

HB 2514 -- DEPARTMENT OF NATURAL RESOURCES

SPONSOR: Bondon

This bill prohibits the Department of Natural Resources, Air Conservation Commission, or any other division from submitting to the EPA or other federal agency a state plan for compliance with the Clean Power Plan. The commission must request a single extension to 2018 in order to file a state plan. The bill expressly preempts state agency or unilateral executive action on all matters related to compliance with the Clean Power Plan.
