FISCAL ANALYSIS

ASSUMPTION

Officials from the **City of St. Louis**, the **St. Louis County Board of Elections**, the **Little Blue Valley Sewer District** and the **Metropolitan St. Louis Sewer District** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Officials from the **Office of the Secretary of State (SOS)** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Oversight assumes this proposal is permissive in nature and would have no local fiscal impact without action or decisions by the governing body of the count. Therefore, Oversight will reflect no direct fiscal impact for this proposal.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other counties and utility districts were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri legislative Information System (MOLIS) database is available upon request.
