

HB 2110 -- County Special Road and Bridge Levies

Sponsor: Nolte

This bill authorizes the county commission in certain counties that have approved a countywide sales tax under Section 67.547, RSMo, to enter into agreements with cities, towns, villages, and special road districts organized under Chapter 233 for the purpose of working cooperatively on the roads and bridges located in the county, including the distribution of county funds to the entities. County funds that may be distributed include general revenue and revenue from the special road and bridge levy.

Each city, town, village, or special road district must continue to receive its share of the county's special road and bridge levy, if any, that is annually considered by the commission. If the special road and bridge levy is not set at a level of at least 14 cents on each \$100 assessed valuation, the commission must distribute additional funds from any available county source in an amount that will, when combined with the special road and bridge levy revenues, allow it to distribute funds equal to the funding level of at least 14 cents on each \$100 assessed valuation. Additionally, if at least 50% of a special road district is located in a city, town, or village, that entity must be entitled to receive the special road district's portion of any funds not paid through the special road and bridge levy. Currently, these provisions only apply to Cass, Clay, and Platte counties.
