

HB 648 -- ELECTION FRAUD

SPONSOR: Cornejo

This bill allows any authority that has proper jurisdiction to investigate election fraud to request a particular description of facts that form the basis for a verification board, election authority, bipartisan committee, or the Office of the Secretary of State's evidence suggesting an election law violation has occurred. These entities currently have a duty to contact the proper authority to investigate election fraud if they obtain evidence suggesting that a violation of law has occurred.
