

JOURNAL OF THE HOUSE

Second Regular Session, 99th GENERAL ASSEMBLY

TWENTY-THIRD DAY, TUESDAY, FEBRUARY 13, 2018

The House met pursuant to adjournment.

Speaker Richardson in the Chair.

Prayer by Reverend Monsignor Robert A. Kurwicki, Chaplain.

So we do not lose heart. Though our outer nature is wasting away, our inner nature is being renewed every day.
(II Corinthians 4:16)

Eternal God, whose paths are mercy and truth and who desires to lead Your children to the heights of righteousness and peace, we come to You seeking light upon our way, strength for our tasks, wisdom to see clearly, and the courage to do what ought to be done for the well-being of our State.

Help us to live this Mardi Gras day with joy and peace, without stumbling and without stain, because You are with us and we are with You. May the labor of these long hours be in accordance with Your holy will and for the good of all our people.

And the House says, "Amen!"

The Pledge of Allegiance to the flag was recited.

The Journal of the twenty-second day was approved as printed by the following vote:

301.130. 1. The director of revenue, upon receipt of a proper application for registration, required fees and any other information which may be required by law, shall issue to the applicant a certificate of registration in such manner and form as the director of revenue may prescribe and a set of license plates, or other evidence of registration, as provided by this section. Each set of license plates shall bear the name or abbreviated name of this

state, the words “SHOW-ME STATE”, the month and year in which the registration shall expire, and an arrangement of numbers or letters, or both, as shall be assigned from year to year by the director of revenue. The plates shall also contain fully reflective material with a common color scheme and design for each type of license plate issued pursuant to this chapter. The plates shall be clearly visible at night, and shall be aesthetically attractive. Special plates for qualified disabled veterans will have the “DISABLED VETERAN” wording on the license plates in preference to the words “SHOW-ME STATE” and special plates for members of the National Guard will have the “NATIONAL GUARD” wording in preference to the words “SHOW-ME STATE”.

2. The arrangement of letters and numbers of license plates shall be uniform throughout each classification of registration. The director may provide for the arrangement of the numbers in groups or otherwise, and for other distinguishing marks on the plates.

3. All property-carrying commercial motor vehicles to be registered at a gross weight in excess of twelve thousand pounds, all passenger-carrying commercial motor vehicles, local transit buses, school buses, trailers, semitrailers, motorcycles, motortricycles, **autocycles**, motorscooters, and driveaway vehicles shall be registered with the director of revenue as provided for in subsection 3 of section 301.030, or with the state highways and transportation commission as otherwise provided in this chapter, but only one license plate shall be issued for each such vehicle, except as provided in this subsection. The applicant for registration of any property-carrying commercial vehicle registered at a gross weight in excess of twelve thousand pounds may request and be issued two license plates for such vehicle, and if such plates are issued, the director of revenue shall provide for distinguishing marks on the plates indicating one plate is for the front and the other is for the rear of such vehicle. The director may assess and collect an additional charge from the applicant in an amount not to exceed the fee prescribed for personalized license plates in subsection 1 of section 301.144.

4. The plates issued to manufacturers and dealers shall bear the letters and numbers as prescribed by section 301.560, and the director may place upon the plates other letters or marks to distinguish commercial motor vehicles and trailers and other types of motor vehicles.

5. No motor vehicle or trailer shall be operated on any highway of this state unless it shall have displayed thereon the license plate or set of license plates issued by the director of revenue or the state highways and transportation commission and authorized by section 301.140. Each such plate shall be securely fastened to the motor vehicle or trailer in a manner so that all parts thereof shall be plainly visible and reasonably clean so that the reflective qualities thereof are not impaired. Each such plate may be encased in a transparent cover so long as the plate is plainly visible and its reflective qualities are not impaired. License plates shall be fastened to all motor vehicles except trucks, tractors, truck tractors or truck-tractors licensed in excess of twelve thousand pounds on the front and rear of such vehicles not less than eight nor more than forty-eight inches above the ground, with the letters and numbers thereon right side up. The license plates on trailers, motorcycles, motortricycles, **autocycles**, and motorscooters shall be displayed on the rear of such vehicles either horizontally or vertically, with the letters and numbers plainly visible. The license plate on buses, other than school buses, and on trucks, tractors, truck tractors or truck-tractors licensed in excess of twelve thousand pounds shall be displayed on the front of such vehicles not less than eight nor more than forty-eight inches above the ground, with the letters and numbers thereon right side up or if two plates are issued for the vehicle pursuant to subsection 3 of this section, displayed in the same manner on the front and rear of such vehicles. The license plate or plates authorized by section 301.140, when properly attached, shall be prima facie evidence that the required fees have been paid.

