

HJR 95 -- SELECTION OF PRESIDENTIAL ELECTORS

SPONSOR: Simmons

Upon voter approval, this proposed Constitutional amendment mandates that the current process for the selection of Missouri's presidential electors, that is based on the majority vote for president within Missouri, shall be retained unless modified by a subsequent state Constitutional amendment. It shall be improper for Missouri to enact any statute joining an interstate agreement to select electors for the President by the national popular vote.

This bill is the same as HJR 52 (2021).
