

HB 270 -- State Employees' Health Insurance Benefits

Sponsor: Burlison

Currently, the state employees' health insurance benefit plan must provide full health benefit plan coverage to participants who are also eligible for and covered by Medicare. This bill requires the state employees' health insurance benefit plan to provide a health plan that offers coverage that is substantially similar to Medicare to participants who are eligible for and covered by Medicare as well as to participants who are eligible for but not covered by Medicare.