6. (1) The director of revenue shall issue annually or biennially a tab or set of tabs as provided by law as evidence of the annual payment of registration fees and the current registration of a vehicle in lieu of the set of plates. Beginning January 1, 2010, the director may prescribe any additional information recorded on the tab or tabs to ensure that the tab or tabs positively correlate with the license plate or plates issued by the department of revenue for such vehicle. Such tabs shall be produced in each license bureau office.

(2) The vehicle owner to whom a tab or set of tabs is issued shall affix and display such tab or tabs in the designated area of the license plate, no more than one per plate.

(3) A tab or set of tabs issued by the director of revenue when attached to a vehicle in the prescribed manner shall be prima facie evidence that the registration fee for such vehicle has been paid.

(4) Except as otherwise provided in this section, the director of revenue shall issue plates for a period of at least six years.

(5) For those commercial motor vehicles and trailers registered pursuant to section 301.041, the plate issued by the highways and transportation commission shall be a permanent nonexpiring license plate for which no tabs shall be issued. Nothing in this section shall relieve the owner of any vehicle permanently registered pursuant to this section from the obligation to pay the annual registration fee due for the vehicle. The permanent nonexpiring license plate shall be returned to the highways and transportation commission upon the sale or disposal of the vehicle by the owner to whom the permanent nonexpiring license plate is issued, or the plate may be transferred to a replacement commercial motor vehicle when the owner files a supplemental application with the Missouri highways and transportation commission for the registration of such replacement commercial motor vehicle. Upon payment of the annual registration fee, the highways and transportation commission shall issue a certificate of registration or other suitable evidence of payment of the annual fee, and such evidence of payment shall be carried at all times in the vehicle for which it is issued.

(6) Upon the sale or disposal of any vehicle permanently registered under this section, or upon the termination of a lease of any such vehicle, the permanent nonexpiring plate issued for such vehicle shall be returned to the highways and transportation commission and shall not be valid for operation of such vehicle, or the plate may be transferred to a replacement vehicle when the owner files a supplemental application with the Missouri highways and transportation commission for the registration of such replacement vehicle. If a vehicle which is permanently registered under this section is sold, wrecked or otherwise disposed of, or the lease terminated, the registrant shall be given credit for any unused portion of the annual registration fee when the vehicle is replaced by the purchase or lease of another vehicle during the registration year.

7. The director of revenue and the highways and transportation commission may prescribe rules and regulations for the effective administration of this section. No rule or portion of a rule promulgated under the authority of this section shall become effective unless it has been promulgated pursuant to the provisions of section 536.024.

8. Notwithstanding the provisions of any other law to the contrary, owners of motor vehicles other than apportioned motor vehicles or commercial motor vehicles licensed in excess of twenty-four thousand pounds gross weight may apply for special personalized license plates. Vehicles licensed for twenty-four thousand pounds that display special personalized license plates shall be subject to the provisions of subsections 1 and 2 of section 301.030. On and after August 28, 2016, owners of motor vehicles, other than apportioned motor vehicles or commercial motor vehicles licensed in excess of twenty-four thousand pounds gross weight, may apply for any preexisting or hereafter statutorily created special personalized license plates.

9. No later than January 1, 2019, the director of revenue shall commence the reissuance of new license plates of such design as approved by the advisory committee under section 301.125 consistent with the terms, conditions, and provisions of section 301.125 and this chapter. Except as otherwise provided in this section, in addition to all other fees required by law, applicants for registration of vehicles with license plates that expire during the period of reissuance, applicants for registration of trailers or semitrailers with license plates that expire during the period of reissuance and applicants for registration of vehicles that are to be issued new license plates during the period of reissuance shall pay the cost of the plates required by this subsection. The additional cost prescribed in this subsection shall not be charged to persons receiving special license plates issued under section 301.073 or 301.443. Historic motor vehicle license plates registered pursuant to section 301.131 and specialized license plates are exempt from the provisions of this subsection. Except for new, replacement, and transfer applications, permanent nonexpiring license plates issued to commercial motor vehicles and trailers registered under section 301.041 are exempt from the provisions of this subsection.

