The House met pursuant to adjournment.

Speaker Pro Tem Haahr in the Chair.

Prayer by Representative Dan Stacy.

Let us pray.

Dear God, please help those who have lost so much this weekend. And especially be with those who have lost loved ones. Help each of us as legislators to listen and learn from You. Help us to seek out Your will and purpose for each of our lives. And help us find fulfillment in accomplishing that purpose. Help us to be guided to the best methods and laws that can free our Missouri citizens to fulfill their God-given potential. Help us to model the behavior that would honor You.

In Jesus' name, Amen!

The Pledge of Allegiance to the flag was recited.

The regional EMS medical directors shall constitute the state EMS medical director's advisory committee and shall advise the department and their region's ambulance services on matters relating to medical control and medical direction in accordance with sections 190.001 to 190.245 and rules adopted by the department pursuant to sections 190.001 to

190.245. The regional EMS medical director shall serve a term of four years. The southwest, northwest, and Kansas City regional EMS medical directors shall be elected to an initial two-year term. The central, east central, and southeast regional EMS medical directors shall be elected to an initial four-year term. All subsequent terms following the initial terms shall be four years. **The state EMS medical director shall be elected by the members of the regional EMS medical director's advisory committee, shall serve a term of four years, and shall seek to coordinate EMS services between the EMS regions, promote educational efforts for agency medical directors, represent Missouri EMS nationally in the role of the state EMS medical director, and seek to incorporate the EMS system into the health care system serving Missouri.**

2. A medical director is required for all ambulance services and emergency medical response agencies that provide: advanced life support services; basic life support services utilizing medications or providing assistance with patients' medications; or basic life support services performing invasive procedures including invasive airway procedures. The medical director shall provide medical direction to these services and agencies in these instances.

3. The medical director, in cooperation with the ambulance service or emergency medical response agency administrator, shall have the responsibility and the authority to ensure that the personnel working under their supervision are able to provide care meeting established standards of care with consideration for state and national standards as well as local area needs and resources. The medical director, in cooperation with the ambulance service or emergency medical response agency administrator, shall establish and develop triage, treatment and transport protocols, which may include authorization for standing orders.

4. All ambulance services and emergency medical response agencies that are required to have a medical director shall establish an agreement between the service or agency and their medical director. The agreement will include the roles, responsibilities and authority of the medical director beyond what is granted in accordance with sections 190.001 to 190.245 and rules adopted by the department pursuant to sections 190.001 to 190.245. The agreement shall also include grievance procedures regarding the emergency medical response agency or ambulance service, personnel and the medical director.

**5. Regional EMS medical directors and the state EMS medical director elected as provided under subsection 1 of this section shall be considered public officials for purposes of sovereign immunity, official immunity, and the Missouri public duty doctrine defenses.**

**6. The state EMS medical director's advisory committee shall be considered a peer review committee under section 537.035.**

**7. Regional EMS medical directors may act to provide online telecommunication medical direction to EMT-Bs, EMT-Is, EMT-Ps, and community paramedics and provide offline medical direction per standardized treatment, triage, and transport protocols when EMS personnel, including EMT-Bs, EMT-Is, EMT-Ps, and community paramedics, are providing care to special needs patients or at the request of a local EMS agency or medical director.**

**8. When developing treatment protocols for special needs patients, regional EMS medical directors may promulgate such protocols on a regional basis across multiple political subdivisions' jurisdictional boundaries and such protocols may be used by multiple agencies including, but not limited to, ambulance services, emergency response agencies, and public health departments. **9. Multiple EMS agencies including, but not limited to, ambulance services, emergency response agencies, and public health departments shall take necessary steps to follow the regional EMS protocols established as provided under subsection 8 of this section in cases of mass casualty or state-declared disaster incidents.**

**10. When regional EMS medical directors develop and implement treatment protocols for patients or provide online medical direction for such patients, such activity shall not be construed as having usurped local medical direction authority in any manner.**

**11. Notwithstanding any other provision of law, when regional EMS medical directors are providing either online telecommunication medical direction to EMT-Bs, EMT-Is, EMT-Ps, and community paramedics, or offline medical direction per standardized EMS treatment, triage, and transport protocols for patients, those medical directions or treatment protocols may include the administration of the patient's own prescription medications.**

    - d. The position holder in a terminal or refinery outside this state with respect to motor fuel which that person imports into this state. A terminal operator shall not be considered a supplier based solely on the fact that the terminal operator handles motor fuel consigned to it within a terminal. "Supplier" also means a person that produces fuel grade alcohol or alcohol-derivative substances in this state, produces fuel grade alcohol or alcohol-derivative substances for import to this state into a terminal, or acquires upon import by truck, rail car or barge into a terminal, fuel grade alcohol or alcohol-derivative substances. "Supplier" includes a permissive supplier unless specifically provided otherwise;
- (52) "Tank wagon", a straight truck having multiple compartments designed or used to carry motor fuel;
- (53) "Terminal", a bulk storage and distribution facility which includes:

  - (b) The exchange transaction is simultaneous with removal from the terminal by the receiving exchange partner. However, in any event, the terminal operator in its books and records treats the receiving exchange party as the supplier which removes the product across a terminal rack for purposes of reporting such events to this state;

142.803. 1. A tax is levied and imposed on all motor fuel used or consumed in this state as follows:

- (1) Motor fuel, seventeen cents per gallon;

(2) Alternative fuels, not subject to the decal fees as provided in section 142.869, with a power potential equivalent of motor fuel. In the event alternative fuel, which is not commonly sold or measured by the gallon, is used in motor vehicles on the highways of this state, the director is authorized to assess and collect a tax upon such alternative fuel measured by the nearest power potential equivalent to that of one gallon of regular grade gasoline. The determination by the director of the power potential equivalent of such alternative fuel shall be prima facie correct;

(3) Aviation fuel used in propelling aircraft with reciprocating engines, nine cents per gallon as levied and imposed by section 155.080 to be collected as required under this chapter;

