving written comments on an engineering submittal may request a determination from the department's supervisory engineer as to a final disposition of the department's comments. The supervisory engineer must inform the applicant of a preliminary decision within 15 days of the request and must make a final determination within 30 days.

These provisions cannot be construed to require plans or other submittals to the department that come under a general permit or an application for a site specific permit to be prepared by a registered professional engineer unless otherwise required by state or federal law.

(3) Changes the penalty for a screening violation by a junkyard located within 200 feet of a state or county road by making a first violation a class C misdemeanor and a second or subsequent violation a class A misdemeanor. Substantial compliance with a court order regarding the property will constitute a good faith effort;

(5) Revises the definition of "domestic violence" as abuse or stalking;

(6) Revises the definition of "family" or "household member" to include any person related by blood or marriage; persons presently residing together or who have resided together in the past; any person who is or has been in a continuing social relationship of a romantic or intimate nature with the victim; and anyone who has a child in common regardless of whether they have been married or have resided together at any time;

(12) Requires a court to transfer a case to juvenile court for a hearing on a full order of protection if an ex parte order is entered and the respondent is younger than 17 years of age. The court must appoint a guardian ad litem for any respondent not represented by a parent or guardian;

(13) Requires the local law enforcement agency or any other government agency responsible for serving ex parte orders of protection to enter service information into the State Highway Patrol's Missouri Uniform Law Enforcement System (MULES) or future secure electronic databases that are intended for law enforcement use within 24 hours after an ex parte order is served on a respondent;

(14) Allows the court, upon a finding that it is in the best interest of the parties, to include a provision that a full order of protection with a duration of one year must automatically renew unless the respondent requests a hearing at least 30 days prior to the expiration of the order;

(15) Requires the law enforcement agency maintaining MULES to enter information contained in an order of protection including any orders regarding child custody or visitation and all specifics as to the times and dates of custody or visitation provided in the order. Any change in child custody or visitation within an order must be issued to the local law enforcement agency and the agency responsible for entering the information into MULES. Any expiration or termination must be entered within 24 hours of receiving the notice;

(16) Requires the court to cause a copy of any objection to an automatic renewal of a full order of protection with a duration of one year that is filed by the respondent and a notice of the date set for the hearing on that objection to be personally served upon the petitioner by a personal process server, sheriff, or police officer at least three days prior to the hearing. (17) Allows the court to include in any full or ex parte order of protection any terms reasonably deemed necessary to ensure the petitioner's safety;

(18) Specifies that before the court terminates any order of protection it can examine the circumstances of the motion to dismiss the order and may inquire of the petitioner or others in order to assist the court in determining if the dismissal is voluntary;

(19) Specifies that a respondent in violation of an ex parte or full order of protection for a child will be guilty of a class A misdemeanor for entering a petitioner's place of employment or school or for being within a certain distance of the petitioner or a child of the petitioner unless the respondent has previously pled guilty to or has been found guilty of violating an order of protection within five years of the date of the subsequent violation in which case he or she will be guilty of a class D felony. Evidence of a prior plea of guilty or finding of guilt must be heard by the court out of the presence of the jury prior to the submission of the case to the jury. If the court finds the existence of a prior plea of guilty or a finding of guilt beyond a reasonable doubt, the court must decide the extent or duration of the sentence or other disposition and cannot instruct the jury regarding the range of punishment or allow the jury to assess the punishment as part of its verdict;

(20) Requires any ex parte order of protection to be for the purpose of protecting the victim from domestic violence which can include restraining the respondent from communicating with the victim in any manner or through any medium;

(21) Specifies that the provisions of Section 491.075 regarding the admissibility of statements of a child younger than 14 years of age, instead of the current younger than 12 years of age, are to apply to any hearing regarding allegations of domestic violence;

(22) Requires any full order of protection to be for the purpose of protecting the victim from domestic violence which can include temporarily enjoining the respondent from communicating with the victim in any manner or through any medium;