301.350. 1. Upon receipt of an application for registration of a motor vehicle, trailer, manufacturer or dealer, as provided in this chapter, the director of revenue shall file such application and register such motor vehicle, trailer, manufacturer or dealer, together with the facts stated in the application, under a distinctive number assigned to such motor vehicle, trailer, manufacturer or dealer. Separate records shall be kept as follows:

- (1) Motor vehicles registered by owners;
- (2) Commercial motor vehicles;
- (3) Trailers;
- (4) Motorcycles and motor tricycles;

(5) **Autocycles;**

(6) **Manufacturers and dealers.**

2. The director of revenue may keep such other classifications and records as he may deem necessary and may enter contracts or agreements or otherwise make arrangements for computerized access to odometer and title information.

3. All of such books and records shall be kept open to public inspection during reasonable business hours.

4. The governor may cause the records of the department of revenue to be audited by the state auditor at any time."; and

House Amendment No. 2

AMEND House Bill No. 1329, Page 1, Section A, Line 2, by inserting after all of said line the following:

"169.291. 1. The general administration and the responsibility for the proper operation of the retirement system are hereby vested in a board of trustees of twelve persons who shall be resident taxpayers of the school district, as follows:

(1) Four trustees to be appointed for terms of four years by the board of education; provided, however, that the terms of office of the first four trustees so appointed shall begin immediately upon their appointment and shall expire one, two, three and four years from the date the retirement system becomes operative, respectively;

(2) Four trustees to be elected for terms of four years by and from the members of the retirement system; provided, however, that the terms of office of the first four trustees so elected shall begin immediately upon their election and shall expire one, two, three and four years from the date the retirement system becomes operative, respectively;

(3) The ninth trustee shall be the superintendent of schools of the school district;

(4) The tenth trustee shall be one retirant of the retirement system elected for a term of four years beginning the first day of January immediately following August 13, 1986, by the retirants of the retirement system;

(5) The eleventh trustee shall be appointed for a term of four years beginning the first day of January immediately following August 13, 1990, by the board of trustees described in subdivision (3) of section 182.701;

(6) The twelfth trustee shall be a retirant of the retirement system elected for a term of four years beginning the first day of January immediately following August 28, 1992, by the retirants of the retirement system.

2. If a vacancy occurs in the office of a trustee, the vacancy shall be filled for the unexpired term in the same manner as the office was previously filled, except that the board of trustees may appoint a qualified person to fill the vacancy in the office of an elected member until the next regular election at which time a member shall be elected for the unexpired term. No vacancy or vacancies on the board of trustees shall impair the power of the remaining trustees to administer the retirement system pending the filling of such vacancy or vacancies.

3. In the event of a lapse of the school district's corporate organization as described in subsections 1 and 4 of section 162.081, the general administration and responsibility for the proper operation of the retirement system shall continue to be vested in a twelve-person board of trustees, all of whom shall be resident taxpayers of a city, other than a city not within a county, of four hundred thousand or more. In such event, if vacancies occur in the offices of the four trustees appointed, prior to the lapse, by the board of education, or in the offices of the four trustees elected, prior to the lapse, by the members of the retirement system, or in the office of trustee held, prior to the lapse, by the superintendent of schools in the school district, as provided in subdivisions (1), (2) and (3) of subsection 1 of this section, the board of trustees shall appoint a qualified person to fill each vacancy and subsequent vacancies in the office of trustee for terms of up to four years, as determined by the board of trustees.

4. Each trustee shall, before assuming the duties of a trustee, take the oath of office before the court of the judicial circuit or one of the courts of the judicial circuit in which the school district is located that so far as it devolves upon the trustee, such trustee shall diligently and honestly administer the affairs of the board of trustees and that the trustee will not knowingly violate or willingly permit to be violated any of the provisions of the law applicable to the retirement system. Such oath shall be subscribed to by the trustee making it and filed in the office of the clerk of the circuit court.