(4) Compressed natural gas fuel, five cents per gasoline gallon equivalent until December 31, 2019, eleven cents per gasoline gallon equivalent from January 1, 2020, until December 31, 2024, and then seventeen cents per gasoline gallon equivalent thereafter. The gasoline gallon equivalent and method of sale for compressed natural gas shall be as published by the National Institute of Standards and Technology in Handbooks 44 and 130, and supplements thereto or revisions thereof. In the absence of such standard or agreement, the gasoline gallon equivalent and method of sale for compressed natural gas shall be equal to five and sixty-six-hundredths pounds of compressed natural gas. All applicable provisions contained in this chapter governing administration, collections, and enforcement of the state motor fuel tax shall apply to the tax imposed on compressed natural gas, including but not limited to licensing, reporting, penalties, and interest;

(5) Liquefied natural gas fuel, five cents per diesel gallon equivalent until December 31, 2019, eleven cents per diesel gallon equivalent from January 1, 2020, until December 31, 2024, and then seventeen cents per diesel gallon equivalent thereafter. The diesel gallon equivalent and method of sale for liquefied natural gas shall be as published by the National Institute of Standards and Technology in Handbooks 44 and 130, and supplements thereto or revisions thereof.

In the absence of such standard or agreement, the diesel gallon equivalent and method of sale for liquefied natural gas shall be equal to six and six-hundredths pounds of liquefied natural gas. All applicable provisions contained in this chapter governing administration, collections, and enforcement of the state motor fuel tax shall apply to the tax imposed on liquefied natural gas, including but not limited to licensing, reporting, penalties, and interest;

**(6) Propane gas fuel, five cents per gallon until December 31, 2019, eleven cents per gallon from January 1, 2020, until December 31, 2024, and then seventeen cents per gallon thereafter. All applicable provisions contained in this chapter governing administration, collection, and enforcement of the state motor fuel tax shall apply to the tax imposed on propane gas including, but not limited to, licensing, reporting, penalties, and interest;**

(7) If a natural gas, compressed natural gas, ~~or~~ liquefied natural gas, **electric, or propane** connection is used for fueling motor vehicles and for another use, such as heating, the tax imposed by this section shall apply to the entire amount of natural gas, compressed natural gas, ~~or~~ liquefied natural gas, **electricity, or propane** used unless an approved separate metering and accounting system is in place.

2. All taxes, surcharges and fees are imposed upon the ultimate consumer, but are to be precollected as described in this chapter, for the facility and convenience of the consumer. The levy and assessment on other persons as specified in this chapter shall be as agents of this state for the precollection of the tax.

142.869. 1. The tax imposed by this chapter shall not apply to passenger motor vehicles, buses as defined in section 301.010, or commercial motor vehicles registered in this state which are powered by alternative fuel, and for which a valid decal has been acquired as provided in this section, provided that sales made to alternative fueled vehicles powered by **propane**, compressed natural gas, or liquefied natural gas that do not meet the requirements of subsection 3 of this section shall be taxed exclusively pursuant to subdivisions (4) ~~and (5)~~ **to (7)** of subsection 1 of section 142.803, respectively. The owners or operators of such motor vehicles, **except plug-in electric hybrids**, shall, in lieu of the tax imposed by section 142.803, pay an annual alternative fuel decal fee as follows: seventy-five dollars on each passenger motor vehicle, school bus as defined in section 301.010, and commercial motor vehicle with a licensed gross vehicle weight of eighteen thousand pounds or less; one hundred dollars on each motor vehicle with a licensed gross weight in excess of eighteen thousand pounds but not more than thirty-six thousand pounds used for farm or farming transportation operations and registered with a license plate designated with the letter "F"; one hundred fifty dollars on each motor vehicle with a licensed gross vehicle weight in excess of eighteen thousand pounds but less than or equal to thirty-six thousand pounds, and each passenger-carrying motor vehicle subject to the registration fee provided in sections 301.059, 301.061 and 301.063; two hundred fifty dollars on each motor vehicle with a licensed gross weight in excess of thirty-six thousand pounds used for farm or farming transportation operations and registered with a license plate designated with the letter "F"; and one thousand dollars on each motor vehicle with a licensed gross vehicle weight in excess of thirty-six thousand pounds. **Owners or operators of plug-in electric hybrids shall pay**

**one-half of the stated annual alternative fuel decal fee.** Notwithstanding provisions of this section to the contrary, motor vehicles licensed as historic under section 301.131 which are powered by alternative fuel shall be exempt from both the tax imposed by this chapter and the alternative fuel decal requirements of this section. **For the purposes of this section, a plug-in electric hybrid shall be any hybrid vehicle made by a manufacturer with a model year of 2018 or newer, that has not been modified from the original manufacturer specifications, with an internal combustion engine and batteries that can be recharged by connecting a plug to an electric power source.**

2. Except interstate fuel users and vehicles licensed under a reciprocity agreement as defined in section 142.617, the tax imposed by section 142.803 shall not apply to motor vehicles registered outside this state which are powered by alternative fuel other than **propane**, compressed natural gas, and liquefied natural gas, and for which a valid temporary alternative fuel decal has been acquired as provided in this section. The owners or operators of such motor vehicles shall, in lieu of the tax imposed by section 142.803, pay a temporary alternative fuel decal fee of eight dollars on each such vehicle. Such decals shall be valid for a period of fifteen days from the date of issuance and shall be attached to the lower right-hand corner of the front windshield on the motor vehicle for which it was issued. Such decal and fee shall not be transferable. All proceeds from such decal fees shall be deposited as specified in section 142.345. Alternative fuel dealers selling such decals in accordance with rules and regulations prescribed by the director shall be allowed to retain fifty cents for each decal fee timely remitted to the director.

