

HB 1209 -- LIABILITY FOR LIVESTOCK ACTIVITIES

SPONSOR: Guernsey

Currently, the sponsoring individuals and organizations have limited liability for injuries or death from accidents associated with equine activities. This bill expands the limited liability to a livestock sponsor, a livestock owner, a livestock facility and a livestock auction market for injuries or death from accidents associated with livestock activities.

Livestock activities include grazing, herding, feeding, branding, milking, or other activities that involve the care and maintenance of livestock; a livestock show, fair, competition, or auction; a livestock training or teaching activity; boarding livestock; and inspecting or evaluation livestock.