5. Each trustee shall be entitled to one vote in the board of trustees. Seven trustees shall constitute a quorum at any meeting of the board of trustees. At any meeting of the board of trustees where a quorum is present, the vote of at least seven of the trustees in support of a motion, resolution or other matter is necessary to be the decision of the board; provided, however, that in the event of a lapse in the school district's corporate organization as described in subsections 1 and 4 of section 162.081, a majority of the trustees then in office shall constitute a quorum at any meeting of the board of trustees, and the vote of a majority of the trustees then in office in support of a motion, resolution or other matter shall be necessary to be the decision of the board.

6. The board of trustees shall have exclusive original jurisdiction in all matters relating to or affecting the funds herein provided for, including, in addition to all other matters, all claims for benefits or refunds, and its action, decision or determination in any matter shall be reviewable in accordance with chapter 536 or chapter 621. Subject to the limitations of sections 169.270 to 169.400, the board of trustees shall, from time to time, establish rules and regulations for the administration of funds of the retirement system, for the transaction of its business, and for the limitation of the time within which claims may be filed.

7. The trustees shall serve without compensation. The board of trustees shall elect from its membership a chairman and a vice chairman. The board of trustees shall appoint an executive director who shall serve as the administrative officer of the retirement system and as secretary to the board of trustees. It shall employ one or more persons, firms or corporations experienced in the investment of moneys to serve as investment counsel to the board of trustees. The compensation of all persons engaged by the board of trustees and all other expenses of the board necessary for the operation of the retirement system shall be paid at such rates and in such amounts as the board of trustees shall approve, and shall be paid from the investment income.

8. The board of trustees shall keep in convenient form such data as shall be necessary for actuarial valuations of the various funds of the retirement system and for checking the experience of the system.

9. The board of trustees shall keep a record of all its proceedings which shall be open to public inspection. It shall prepare annually and furnish to the board of education and to each member of the retirement system who so requests a report showing the fiscal transactions of the retirement system for the preceding fiscal year, the amount of accumulated cash and securities of the system, and the last balance sheet showing the financial condition of the system by means of an actuarial valuation of the assets and liabilities of the retirement system.

10. The board of trustees shall have, in its own name, power to sue and to be sued, to enter into contracts, to own property, real and personal, and to convey the same; but the members of such board of trustees shall not be personally liable for obligations or liabilities of the board of trustees or of the retirement system.

11. The board of trustees shall arrange for necessary legal advice for the operation of the retirement system.

12. The board of trustees shall designate a medical board to be composed of three or more physicians who shall not be eligible for membership in the system and who shall pass upon all medical examinations required under the provisions of sections 169.270 to 169.400, shall investigate all essential statements and certificates made by or on behalf of a member in connection with an application for disability retirement and shall report in writing to the board of trustees its conclusions and recommendations upon all matters referred to it.

13. The board of trustees shall designate an actuary who shall be the technical advisor of the board of trustees on matters regarding the operation of the retirement system and shall perform such other duties as are required in connection therewith. Such person shall be qualified as an actuary by membership as a Fellow of the Society of Actuaries or by similar objective standards.

14. At least once in each five-year period the actuary shall make an investigation into the actuarial experience of the members, retirants and beneficiaries of the retirement system and, taking into account the results of such investigation, the board of trustees shall adopt for the retirement system such actuarial assumptions as the board of trustees deems necessary for the financial soundness of the retirement system.

15. On the basis of such actuarial assumptions as the board of trustees adopts, the actuary shall make annual valuations of the assets and liabilities of the funds of the retirement system.

16. The rate of contribution payable by the employers shall equal one and ninety-nine one-hundredths percent, effective July 1, 1993; three and ninety-nine one-hundredths percent, effective July 1, 1995; five and ninety-nine one-hundredths percent, effective July 1, 1996; seven and one-half percent effective January 1, 1999, and for subsequent calendar years through 2013. For calendar year 2014 and each subsequent year, the rate of contribution payable by the employers for each year shall be determined ~~[by the actuary for the retirement system in the manner]~~ as provided in ~~[subsection]~~ **subsections 4 and 6** of section 169.350 and shall be certified by the board of trustees to the employers at least six months prior to the date such rate is to be effective.

17. In the event of a lapse of a school district's corporate organization as described in subsections 1 and 4 of section 162.081, no retirement system, nor any of the assets of any retirement system, shall be transferred to or merged with another retirement system without prior approval of such transfer or merge by the board of trustees of the retirement system.