3. Owners or operators of passenger motor vehicles, buses as defined in section 301.010, or commercial motor vehicles registered in this state which are powered by compressed natural gas or liquefied natural gas who have installed a compressed natural gas fueling station or liquefied natural gas fueling station used solely to fuel the motor vehicles they own or operate as of December 31, 2015, may continue to apply for and use the alternative fuel decal in lieu of paying the tax imposed under subdivisions (4) and (5) of subsection 1 of section 142.803. Owners or operators of compressed natural gas fueling stations or liquefied natural gas fueling stations whose vehicles bear an alternative fuel decal shall be prohibited from selling or providing compressed natural gas or liquefied natural gas to any motor vehicle they do not own or operate. Owners or operators of motor vehicles powered by compressed natural gas or liquefied natural gas bearing an alternative fuel decal after January 1, 2016, that decline to renew the alternative fuel decals for such motor vehicles shall no longer be eligible to apply for and use alternative fuel decals under this subsection. Any compressed natural gas or liquefied natural gas obtained at any fueling station not owned by the owner or operator of the motor vehicle bearing an alternative fuel decal shall be subject to the tax under subdivisions (4) and (5) of subsection 1 of section 142.803.

4. **An owner or operator of a motor vehicle powered by propane may continue to apply for and use the alternative fuel decal in lieu of paying the tax imposed under subdivision (6) of subsection 1 of section 142.803. If the appropriate motor fuel tax under subdivision (6) of subsection 1 of section 142.803 is collected at the time of fueling, an operator of a propane fueling station that uses quick-connect fueling nozzles may sell propane as a motor fuel without verifying the application of a valid Missouri alternative fuel decal. If an owner or operator of a motor vehicle powered by propane that bears an alternative fuel decal refuels at an unattended propane refueling station, such owner or operator shall not be eligible for a refund of the motor fuel tax paid at such refueling.**

5. The director shall annually, on or before January thirty-first of each year, collect or cause to be collected from owners or operators of the motor vehicles specified in subsection 1 of this section the annual decal fee. Applications for such decals shall be supplied by the department of revenue. In the case of a motor vehicle which is not in operation by January thirty-first of any year, a decal may be purchased for a fractional period of such year, and the amount of the decal fee shall be reduced by one-twelfth for each complete month which shall have elapsed since the beginning of such year. **This subsection shall not apply to an owner or operator of a motor vehicle powered by propane who fuels such vehicle exclusively at unattended fueling stations that collect the motor fuel tax.**

~~[5-]~~ 6. Upon the payment of the fee required by subsection 1 of this section, the director shall issue a decal, which shall be valid for the current calendar year and shall be attached to the lower right-hand corner of the front windshield on the motor vehicle for which it was issued.

~~[6-]~~ 7. The decal fee paid pursuant to subsection 1 of this section for each motor vehicle shall be transferable upon a change of ownership of the motor vehicle and, if the LP gas or natural gas equipment is removed from a motor vehicle upon a change of ownership and is reinstalled in another motor vehicle, upon such reinstallation. Such transfers shall be accomplished in accordance with rules and regulations promulgated by the director.

~~[7-]~~ 8. It shall be unlawful for any person to operate a motor vehicle required to have an alternative fuel decal upon the highways of this state without a valid decal **unless the motor vehicle is exclusively fueled at propane, compressed natural gas, or liquefied natural gas fueling stations that collect the motor fuel tax.**

~~[8-]~~ **9.** No person shall cause to be put, or put, ~~[LP-gas]~~ **any alternative fuel** into the fuel supply receptacle **or battery** of a motor vehicle required to have an alternative fuel decal unless the motor vehicle **either** has a valid decal attached to it **or the appropriate motor fuel tax is collected at the time of such fueling.** ~~[Sales of fuel placed in the supply receptacle of a motor vehicle displaying such decal shall be recorded upon an invoice, which invoice shall include the decal number, the motor vehicle license number and the number of gallons placed in such supply receptacle.]~~

~~[9-]~~ **10.** Any person violating any provision of this section is guilty of an infraction and shall, upon conviction thereof, be fined five hundred dollars.

~~[10-]~~ **11.** Motor vehicles displaying a valid alternative fuel decal are exempt from the licensing and reporting requirements of this chapter.

**Section 1. Notwithstanding any other provision of law, any political subdivision that imposes a local excise or sales tax enacted after January 1, 2017, under article IV, section 30(a) of the Constitution of Missouri shall use no less than ninety percent of such funds collected for the construction, reconstruction, maintenance, and repair of roads and streets and for the payment and interest on indebtedness incurred on account of road and street purposes, and no more than ten percent of such funds collected for policing, signing, lighting, and cleaning roads and streets.";** and

2. As used in this section, the following terms shall mean:

(1) "AIM zone", an area identified through a resolution passed by the port authority board of commissioners appointed under section 68.045 that is being developed or redeveloped for any purpose so long as any infrastructure and building built or improved is in the development area. The port authority board of commissioners shall file an annual report indicating the established AIM zones with the department of revenue;

(2) "County average wage", the average wages in each county as determined by the Missouri department of economic development for the most recently completed full calendar year. (3) "New job", the number of full-time employees located at the project facility that exceeds the project facility base employment less any decrease in the number of full-time employees at related facilities below the related facility base employment. No job that was created prior to the date of the notice of intent shall be deemed a new job. An employee that spends less than fifty percent of the employee's work time at the facility is still considered to be located at a facility if the employee receives his or her directions and control from that facility, is on the facility's payroll, one hundred percent of the employee's income from such employment is Missouri income, and the employee is paid at or above the [state] county average wage.

5. There is hereby created in the state treasury the "Port Authority AIM Zone Fund", which shall consist of money collected under this section. The state treasurer shall be custodian of the fund and shall approve disbursements from the fund in accordance with sections 30.170 and 30.180 to the port authorities from which the funds were collected, less the pro-rata portion appropriated by the general assembly to be used solely for the administration of this section which shall not exceed ten percent of the total amount collected within the zones of a port authority. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

6. The port authority shall approve any projects that begin construction and disperse any money collected under this section. The port authority shall submit an annual budget for the funds to the department of economic development explaining how and when such money will be spent.