(25) Specifies that any person who has pled guilty to or been found guilty of any offense committed in violation of any county or municipal ordinance in any state or any state, federal, or military law which, if committed in Missouri, would be a third degree domestic assault will be guilty of a class D felony for the third or any subsequent commission of the crime of domestic assault;

The Nursing Education Incentive Program is established within the Department of Higher Education to address nursing shortages. Higher Education will award grants to eligible higher education institutions accredited by the Higher Learning Commission of the North Central Association based on criteria to be determined by the board and the Department of Higher Education. Grant award amounts cannot exceed \$150,000, and no campus may receive more than one grant per year. An eligible institution must offer a nursing program that meets the predetermined category and area of need as established by the board and the Department of Higher Education based on data from sources specified in the bill.

The bill also repeals the provisions regarding an obsolete incentive grant program which focused on nontraditional nursing students and the provisions regarding the Nurse Training Incentive Fund.

LICENSED PRACTICAL NURSES (Section 335.099)

A licensed practical nurse who is an approved instructor for the level 1 medication aid program will be qualified to teach the insulin administration course under Chapter 198. VETERINARY LEGEND DRUGS

(Sections 338.010, 338.140, 338.150, 338.210, 338.220, 338.240, and 338.315)

A licensed veterinarian is allowed to administer or prescribe only for use in animals any medicine, drug, or pharmaceutical product including legend drugs under 21 U.S.C. Section 353 by expanding class L veterinary permits issued by the Board of Pharmacy within the Department of Insurance, Financial Institutions and Professional Registration to include the administering or prescribing of legend drugs.

The membership of an advisory committee appointed by the Board of Pharmacy to review and make recommendations to it regarding drug distributors is increased from five to six by adding a licensed veterinarian recommended by the Board of Veterinary Medicine within the department. The committee will also review and make recommendations to the Board of Pharmacy regarding rules and regulations on veterinary legend drugs.

A pharmacy that only holds a class L veterinary permit is not required to have a pharmacist on site except for when noncontrolled drugs for use in animals are being compounded. A supervising

registered pharmacist is responsible for reviewing the activities and records of a class L pharmacy permit holder.

WHOLESALE DRUG DISTRIBUTORS (Section 338.330)

The bill defines “legend drug” as it relates to regulating wholesale drug distributors as any drug or biological product that is subject to Section 503(b) of the Federal Food, Drug and Cosmetic Act; is required under federal law to be labeled in certain ways; or is required by law or regulation to be dispensed by prescription only or that is restricted to use or dispensed by practitioners only. Any investigational new drug or a drug product being used for conducting a clinical trial or investigation under specified situations is exempt from this provision.

REAL ESTATE LICENSEE LIABILITY (Section 339.190)

Currently, a real estate licensee is immune from liability for statements made by certain expert professionals unless the expert was selected and engaged by the licensee, the statement was made by a person employed by the licensee or broker, or the licensee knew that the statement was false or acted in reckless disregard as to whether the statement was true or false. The bill specifies that the ordering of a report or an inspection alone will not constitute selecting or engaging a person.

ARCHITECTS, PROFESSIONAL ENGINEERS, LAND SURVEYORS, LANDSCAPE ARCHITECTS, WELL DIGGERS, AND BUILDING DEMOLISHERS (Sections 429.015 and 516.098)

The bill increases, from one to three acres, the extent of acreage authorized for a lien on property to secure payment for work performed by an architect, engineer, land surveyor, or landscape architect; a corporation registered to practice these activities; a well digger; or a person demolishing or razing a structure.

The statute of limitations for an action to recover damages for an error or omission in a land survey is increased from five years after the error or omission is discovered to 10 years from the completion of the survey.

PRENEED FUNERAL CONTRACTS (Sections 436.405, 436.412, and 416.445 - 436.456)

The definition of “insurance-funded preneed contract” is revised to include a preneed contract designated to be funded by a deferred annuity contract that is not classified as a variable annuity and has death benefit proceeds that are never less than the sum of premiums paid. A trustee of a preneed trust is allowed to invest trust funds with authorized

external investment advisors of a trustee, seller, or provider; and a preneed seller and purchaser can agree in writing to put the funds for the preneed contract into an account in the beneficiary's name and payable on the beneficiary's death to the seller. The bill also changes the procedure for a funeral provider to receive funds after providing funeral services and merchandise and the procedure for a purchaser who wants to cancel a preneed contract funded by a joint account.