169.324. 1. The annual service retirement allowance payable pursuant to section 169.320 shall be the retirant's number of years of creditable service multiplied by a percentage of the retirant's average final compensation, determined as follows:

(1) A retirant whose last employment as a regular employee ended prior to June 30, 1999, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service multiplied by one and three-fourths percent of the person's average final compensation, subject to a maximum of sixty percent of the person's average final compensation;

(2) A retirant whose number of years of creditable service is greater than thirty-four and one-quarter on August 28, 1993, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service as of August 28, 1993, multiplied by one and three-fourths percent of the person's average final compensation but shall not receive a greater annual service retirement allowance based on additional years of creditable service after August 28, 1993;

(3) A retirant who was an active member of the retirement system at any time on or after June 30, 1999, and who either retires before January 1, 2014, or is a member of the retirement system on December 31, 2013, and remains a member continuously to retirement shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service multiplied by two percent of the person's average final compensation, subject to a maximum of sixty percent of the person's final compensation;

(4) A retirant who becomes a member of the retirement system on or after January 1, 2014, including any retirant who was a member of the retirement system before January 1, 2014, but ceased to be a member for any reason other than retirement, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service multiplied by one and three-fourths percent of the person's average final compensation, subject to a maximum of sixty percent of the person's average final compensation;

(5) Notwithstanding the provisions of subdivisions (1) to (4) of this subsection, effective January 1, 1996, any retirant who retired on, before or after January 1, 1996, with at least twenty years of creditable service shall receive at least three hundred dollars each month as a retirement allowance, or the actuarial equivalent thereof if the retirant elected any of the options available under section 169.326. Any retirant who retired with at least ten years of creditable service shall receive at least one hundred fifty dollars each month as a retirement allowance, plus fifteen dollars for each additional full year of creditable service greater than ten years but less than twenty years (or the actuarial equivalent thereof if the retirant elected any of the options available under section 169.326). Any beneficiary of a deceased retirant who retired with at least ten years of creditable service and elected one of the options available under section 169.326 shall also be entitled to the actuarial equivalent of the minimum benefit provided by this subsection, determined from the option chosen.

2. Except as otherwise provided in sections 169.331 and 169.585, payment of a retirant's retirement allowance will be suspended for any month for which such person receives remuneration from the person's employer or from any other employer in the retirement system established by section 169.280 for the performance of services except any such person other than a person receiving a disability retirement allowance under section 169.322 may serve as a nonregular substitute, part-time or temporary employee for not more than six hundred hours in any school year without becoming a member and without having the person's retirement allowance discontinued, provided that through such substitute, part-time, or temporary employment, the person may earn no more than fifty percent of the annual salary or wages the person was last paid by the employer before the person retired and commenced receiving a retirement allowance, adjusted for inflation. If a person exceeds such hours limit or such compensation limit, payment of the person's retirement allowance shall be suspended for the month in which such limit was exceeded and each subsequent month in the school year for which the person receives remuneration from any employer in the retirement system. In addition to the conditions set forth above, the restrictions of this subsection shall also apply to any person retired and currently receiving a retirement allowance under sections 169.270 to 169.400, other than for disability, who is employed by a third party or is performing work as an independent contractor if the services performed by such person are provided to or for the benefit of any employer in the retirement system established under section 169.280. The retirement system may require the employer receiving such services, the third-party employer, the independent contractor, and the retirant subject to this subsection to provide documentation showing compliance with this subsection. If such documentation is not provided, the retirement system may deem the retirant to have exceeded the limitations provided for in this subsection. If a retirant is reemployed by any employer in any capacity, whether pursuant to this section, or section 169.331 or 169.585, or as a regular employee, the amount of such person's retirement allowance attributable to service prior to the person's first retirement date shall not be changed by the reemployment. If the person again becomes an active member and earns additional creditable service, upon the person's second retirement the person's retirement allowance shall be the sum of:

(1) The retirement allowance the person was receiving at the time the person's retirement allowance was suspended, pursuant to the payment option elected as of the first retirement date, plus the amount of any increase in such retirement allowance the person would have received pursuant to subsection 3 of this section had payments not been suspended during the person's reemployment; and

(2) An additional retirement allowance computed using the benefit formula in effect on the person's second retirement date, the person's creditable service following reemployment, and the person's average final annual compensation as of the second retirement date.