7. The provision of section 23.253 notwithstanding, no AIM zone may be established after August 28, 2023. Any AIM zone created prior to that date shall continue to exist and be coterminous with the retirement of all debts incurred under subsection 4 of this section. No debts may be incurred or reauthorized using AIM zone revenue after August 28, 2023."; and

*House Amendment No. 5*

AMEND Senate Bill No. 411, Page 4, Section 70.370, Line 128, by inserting immediately after all of said section and line the following:

"99.805. As used in sections 99.800 to 99.865, unless the context clearly requires otherwise, the following terms shall mean:

(1) "Blighted area", an area which, by reason of the predominance of defective or inadequate street layout, insanitary or unsafe conditions, deterioration of site improvements, improper subdivision or obsolete platting, or the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors, retards the provision of housing accommodations or constitutes an economic or social liability or a menace to the public health, safety, morals, or welfare in its present condition and use;

(2) "Collecting officer", the officer of the municipality responsible for receiving and processing payments in lieu of taxes or economic activity taxes from taxpayers or the department of revenue;

(3) "Conservation area", any improved area within the boundaries of a redevelopment area located within the territorial limits of a municipality in which fifty percent or more of the structures in the area have an age of thirty-five years or more. Such an area is not yet a blighted area but is detrimental to the public health, safety, morals, or welfare and may become a blighted area because of any one or more of the following factors: dilapidation; obsolescence; deterioration; illegal use of individual structures; presence of structures below minimum code standards; abandonment; excessive vacancies; overcrowding of structures and community facilities; lack of ventilation, light or sanitary facilities; inadequate utilities; excessive land coverage; deleterious land use or layout; depreciation of physical maintenance; and lack of community planning. A conservation area shall meet at least three of the factors provided in this subdivision for projects approved on or after December 23, 1997;

(4) "Economic activity taxes", the total additional revenue from taxes which are imposed by a municipality and other taxing districts, and which are generated by economic activities within a redevelopment area over the amount of such taxes generated by economic activities within such redevelopment area in the calendar year prior to the adoption of the ordinance designating such a redevelopment area, while tax increment financing remains in effect, but excluding personal property taxes, taxes imposed on sales or charges for sleeping rooms paid by transient guests of hotels and motels, licenses, fees or special assessments. For redevelopment projects or redevelopment plans approved after December 23, 1997, if a retail establishment relocates within one year from one facility to another facility within the same county and the governing body of the municipality finds that the relocation is a direct beneficiary of tax increment financing, then for purposes of this definition, the economic activity taxes generated by the retail establishment shall equal the total additional revenues from economic activity taxes which are imposed by a municipality or other taxing district over the amount of economic activity taxes generated by the retail establishment in the calendar year prior to its relocation to the redevelopment area;

(5) "Economic development area", any area or portion of an area located within the territorial limits of a municipality, which does not meet the requirements of subdivisions (1) and (3) of this section, and in which the governing body of the municipality finds that redevelopment will not be solely used for development of commercial businesses which unfairly compete in the local economy and is in the public interest because it will:

(a) Discourage commerce, industry or manufacturing from moving their operations to another state; or

(b) Result in increased employment in the municipality; or

(c) Result in preservation or enhancement of the tax base of the municipality;

(6) "Gambling establishment", an excursion gambling boat as defined in section 313.800 and any related business facility including any real property improvements which are directly and solely related to such business facility, whose sole purpose is to provide goods or services to an excursion gambling boat and whose majority ownership interest is held by a person licensed to conduct gambling games on an excursion gambling boat or licensed to operate an excursion gambling boat as provided in sections 313.800 to 313.850. This subdivision shall be applicable only to a redevelopment area designated by ordinance adopted after December 23, 1997;

(7) "Greenfield area", any vacant, unimproved, or agricultural property that is located wholly outside the incorporated limits of a city, town, or village, or that is substantially surrounded by contiguous properties with agricultural zoning classifications or uses unless said property was annexed into the incorporated limits of a city, town, or village ten years prior to the adoption of the ordinance approving the redevelopment plan for such greenfield area;

(8) "Municipality", a city, village, or incorporated town or any county of this state. For redevelopment areas or projects approved on or after December 23, 1997, municipality applies only to cities, villages, incorporated towns or counties established for at least one year prior to such date;

(9) "Obligations", bonds, loans, debentures, notes, special certificates, or other evidences of indebtedness issued by a municipality to carry out a redevelopment project or to refund outstanding obligations;

(10) "Ordinance", an ordinance enacted by the governing body of a city, town, or village or a county or an order of the governing body of a county whose governing body is not authorized to enact ordinances;

If the members representing school districts and other taxing districts are appointed for a term coinciding with the length of time a redevelopment project, plan or area is approved, such term shall terminate upon final approval of the project, plan or designation of the area by the governing body of the municipality. Thereafter the commission shall consist of the six members appointed by the municipality, except that members representing school boards and other taxing districts shall be appointed as provided in this section prior to any amendments to any redevelopment plans, redevelopment projects or designation of a redevelopment area. If any school district or other taxing jurisdiction fails to appoint members of the commission within thirty days of receipt of written notice of a proposed redevelopment plan, redevelopment project or designation of a redevelopment area, the remaining members may proceed to exercise the power of the commission. Of the members first appointed by the municipality, two shall be designated to serve for terms of two years, two shall be designated to serve for a term of three years and two shall be designated to serve for a term of four years from the date of such initial appointments. Thereafter, the members appointed by the municipality shall serve for a term of four years, except that all vacancies shall be filled for unexpired terms in the same manner as were the original appointments. Members appointed by the county executive or presiding commissioner prior to August 28, 2008, shall continue their service on the commission established in subsection 3 of this section without further appointment unless the county executive or presiding commissioner appoints a new member or members.

