

HB 227 -- LOBBYIST REPORTING REQUIREMENTS

SPONSOR: Barnes

Currently, there are exceptions to the itemized expenditure reporting requirements in Chapter 105, RSMo, based on expenditures made by lobbyists for the entire House of Representatives or Senate and specified committees and caucuses. This bill requires an itemized listing of the name, nature, and amount of each expenditure by a lobbyist, rather than total expenditure reporting by a group, for all expenditures made for a committee of the General Assembly meeting outside of the Capitol Building.