The sum calculated pursuant to this subsection shall not exceed the greater of sixty percent of the person's average final compensation as of the second retirement date or the amount determined pursuant to subdivision (1) of this subsection. Compensation earned prior to the person's first retirement date shall be considered in determining the person's average final compensation as of the second retirement date if such compensation would otherwise be included in determining the person's average final compensation.

3. The board of trustees shall determine annually whether the investment return on funds of the system can provide for an increase in benefits for retirants eligible for such increase. A retirant shall and will be eligible for an

increase awarded pursuant to this section as of the second January following the date the retirant commenced receiving retirement benefits. Any such increase shall also apply to any monthly joint and survivor retirement allowance payable to such retirant's beneficiaries, regardless of age. The board shall make such determination as follows:

(1) After determination by the actuary of the investment return for the preceding year as of December thirty-first (the "valuation year"), the actuary shall recommend to the board of trustees what portion of the investment return is available to provide such benefits increase, if any, and shall recommend the amount of such benefits increase, if any, to be implemented as of the first day of the thirteenth month following the end of the valuation year, and first payable on or about the first day of the fourteenth month following the end of the valuation year. The actuary shall make such recommendations so as not to affect the financial soundness of the retirement system, recognizing the following safeguards:

(a) The retirement system's funded ratio as of January first of the year preceding the year of a proposed increase shall be at least one hundred percent ~~[after]~~ **before** adjusting for the effect of the proposed increase. The funded ratio is the ratio of assets to the pension benefit obligation;

(b) The actuarially required contribution rate, ~~[after]~~ **before** adjusting for the effect of the proposed increase, may not exceed the then applicable employer and member contribution rate as determined under ~~[subsection]~~ **subsections 4, 5, and 6** of section 169.350;

(c) The actuary shall certify to the board of trustees that the proposed increase will not impair the actuarial soundness of the retirement system;

(d) A benefit increase, under this section, once awarded, cannot be reduced in succeeding years;

(2) The board of trustees shall review the actuary's recommendation and report and shall, in their discretion, determine if any increase is prudent and, if so, shall determine the amount of increase to be awarded.

4. This section does not guarantee an annual increase to any retirant.

5. If an inactive member becomes an active member after June 30, 2001, and after a break in service, unless the person earns at least four additional years of creditable service without another break in service, upon retirement the person's retirement allowance shall be calculated separately for each separate period of service ending in a break in service. The retirement allowance shall be the sum of the separate retirement allowances computed for each such period of service using the benefit formula in effect, the person's average final compensation as of the last day of such period of service and the creditable service the person earned during such period of service; provided, however, if the person earns at least four additional years of creditable service without another break in service, all of the person's creditable service prior to and including such service shall be aggregated and, upon retirement, the retirement allowance shall be computed using the benefit formula in effect and the person's average final compensation as of the last day of such period of four or more years and all of the creditable service the person earned prior to and during such period.

6. Notwithstanding anything contained in this section to the contrary, the amount of the annual service retirement allowance payable to any retirant pursuant to the provisions of sections 169.270 to 169.400, including any adjustments made pursuant to subsection 3 of this section, shall at all times comply with the provisions and limitations of Section 415 of the Internal Revenue Code of 1986, as amended, and the regulations thereunder, the terms of which are specifically incorporated herein by reference.

7. All retirement systems established by the laws of the state of Missouri shall develop a procurement action plan for utilization of minority and women money managers, brokers and investment counselors. Such retirement systems shall report their progress annually to the joint committee on public employee retirement and the governor's minority advocacy commission.

169.350. 1. All of the assets of the retirement system (other than tangible real or personal property owned by the retirement system for use in carrying out its duties, such as office supplies and furniture) shall be credited, according to the purpose for which they are held, in either the employees' contribution fund or the general reserve fund.

(1) The employees' contribution fund shall be the fund in which shall be accumulated the contributions of the members. The employer shall, except as provided in subdivision (5) of this subsection, cause to be deducted from the compensation of each member on each and every payroll, for each and every payroll period, the pro rata portion of five and nine-tenths percent of his annualized compensation. Effective January 1, 1999, through December 31, 2013, the employer shall deduct an additional one and six-tenths percent of the member's annualized compensation. For 2014 and for each subsequent year, the employer shall deduct from each member's annualized compensation the rate of contribution determined for such year ~~[by the actuary for the retirement system in the manner]~~ **as provided in [subsection] subsections 4, 5, and 6** of this section.