(1) In lieu of a commission created under subsection 2 of this section, any city, town, or village in a county with a charter form of government and with more than one million inhabitants, in a county with a charter form of government and with more than two hundred fifty thousand but fewer than three hundred fifty thousand inhabitants, or in a county of the first classification with more than one hundred eighty-five thousand but fewer than two hundred thousand inhabitants shall, prior to adoption of an ordinance approving the designation of a redevelopment area or approving a redevelopment plan or redevelopment project, create a commission consisting of twelve persons to be appointed as follows:

(a) Six members appointed either by the county executive or presiding commissioner; notwithstanding any provision of law to the contrary, no approval by the county's governing body shall be required;

(b) Three members appointed by the cities, towns, or villages in the county which have tax increment financing districts in a manner in which the chief elected officials of such cities, towns, or villages agree;

(c) Two members appointed by the school boards whose districts are included in the county in a manner in which the school boards agree; and

(d) One member to represent all other districts levying ad valorem taxes in the proposed redevelopment area in a manner in which all such districts agree.

No city, town, or village subject to this subsection shall create or maintain a commission under subsection 2 of this section, except as necessary to complete a public hearing for which notice under section 99.830 has been provided prior to August 28, 2008, and to vote or make recommendations relating to redevelopment plans, redevelopment projects, or designation of redevelopment areas, or amendments thereto that were the subject of such public hearing;

(2) Members appointed to the commission created under this subsection, except those six members appointed by either the county executive or presiding commissioner, shall serve on the commission for a term to coincide with the length of time a redevelopment project, redevelopment plan, or designation of a redevelopment area is considered for approval by the commission. The six members appointed by either the county executive or the presiding commissioner shall serve on all such commissions until replaced. The city, town, or village that creates a commission under this subsection shall send notice thereof by certified mail to the county executive or presiding commissioner, to the school districts whose boundaries include any portion of the proposed redevelopment area, and to the other taxing districts whose boundaries include any portion of the proposed redevelopment area. The city, town, or village that creates the commission shall also be solely responsible for notifying all other cities, towns, and villages in the county that have tax increment financing districts and shall exercise all administrative functions of the commission. The school districts receiving notice from the city, town, or village shall be solely responsible for notifying the other school districts within the county of the formation of the commission. If the county, school board, or other taxing district fails to appoint members to the commission within thirty days after the city, town, or village sends the written notice, as provided herein, that it has convened such a commission or within thirty days of the expiration of any such member's term, the remaining duly appointed members of the commission may exercise the full powers of the commission.

4. (1) Any commission created under this section, subject to approval of the governing body of the municipality, may exercise the powers enumerated in sections 99.800 to 99.865, except final approval of plans, projects and designation of redevelopment areas. The commission shall hold public hearings and provide notice pursuant to sections 99.825 and 99.830.

(2) Any commission created under subsection 2 of this section shall vote on all proposed redevelopment plans, redevelopment projects and designations of redevelopment areas, and amendments thereto, within thirty days following completion of the hearing on any such plan, project or designation and shall make recommendations to the governing body within ninety days of the hearing referred to in section 99.825 concerning the adoption of or amendment to redevelopment plans and redevelopment projects and the designation of redevelopment areas. The requirements of subsection 2 of this section and this subsection shall not apply to redevelopment projects upon which the required hearings have been duly held prior to August 31, 1991.

(3) Any commission created under subsection 3 of this section shall, within fifteen days of the receipt of a redevelopment plan meeting the minimum requirements of section 99.810, as determined by counsel to the city, town, or village creating the commission and a request by the applicable city, town, or village for a public hearing, fix a time and place for the public hearing referred to in section 99.825. The public hearing shall be held no later than seventy-five days from the commission's receipt of such redevelopment plan and request for public hearing. The commission shall vote and make recommendations to the governing body of the city, town, or village requesting the public hearing on all proposed redevelopment plans, redevelopment projects, and designations of redevelopment areas, and amendments thereto within thirty days following the completion of the public hearing. A recommendation of approval shall only be deemed to occur if a majority of the commissioners voting on such plan, project, designation, or amendment thereto vote for approval. A tied vote shall be considered a recommendation in opposition. If the commission fails to vote **a recommendation for approval** within thirty days following the completion of the public hearing referred to in section 99.825 concerning the proposed redevelopment plan, redevelopment project, or designation of redevelopment area, or amendments thereto, such plan, project, designation, or amendment thereto shall be deemed rejected by the commission.

**5. Beginning August 28, 2017:**

**(1) All redevelopment plans, before final approval of the project, shall obtain an opinion from the department of economic development as to whether the redevelopment plan is financially feasible without economic activity taxes and payments in lieu of taxes;**

(2) The department shall assume that the redevelopment plan is financially feasible without economic activity taxes and payments in lieu of taxes, and the burden shall be on the proponents of the redevelopment plan to show otherwise;

(3) No redevelopment plan that the department of economic development determines is feasible without economic activity taxes and payments in lieu of taxes shall be implemented;

(4) The department of economic development may promulgate rules to implement the provisions of this subsection. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2017, shall be invalid and void.

6. It shall be the policy of the state that each redevelopment plan or project of a municipality be carried out with full transparency to the public. The records of the tax increment financing commission including, but not limited to, commission votes and actions, meeting minutes, summaries of witness testimony, data, and reports submitted to the commission shall be retained by the governing body of the municipality that created the commission and shall be made available to the public in accordance with chapter 610.

99.843. Notwithstanding the provisions of sections 99.800 to 99.865 to the contrary, no new tax increment financing project shall be authorized in any greenfield area, as such term is defined in section 99.805[~~that is located within a city not within a county or any county subject to the authority of the East West Gateway Council of Governments. Municipalities not subject to the authority of the East West Gateway Council of Governments may authorize tax increment finance projects in greenfield areas~~].

