

HJR 72 -- SALARIES OF PUBLIC OFFICIALS

SPONSOR: Chipman

Upon voter approval this proposed constitutional amendment would enact a one fiscal year waiting period for salary increases that are the result of salary commission schedules with delayed effective dates based on future events or federal law. Increases in salary will occur only during the second fiscal year following a triggering event or change in federal law. The amendment also clarifies that the salary schedule stands appropriated if not disapproved as provided in the state constitution.