(2) The employer shall pay all such deductions and any amount it may elect to pay pursuant to subdivision (5) of this subsection to the retirement system at once. The retirement system shall credit such deductions and such amounts to the individual account of each member from whose compensation the deduction was made or with respect to whose compensation the amount was paid pursuant to subdivision (5) of this subsection. In determining the deduction for a member in any payroll period, the board of trustees may consider the rate of compensation payable to such member on the first day of the payroll period as continuing throughout such period.

(3) The deductions provided for herein are declared to be a part of the compensation of the member and the making of such deductions shall constitute payments by the member out of the person's compensation and such deductions shall be made notwithstanding that the amount actually paid to the member after such deductions is less than the minimum compensation provided by law for any member. Every member shall be deemed to consent to the deductions made and provided for herein, and shall receipt for the person's full compensation, and the making of the deduction and the payment of compensation less the deduction shall be a full and complete discharge and acquittance of all claims and demands whatsoever for services rendered during the period covered by the payment except as to benefits provided by sections 169.270 to 169.400.

(4) The accumulated contributions with interest of a member withdrawn by the person or paid to the person's estate or designated beneficiary in the event of the person's death before retirement shall be paid from the employees' contribution fund. Upon retirement of a member the member's accumulated contributions with interest shall be transferred from the employees' contribution fund to the general reserve fund.

(5) The employer may elect to pay on behalf of all members all or part of the amount that the members would otherwise be required to contribute to the employees' contribution fund pursuant to subdivision (1) of this subsection. Such amounts paid by the employer shall be in lieu of members' contributions and shall be treated for all purposes of sections 169.270 to 169.400 as contributions made by members. Notwithstanding any other provision of this chapter to the contrary, no member shall be entitled to receive such amounts directly. The election shall be made by a duly adopted resolution of the employer's board and shall remain in effect for at least one year from the effective date thereof. The election may be thereafter terminated only by an affirmative act of the employer's board notwithstanding any limitation in the term thereof in the adopting resolution. Any such termination resolution shall be adopted at least sixty days prior to the effective date thereof, and the effective date thereof shall coincide with a fiscal year-end of the employer. In the absence of such a termination resolution, the election shall remain in effect from fiscal year to fiscal year.

2. The general reserve fund shall be the fund in which shall be accumulated all reserves for the payment of all benefit expenses and other demands whatsoever upon the retirement system except those items heretofore allocated to the employees' contribution fund.

(1) All contributions by the employer, except those the employer elects to make on behalf of the members pursuant to subdivision (5) of subsection 1 of this section, shall be credited to the general reserve fund.

(2) Should a retirant be restored to active service and again become a member of the retirement system, the excess, if any, of the person's accumulated contributions over benefits received by the retirant shall be transferred from the general reserve fund to the employees' contribution fund and credited to the person's account.

3. Gifts, devises, bequests and legacies may be accepted by the board of trustees and deposited in the general reserve fund to be held, invested and used at its discretion for the benefit of the retirement system except where specific direction for the use of a gift is made by a donor.

4. Beginning in 2013, the actuary for the retirement system shall annually calculate the rate of employer contributions and member contributions for 2014 and for each subsequent calendar year **through 2018**, expressed as a level percentage of the annualized compensation of the members, subject to the following:

(1) The rate of contribution for any calendar year shall be determined based on an actuarial valuation of the retirement system as of the first day of the prior calendar year. Such actuarial valuation shall be performed using the actuarial cost method and actuarial assumptions adopted by the board of trustees and in accordance with accepted actuarial standards of practice in effect at the time the valuation is performed, as promulgated by the actuarial standards board or its successor;

(2) The target combined employer and member contribution rate shall be the amount actuarially required to cover the normal cost and amortize any unfunded accrued actuarial liability over a period that shall not exceed thirty years from the date of the valuation;

(3) The target combined rate as so determined shall be allocated equally between the employer contribution rate and the member contribution rate, provided, however, that the level rate of contributions to be paid

by the employers and the level rate of contributions to be deducted from the compensation of members for any calendar year shall each be limited as follows:

- (a) The contribution rate shall not be less than seven and one-half percent;
 - (b) The contribution rate shall not exceed nine percent; and
 - (c) Changes in the contribution rate from year to year shall be in increments of one-half percent such that the contribution rate for any year shall not be greater than or less than the rate in effect for the prior year by more than one-half percent;
- (4) The board of trustees shall certify to the employers the contribution rate for the following calendar year no later than six months prior to the date such rate is to be effective.