99.845. 1. A municipality, either at the time a redevelopment project is approved or, in the event a municipality has undertaken acts establishing a redevelopment plan and redevelopment project and has designated a redevelopment area after the passage and approval of sections 99.800 to 99.865 but prior to August 13, 1982, which acts are in conformance with the procedures of sections 99.800 to 99.865, may adopt tax increment allocation financing by passing an ordinance providing that after the total equalized assessed valuation of the taxable real property in a redevelopment project exceeds the certified total initial equalized assessed valuation of the taxable real property in the redevelopment project, the ad valorem taxes, and payments in lieu of taxes, if any, arising from the levies upon taxable real property in such redevelopment project by taxing districts and tax rates determined in the manner provided in subsection 2 of section 99.855 each year after the effective date of the ordinance until redevelopment costs have been paid shall be divided as follows:

(1) That portion of taxes, penalties and interest levied upon each taxable lot, block, tract, or parcel of real property which is attributable to the initial equalized assessed value of each such taxable lot, block, tract, or parcel of real property in the area selected for the redevelopment project shall be allocated to and, when collected, shall be paid by the county collector to the respective affected taxing districts in the manner required by law in the absence of the adoption of tax increment allocation financing;

(2) (a) Payments in lieu of taxes attributable to the increase in the current equalized assessed valuation of each taxable lot, block, tract, or parcel of real property in the area selected for the redevelopment project and any applicable penalty and interest over and above the initial equalized assessed value of each such unit of property in the area selected for the redevelopment project shall be allocated to and, when collected, shall be paid to the municipal treasurer who shall deposit such payment in lieu of taxes into a special fund called the "Special Allocation Fund" of the municipality for the purpose of paying redevelopment costs and obligations incurred in the payment thereof. Beginning August 28, 2014, if the voters in a taxing district vote to approve an increase in such taxing district's levy rate for ad valorem tax on real property, any additional revenues generated within an existing redevelopment project area that are directly attributable to the newly voter-approved incremental increase in such taxing district's levy rate shall not be considered payments in lieu of taxes subject to deposit into a special allocation fund without the consent of such taxing district. Revenues will be considered directly attributable to the newly voter-approved incremental increase to the extent that they are generated from the difference between the taxing district's actual levy rate currently imposed and the maximum voter-approved levy rate at the time that the redevelopment project was adopted. Payments in lieu of taxes which are due and owing shall constitute a lien against the real estate of the redevelopment project from which they are derived and shall be collected in the same manner as the real property tax, including the assessment of penalties and interest where applicable. The municipality may, in the ordinance, pledge the funds in the special allocation fund for the payment of such costs and

obligations and provide for the collection of payments in lieu of taxes, the lien of which may be foreclosed in the same manner as a special assessment lien as provided in section 88.861. No part of the current equalized assessed valuation of each lot, block, tract, or parcel of property in the area selected for the redevelopment project attributable to any increase above the total initial equalized assessed value of such properties shall be used in calculating the general state school aid formula provided for in section 163.031 until such time as all redevelopment costs have been paid as provided for in this section and section 99.850[-] ;

(b) Notwithstanding any provisions of this section to the contrary, for purposes of determining the limitation on indebtedness of local government pursuant to Article VI, Section 26(b) of the Missouri Constitution, the current equalized assessed value of the property in an area selected for redevelopment attributable to the increase above the total initial equalized assessed valuation shall be included in the value of taxable tangible property as shown on the last completed assessment for state or county purposes[-] ;

(c) The county assessor shall include the current assessed value of all property within the taxing district in the aggregate valuation of assessed property entered upon the assessor's book and verified pursuant to section 137.245, and such value shall be utilized for the purpose of the debt limitation on local government pursuant to Article VI, Section 26(b) of the Missouri Constitution;

(3) For purposes of this section, "levies upon taxable real property in such redevelopment project by taxing districts" shall not include the blind pension fund tax levied under the authority of Article III, Section 38(b) of the Missouri Constitution, or the merchants' and manufacturers' inventory replacement tax levied under the authority of subsection 2 of Section 6 of Article X of the Missouri Constitution, except in redevelopment project areas in which tax increment financing has been adopted by ordinance pursuant to a plan approved by vote of the governing body of the municipality taken after August 13, 1982, and before January 1, 1998;

**(4) The board or body that oversees a special taxing district, as that term is defined under section 99.805, may elect to have the property or sales taxes levied by such district excluded from a tax increment allocation financing project or plan by passing a resolution by two-thirds majority prior to the time the project or plan is adopted or approved by ordinance. At least ten days prior to the vote on the resolution, the board shall post notice of and hold a public hearing. If the resolution passes, subdivisions (1) and (2) of this subsection shall not apply to any tax levied by the special taxing district, and all revenue from such tax shall be allocated to the district and shall not be allocated to redevelopment costs and obligations; and**

**(5) A school board of a school district may elect to have the portion of property tax revenue allocated to the school district by a county or municipality excluded from a tax increment allocation financing project or plan by passing a resolution by two-thirds majority prior to the time the project or plan is adopted or approved by ordinance. At least ten days prior to the vote on the resolution, the board shall post notice of and hold a public hearing. If the resolution passes, the board shall notify the director of revenue and county collector. If the resolution passes, subdivision (2) of this subsection shall not apply to the percentage of property tax revenue equal to the average percentage of property tax revenue allocated to the school district over the preceding five years, and such percentage of revenue attributable to the increase in the current equalized assessed valuation of each taxable lot, block, tract, or parcel of real property within the redevelopment project area shall be allocated to the school district and shall not be allocated to redevelopment costs and obligations.**

2. In addition to the payments in lieu of taxes described in subdivision (2) of subsection 1 of this section, for redevelopment plans and projects adopted or redevelopment projects approved by ordinance after July 12, 1990, and prior to August 31, 1991, fifty percent of the total additional revenue from taxes, penalties and interest imposed by the municipality, or other taxing districts, which are generated by economic activities within the area of the redevelopment project over the amount of such taxes generated by economic activities within the area of the redevelopment project in the calendar year prior to the adoption of the redevelopment project by ordinance, while tax increment financing remains in effect, but excluding taxes imposed on sales or charges for sleeping rooms paid by transient guests of hotels and motels, taxes levied pursuant to section 70.500, licenses, fees or special assessments other than payments in lieu of taxes and any penalty and interest thereon, or, effective January 1, 1998, taxes levied pursuant to section 94.660, for the purpose of public transportation, shall be allocated to, and paid by the local political subdivision collecting officer to the treasurer or other designated financial officer of the municipality, who shall deposit such funds in a separate segregated account within the special allocation fund. Any provision of an agreement, contract or covenant entered into prior to July 12, 1990, between a municipality and any other political subdivision which provides for an appropriation of other municipal revenues to the special allocation fund shall be and remain enforceable.

