

HB 1228 -- SCHOOL BOARD MEMBER TRAINING

SPONSOR: Gatschenberger

Currently, school board members must complete 16 hours of training within one year after joining the board, with the cost paid by the school district. This bill requires that at least two hours of training be completed before the member takes office and that eight hours of continuing education be completed each year after the first year in office. The district is no longer required to pay the training cost.