The bill contains an emergency clause for the provisions regarding wholesale drug distributors.

(4) Requires only the biological parents to be notified about a request for identifying information. Currently, the adopted adult must make a request and follow a specified procedure for obtaining consent from both the adoptive and biological parents if prior consent has not been given through the child-placing agency or juvenile court personnel; and

(5) Allows an adopted adult to obtain identifying information on adult siblings with the sibling's consent without the court having to find that the information is necessary for health-related purposes.

CCS#2 HCS SCS SB 356 — AGRICULTURE

This bill changes the laws regarding the Joint Committee on Urban Agriculture, sales tax exemptions, noxious weeds, listing of livestock brands, the Commodity Merchandising Council Program, and grain dealers; creates the Puppy Protection Trust Fund; and establishes the Missouri Farmland Trust Act.

JOINT COMMITTEE ON URBAN AGRICULTURE (Section 21.801, RSMo)

The bill renames the Joint Committee on Urban Farming to the Joint Committee on Urban Agriculture and extends the expiration date of the provisions regarding the committee from January 1, 2011, to January 1, 2013. The committee must prepare a final report with its recommendations to the Speaker of the House of Representatives, the President Pro Tem of the Senate, and the Governor by December 31, 2012.

INCOME TAX REFUND DESIGNATION TO THE PUPPY PROTECTION TRUST FUND (Section 143.1014)

Beginning January 1, 2011, the bill authorizes an individual or corporation to designate at least \$1 on a Missouri individual return or at least \$2 on a combined return of his or her tax refund amount to the newly created Puppy Protection Trust Fund. A taxpayer may also donate to the fund by sending a separate check with the payment of his or her taxes. The donations are to be used by the Department of Agriculture for the sole purpose of administering the Canine Cruelty Prevention Act.

SALES TAX EXEMPTIONS (Sections 144.010, 144.020, 144.030, and 144.070)

The bill exempts the following items from state and local sales and use taxes:

(1) The sale of captive wildlife which includes, but is not limited to, exotic partridges, gray partridge, northern bobwhite quail, ring-necked pheasant, captive waterfowl, captive white-tailed deer, captive elk, and captive furbearers held under a permit issued by the Department of Conservation for hunting purposes. This exemption does not apply to the sales tax on a harvested animal; and

(2) The sale of any accessories for and upgrades to farm machinery and equipment, rotary mowers used exclusively for agricultural purposes, and freight charges on any exempt item.

MISSOURI FARMLAND TRUST ACT (Section 262.815)

The bill establishes the Missouri Farmland Trust Act to allow individuals and entities to donate or otherwise convey farmland to the Department of Agriculture to preserve it as farmland and to assist beginning farmers by allowing long-term low and variable cost leases on the land making it affordable for the next generation of farmers to produce food, fiber, and fuel.

The Missouri Farmland Trust will be implemented to accomplish the following objectives:

(1) Protecting and preserving Missouri's farmland;
(2) Linking new generations of prospective farmers with present farmers; and

(3) Promoting best practices in environmental, livestock, and land stewardship.

The Missouri Farmland Trust Advisory Board is established within the department to make recommendations to the department director regarding the appropriate uses of farmland in the trust and the criteria for the selection of program participants and to review and make recommendations regarding applications to lease farmland in the trust.

The bill specifies the membership of the board and the terms of its members. The department is authorized to accept or acquire by purchase, lease, donation, or agreement any agricultural lands, easements, or real and personal property including, but not limited to, buildings, structures, improvements, equipment, or facilities subject to preservation and improvement which will be the property of the trust.