3. In addition to the payments in lieu of taxes described in subdivision (2) of subsection 1 of this section, for redevelopment plans and projects adopted or redevelopment projects approved by ordinance after August 31, 1991, fifty percent of the total additional revenue from taxes, penalties and interest which are imposed by the municipality or other taxing districts, and which are generated by economic activities within the area of the redevelopment project over the amount of such taxes generated by economic activities within the area of the redevelopment project in the calendar year prior to the adoption of the redevelopment project by ordinance, while tax increment financing remains in effect, but excluding personal property taxes, taxes imposed on sales or charges for sleeping rooms paid by transient guests of hotels and motels, taxes levied pursuant to section 70.500, taxes levied for the purpose of public transportation pursuant to section 94.660, taxes imposed on sales pursuant to subsection 2 of section 67.1712 for the purpose of operating and maintaining a metropolitan park and recreation district, licenses, fees or special assessments other than payments in lieu of taxes and penalties and interest thereon, any sales tax imposed by a county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants, for the purpose of sports stadium improvement or levied by such county under section 238.410 for the purpose of the county transit authority operating transportation facilities, or for redevelopment plans and projects adopted or redevelopment projects approved by ordinance after August 28, 2013, taxes imposed on sales under and pursuant to section 67.700 or 650.399 for the purpose of emergency communication systems, shall be allocated to, and paid by the local political subdivision collecting officer to the treasurer or other designated financial officer of the municipality, who shall deposit such funds in a separate segregated account within the special allocation fund. Beginning August 28, 2014, if the voters in a taxing district vote to approve an increase in such taxing district's sales tax or use tax, other than the renewal of an expiring sales or use tax, any additional revenues generated within an existing redevelopment project area that are directly attributable to the newly voter-approved incremental increase in such taxing district's levy rate shall not be considered economic activity taxes subject to deposit into a special allocation fund without the consent of such taxing district.

4. Beginning January 1, 1998, for redevelopment plans and projects adopted or redevelopment projects approved by ordinance and which have complied with subsections 4 to 12 of this section, in addition to the payments in lieu of taxes and economic activity taxes described in subsections 1, 2 and 3 of this section, up to fifty percent of the new state revenues, as defined in subsection 8 of this section, estimated for the businesses within the project area and identified by the municipality in the application required by subsection 10 of this section, over and above the amount of such taxes reported by businesses within the project area as identified by the municipality in their application prior to the approval of the redevelopment project by ordinance, while tax increment financing remains in effect, may be available for appropriation by the general assembly as provided in subsection 10 of this section to the department of economic development supplemental tax increment financing fund, from the general revenue fund, for distribution to the treasurer or other designated financial officer of the municipality with approved plans or projects.

5. The treasurer or other designated financial officer of the municipality with approved plans or projects shall deposit such funds in a separate segregated account within the special allocation fund established ~~pursuant to section~~ **under sections 99.805 to 99.865.**

6. No transfer from the general revenue fund to the Missouri supplemental tax increment financing fund shall be made unless an appropriation is made from the general revenue fund for that purpose. No municipality shall commit any state revenues prior to an appropriation being made for that project. For all redevelopment plans or projects adopted or approved after December 23, 1997, appropriations from the new state revenues shall not be distributed from the Missouri supplemental tax increment financing fund into the special allocation fund unless the municipality's redevelopment plan ensures that one hundred percent of payments in lieu of taxes and fifty percent of economic activity taxes generated by the project shall be used for eligible redevelopment project costs while tax increment financing remains in effect. This account shall be separate from the account into which payments in lieu of taxes are deposited, and separate from the account into which economic activity taxes are deposited.

7. In order for the redevelopment plan or project to be eligible to receive the revenue described in subsection 4 of this section, the municipality shall comply with the requirements of subsection 10 of this section prior to the time the project or plan is adopted or approved by ordinance. The director of the department of economic development and the commissioner of the office of administration may waive the requirement that the municipality's application be submitted prior to the redevelopment plan's or project's adoption or the redevelopment plan's or project's approval by ordinance.

8. For purposes of this section, "new state revenues" means:

(1) The incremental increase in the general revenue portion of state sales tax revenues received pursuant to section 144.020, excluding sales taxes that are constitutionally dedicated, taxes deposited to the school district trust fund in accordance with section 144.701, sales and use taxes on motor vehicles, trailers, boats and outboard motors

and future sales taxes earmarked by law. In no event shall the incremental increase include any amounts attributable to retail sales unless the municipality or authority has proven to the Missouri development finance board and the department of economic development and such entities have made a finding that the sales tax increment attributable to retail sales is from new sources which did not exist in the state during the baseline year. The incremental increase in the general revenue portion of state sales tax revenues for an existing or relocated facility shall be the amount that current state sales tax revenue exceeds the state sales tax revenue in the base year as stated in the redevelopment plan as provided in subsection 10 of this section; or

(2) The state income tax withheld on behalf of new employees by the employer pursuant to section 143.221 at the business located within the project as identified by the municipality. The state income tax withholding allowed by this section shall be the municipality's estimate of the amount of state income tax withheld by the employer within the redevelopment area for new employees who fill new jobs directly created by the tax increment financing project.

