

HB 762 -- SUNSHINE LAW

SPONSOR: Higdon

This bill specifies that a video or audio recording from a law enforcement officer's dashboard or body camera will not be accessible to the general public. Information consisting of the date, time, specific location, and immediate facts and circumstances surrounding the incident recorded on the device will be considered an incident report and subject to the Sunshine Law. The recording will be available upon request by a law enforcement agency, the Division of Workers' Compensation, or with a valid court order.