5. The member contribution rate for 2019 and subsequent periods shall be nine percent of compensation unless a lower member contribution rate applies for any period beginning on or after July 1, 2021, in accordance with the provisions of subdivision (4) of subsection 6 of this section.

6. The employer contribution rate for calendar year 2019 shall be ten and one-half percent. The employer contribution rate for the eighteen-month period beginning January 1, 2020, through June 30, 2021, shall be twelve percent. For the twelve-month period beginning July 1, 2021, and for each subsequent twelve-month period beginning July first each year, the employer contribution rate shall be determined as follows:

(1) The actuary shall determine the total actuarially required contribution based on an actuarial valuation of the retirement system as of the first day of the preceding calendar year. Such actuarial valuation shall be performed using the actuarial cost method and actuarial assumptions adopted by the board of trustees and in accordance with actuarial standards of practice applicable as of the valuation date. The total actuarially required contribution rate, including both employer and member contributions, shall be an amount determined in accordance with the board's current funding policy, expressed as a level percentage of the annualized compensation of the members;

(2) If the retirement system's funded ratio as of the first day of the preceding calendar year is below one hundred percent, the employer contribution rate shall be the greater of twelve percent or the difference between the total actuarially required contribution rate and the nine percent member contribution rate, subject to the limits on annual adjustments stated in subdivision (6) of this subsection;

(3) If the retirement system's funded ratio as of the first day of the preceding calendar year equals or exceeds one hundred percent and the total actuarially required contribution rate exceeds eighteen percent, the employer contribution rate shall be the difference between the total actuarially required contribution rate and the nine percent member contribution rate, subject to the limits on annual adjustments stated in subdivision (6) of this subsection;

(4) If the retirement system's funded ratio as of the first day of the preceding calendar year equals or exceeds one hundred percent and the total actuarially required contribution rate does not exceed eighteen percent, the total actuarially required contribution rate shall be allocated equally between the employer contribution rate and the member contribution rate. If the total actuarially required contribution rate falls below eighteen percent after being above eighteen percent for the preceding twelve-month period, the member contribution rate and the employer contribution rate shall be adjusted to one-half of the total actuarially required contribution rate for such period, regardless of the magnitude of the decrease from the rate in effect for the prior period, in order to equalize the employer and member contribution rates. Otherwise, adjustments in the contribution rates shall be limited by the annual adjustment limits stated in subdivision (6) of this subsection;

(5) If the retirement system's funded ratio as of the first day of the preceding calendar year again falls below one hundred percent, or if the total actuarially required contribution rate rises above eighteen percent, the provisions of subdivision (2) or (3) of this subsection shall apply, as applicable, subject to the limits on annual adjustments stated in subdivision (6) of this subsection;

(6) Except as stated in subdivision (4) of this subsection, in transitioning to the contribution rates prescribed in this subsection for periods beginning on or after July 1, 2021, the employer contribution rate and the member contribution rate, respectively, shall not increase by more than one percent or decrease by more than one-half percent for any period from the corresponding rate in effect immediately before such increase or decrease; and

(7) The board of trustees shall certify to the employers the contribution rate to be effective for July 1, 2021, and for each following July first, no later than six months prior to the date such rate is to be effective.

169.360. 1. Before the first of July of each year, the board of trustees shall certify to each employer the amounts which will become due and payable from each during the school year next following to the general reserve

fund. The amount so certified shall be appropriated by each employer's board by a resolution explicitly directing the appropriate officials to pay the same, not later than July twenty-fifth of each year and transferred to the retirement system on or before December thirty-first of the same year.

2. Effective January 1, 2019, each employer shall transfer its employer contributions to the retirement system promptly following the end of each payroll period at the time the employer transfers member contributions."; and
