

HB 250 -- MILITARY AND OVERSEAS VOTERS

SPONSOR: Davis

This bill allows a covered voter eligible to register in Missouri, including an individual who is qualified to vote in the United States but resides overseas and any specified military and government employee, to vote in a federal, state, or ballot measure election using an absentee ballot. This bill uses the existing voting regulations for a member of the "federal service" such as electronic transmission of an absentee ballot, but replaces the federal service classification with the new "covered voter" classification.
