

HB 971 -- Local Log Trucks and Tractors

Sponsor: Fitzwater

Currently, local log trucks and tractors can be used to transport harvested forest products solely at a forested site and in an area extending not more than a 100 mile radius from the site. This bill revises the definitions of "local log truck" and "local log tractor" to allow the vehicles to be used for timber-related activities at a forested site and in an area extending not more than a 100 mile radius from the site.
