

HB 1243 -- HEALTH EXCHANGE NAVIGATOR LICENSING

SPONSOR: English

This bill requires an applicant for a navigator license to take an exam administered by the Department of Insurance, Financial Institutions and Professional Registration or an independent testing service contracted by the department and requires applicants for individual licenses to provide two sets of fingerprints for the purpose of completing Missouri and national criminal record reviews. The bill also classifies any disclosure of criminal history information received by the department, beyond what is necessary to determine eligibility for an individual navigator license, a class A misdemeanor.