The Missouri Farmland Trust Fund is created consisting of gifts, donations, and appropriations by the General Assembly. Upon appropriation, moneys in the fund must be used for the administration of the trust and may be used to make payments to counties for the value of land in lieu of real and personal property taxes for privately owned land acquired and for the maintenance, operation, regulation, and improvement of the trust's assets to promote agriculture and the general welfare. Property acquired by the department must be used for agricultural purposes and must be farmed and maintained using the best environmental, conservation, and stewardship practices as specified by the department. No beginning farmer can lease farmland in the trust for more than 20 years. Any person or entity donating to or leasing land from the department must release the state, its employees, volunteers, agents, and any entity acting in concert or on behalf of the state from any and all claims, actions, or demands that he or she and his or her relatives and legal representatives have now or may have in the future for any injury, death, or property damage related to participation in these activities as well as the negligence or any other acts connected to the activities and the condition of the property where the activities occurred.

NOXIOUS WEEDS

(Sections 263.190 - 263.241 and 263.450)

The bill:

(1) Specifies that "noxious weed" means any weed designated as noxious by rules established by the Director of the Department of Agriculture and requires the department to maintain a list of noxious weeds and make it available to the public;

(2) Expands the requirement of every landowner to control all noxious weeds growing on his or her land sufficiently to prevent the weeds from going to seed to include any person, association of

persons, corporation, partnership, the Highways and Transportation Commission within the Department of Transportation, any state department, state agency, county commission, township board, school board, drainage board, governing body of an incorporated city, railroad company or other transportation company and its authorized agent, and any person supervising state-owned lands;

(3) Prohibits the sale of any noxious weed species; and

(4) Repeals provisions designating specific plants as noxious weeds and requiring entities to control the spread of the weeds as well as the provisions regarding a county noxious weed fund.

LISTING OF LIVESTOCK BRANDS

(Section 268.121)

Currently, the Director of the Department of Agriculture must publish a list of all recorded livestock brands in a book form and send a copy of the book and any supplement to the county recorder of deeds in each county and to each licensed livestock market and slaughter plant in the state. The bill removes this requirement and instead specifies that the department director must create a list and make it available on a publicly accessible web site. The list must be updated from time to time.

COMMODITY MERCHANDISING COUNCIL PROGRAM (Section 275.360)

The bill adds a rice grower or producer to those exempt from the provision allowing an agricultural producer or grower to independently request a refund of the fees paid to the Commodity Merchandising Council Program from the Director of the Department of Agriculture.

GRAIN DEALERS (Sections 276.401, 276.416, 276.421, 276.436, 276.441, 276.446, and 411.280)

The bill:

(1) Revises the definition of "grain dealer" or "dealer" to exempt a producer or feeder of grain for livestock or poultry who exclusively buys grain for his or her own farming or feeding purposes from licensed grain dealers or whose total grain purchases from producers during his or her fiscal year do not exceed 50,000 bushels instead of the current \$100,000;

(2) Requires every licensed grain dealer or applicant for a grain dealer's license to maintain a minimum net worth equal to 5% of annual grain purchases as established in the required financial statements. Currently, only certain dealers or applicants are required to maintain a specified minimum net worth;

(3) Requires any licensed grain dealer or applicant to have and maintain current assets at least equal to 100% of current liabilities and specifies certain requirements regarding the calculation of the amount of a dealer's or applicant's assets and liabilities;

(4) Increases the minimum surety bond requirement for a licensed grain dealer from \$20,000 to \$50,000 and the maximum from \$300,000 to \$600,000;

(5) Changes the formula for determining the amount of surety bond required by specifying that the amount must be equal to 2% of the dealer's previous year's grain purchases or 2% of the estimated amount if the dealer has been engaged in the business for less than a year. Currently, the amount must be between 1% and 5% of the purchases or the estimate;

(6) Changes the net worth an owner of a licensed grain warehouse must have and maintain to the greater of \$10,000 or the amount which results from multiplying the storage capacity of the warehouse by 25 cents per bushel instead of the current 15 cents per bushel; and

(7) Repeals the provision allowing a grain dealer who has purchased less than \$400,000 of grain during the previous year to satisfy the bond requirement by filing with the Director of the Department of Agriculture a bond at the rate of \$1,000 for every \$20,000 worth of grain purchased with a minimum bond of \$10,000.