9. Subsection 4 of this section shall apply only to the following:

(1) Blighted areas located in enterprise zones, pursuant to sections 135.200 to 135.256, blighted areas located in federal empowerment zones, or to blighted areas located in central business districts or urban core areas of cities which districts or urban core areas at the time of approval of the project by ordinance, provided that the enterprise zones, federal empowerment zones or blighted areas contained one or more buildings at least fifty years old; and

(a) Suffered from generally declining population or property taxes over the twenty-year period immediately preceding the area's designation as a project area by ordinance; or

(b) Was a historic hotel located in a county of the first classification without a charter form of government with a population according to the most recent federal decennial census in excess of one hundred fifty thousand and containing a portion of a city with a population according to the most recent federal decennial census in excess of three hundred fifty thousand;

(2) Blighted areas consisting solely of the site of a former automobile manufacturing plant located in any county with a charter form of government and with more than nine hundred fifty thousand inhabitants. For the purposes of this section, "former automobile manufacturing plant" means a redevelopment area containing a minimum of one hundred acres, and such redevelopment area was previously used primarily for the manufacture of automobiles but ceased such manufacturing after the 2007 calendar year; or

(3) Blighted areas consisting solely of the site of a former insurance company national service center containing a minimum of one hundred acres located in any county with a charter form of government and with more than nine hundred fifty thousand inhabitants.

10. The initial appropriation of up to fifty percent of the new state revenues authorized pursuant to subsection 4 of this section shall not be made to or distributed by the department of economic development to a municipality until all of the following conditions have been satisfied:

(1) The director of the department of economic development or his or her designee and the commissioner of the office of administration or his or her designee have approved a tax increment financing application made by the municipality for the appropriation of the new state revenues. The municipality shall include in the application the following items in addition to the items in section 99.810:

  - (gg) A market study for the development area;

- (2) The methodologies used in the application for determining the base year and determining the estimate of the incremental increase in the general revenue portion of the state sales tax revenues or the state income tax withheld by employers on behalf of new employees who fill new jobs created in the redevelopment area shall be approved by the director of the department of economic development or his or her designee and the commissioner of the office of administration or his or her designee. Upon approval of the application, the director of the department

of economic development or his or her designee and the commissioner of the office of administration or his or her designee shall issue a certificate of approval. The department of economic development may request the appropriation following application approval;

(3) The appropriation shall be either a portion of the estimate of the incremental increase in the general revenue portion of state sales tax revenues in the redevelopment area or a portion of the estimate of the state income tax withheld by the employer on behalf of new employees who fill new jobs created in the redevelopment area as indicated in the municipality's application, approved by the director of the department of economic development or his or her designee and the commissioner of the office of administration or his or her designee. At no time shall the annual amount of the new state revenues approved for disbursements from the Missouri supplemental tax increment financing fund exceed thirty-two million dollars; provided, however, that such thirty-two million dollar cap shall not apply to redevelopment plans or projects initially listed by name in the applicable appropriations bill after August 28, 2015, which involve either:

- (a) A former automobile manufacturing plant; or
- (b) The retention of a federal employer employing over two thousand geospatial intelligence jobs.

At no time shall the annual amount of the new state revenues for disbursements from the Missouri supplemental tax increment financing fund for redevelopment plans and projects eligible under the provisions of paragraph (a) of this subdivision exceed four million dollars in the aggregate. At no time shall the annual amount of the new state revenues for disbursements from the Missouri supplemental tax increment financing fund for redevelopment plans and projects eligible under the provisions of paragraph (b) of this subdivision exceed twelve million dollars in the aggregate. To the extent a redevelopment plan or project independently meets the eligibility criteria set forth in both paragraphs (a) and (b) of this subdivision, then at no such time shall the annual amount of new state revenues for disbursements from the Missouri supplemental tax increment financing fund for such eligible redevelopment plan or project exceed twelve million dollars in the aggregate;

(4) Redevelopment plans and projects receiving new state revenues shall have a duration of up to fifteen years, unless prior approval for a longer term is given by the director of the department of economic development or his or her designee and the commissioner of the office of administration or his or her designee; except that, in no case shall the duration exceed twenty-three years.

11. In addition to the areas authorized in subsection 9 of this section, the funding authorized pursuant to subsection 4 of this section shall also be available in a federally approved levee district, where construction of a levee begins after December 23, 1997, and which is contained within a county of the first classification without a charter form of government with a population between fifty thousand and one hundred thousand inhabitants which contains all or part of a city with a population in excess of four hundred thousand or more inhabitants.

12. There is hereby established within the state treasury a special fund to be known as the "Missouri Supplemental Tax Increment Financing Fund", to be administered by the department of economic development. The department shall annually distribute from the Missouri supplemental tax increment financing fund the amount of the new state revenues as appropriated as provided in the provisions of subsection 4 of this section if and only if the conditions of subsection 10 of this section are met. The fund shall also consist of any gifts, contributions, grants or bequests received from federal, private or other sources. Moneys in the Missouri supplemental tax increment financing fund shall be disbursed per project pursuant to state appropriations.

13. 14. For redevelopment plans or projects approved by ordinance that result in net new jobs from the relocation of a national headquarters from another state to the area of the redevelopment project, the economic activity taxes and new state tax revenues shall not be based on a calculation of the incremental increase in taxes as compared to the base year or prior calendar year for such redevelopment project, rather the incremental increase shall be the amount of total taxes generated from the net new jobs brought in by the national headquarters from another state. In no event shall this subsection be construed to allow a redevelopment project to receive an appropriation in excess of up to fifty percent of the new state revenues.

15. Notwithstanding any other provision of the law to the contrary, the adoption of any tax increment financing authorized under sections 99.800 to 99.865 shall not supersede, alter, or reduce in any way a property tax levied under section 205.971."; and
