

HB 1990 -- Children's Vaccinations

Sponsor: Phillips

This bill requires a licensed health care practitioner, administering a vaccination to a child younger than seven years of age, to provide the list of ingredients contained in the vaccination to the parent or guardian of the child. The parent or guardian must sign a paper or electronic document developed by the Department of Health and Senior Services acknowledging receipt of the ingredient list prior to the vaccination being administered. The document must also include information on how to obtain additional information about the ingredients.