The provisions regarding the Puppy Protection Trust Fund will expire December 31 six years from the effective date.

The bill contains an emergency clause for the provisions regarding the Joint Committee on Urban Agriculture.

HCS SCS SB 366 — MISSOURI COOPERATIVE ASSOCIATIONS ACT

This bill changes the laws regarding the conversion of certain businesses to a different type of entity and establishes the Missouri Cooperative Associations Act.

CONVERSION OF BUSINESSES

The bill specifies that a limited liability company; statutory trust; business trust or association; real estate investment trust; common-law trust; any other unincorporated business, including a partnership; or a foreign corporation may convert to a Missouri corporation upon executing a certificate of conversion in the Office of the Secretary of State. A Missouri corporation is also allowed to convert to one of the aforementioned types of entities in the same manner and upon the adoption of a resolution approving the conversion and the approval of its shareholders. All property, obligations, and liabilities must follow the converting entity to the business organization into which it is converting. The converting entity cannot be required to wind up affairs, pay liabilities, or distribute

assets; and the conversion will not constitute a dissolution of the corporation. These provisions cannot be deemed to authorize the conversion of a nonprofit corporation into another entity. The bill specifies the amount that the Secretary of State can charge for filing a certificate of conversion to or from a corporation under these provisions.

MISSOURI COOPERATIVE ASSOCIATIONS ACT

The Missouri Cooperative Associations Act is established which allows a cooperative to be formed and organized to conduct or promote any lawful business or purpose for the mutual welfare of its members. In its main provisions, the bill:

(2) Specifies that a cooperative will be comprised of members and governed by a board of directors. Members may be patron or nonpatron members with patron members being those who conduct business with the cooperative;

(3) Allows a cooperative to elect to be structured as a corporation or as a partnership under federal income tax laws;

(5) Allows a cooperative to indemnify persons in certain situations;

(6) Specifies the requirements for the organization of a cooperative including defining organizational purpose, who may organize, cooperative names, elements to be included in the articles of organization and bylaws, and the procedures and requirements for amending the articles and bylaws;

(7) Requires a member to have access to the books and records of the cooperative;

(8) Specifies the requirements governing the actions and liabilities of directors and officers including the election procedures for directors, quorum requirements, removal procedures for directors and officers, meeting requirements, limitation of liability, and indemnification procedures;

(9) Specifies member requirements including membership interests, meetings, voting rights, sale of assets, and contribution agreements; and

(10) Specifies the procedures for merging, consolidating, and dissolving a cooperative.

HCS#2 SJR 2 — ELECTIONS

Upon voter approval, this proposed constitutional amendment authorizes the General Assembly to enact provisions which:

(1) Allow a qualified individual to vote in person in advance of election day at all elections. Advance voting may be permitted from the third Saturday before the election until the first Tuesday before the election excluding Sundays. The voting may be conducted at locations as necessary or desirable to balance reasonable access to advance voting; accountability, integrity, and security of the election; efficiency in the administration of the election; and appropriate and responsible uses of public funds and other resources. Certain restrictions on the release of voter identification information until after the regular election are specified. Advance voting cannot take place for any election held on or before January 1, 2014, in order to allow election authorities sufficient time to prepare. These provisions will not apply to absentee voting laws, and any law that conflicts with these provisions will not be valid or enforceable;

(2) Allow a person seeking to vote in person in a public election to be required to identify himself or herself and verify his or her qualifications as a citizen of the United States and a resident of Missouri by providing election officials with a form of identification which may include requiring a valid government-issued photo identification with certain exceptions; and

(3) Allow different requirements for absentee voting when the voter does not appear before the election authority.

If for any reason a portion, clause, or phrase of the resolution is held to be invalid or unconstitutional by a court of competent jurisdiction, the entire resolution will be invalid and of no further force or effect.
