

HB 614 -- REAL PROPERTY

SPONSOR: Davis

This bill specifies that if a parcel of real property to be sold, exchanged or transferred is or was used as a site for methamphetamine production, the methamphetamine production was located in and contained within a structure on the parcel, and that structure has been removed or demolished in accordance with EPA or Department of Health and Senior Services regulations, the seller or transferor is not required to disclose in writing to the buyer or transferee the fact that methamphetamine was produced on the premises.
