Private property owners should make decisions regarding security on their own, rather than the government mandating a one-size-fits-all solution. So-called "gun-free zones" only disarm law-abiding citizens, while criminals ignore such arbitrary boundaries. Please support our 2A! Thank you!

Please support bills 1698 and/or 1912. I don't understand why there are two of what look like the same bill. You all can work that out. Deleting any infringement on the right to keep and bear arms is a good thing. Church, mosques etc should be no different than anywhere else. If they don't want concealed firearms inside, let them place the appropriate signage. As far as I'm concerned the whole of RSMo 571.107 should be repealed and replaced with nothing. But for now, striking #14 will do. Thank You.-  
Andrew Green

Churches should be not different than any other private property in that it is completely up to the owner and/or congregation to decide what the firearms carry rules for the private property should be. This should not be up to the government as the government does not have the right to infringe on our second amendment right.

I strongly support concealed carry in churches and any place of worship. I have my MO ccw and I believe that I have the right to protect my family and myself inside or outside the church. In fact I believe we have even more right in the church where some crazy people have gone to target Christians. God gave us the right to protect our families by any means necessary, including with firearms. This bill absolutely needs to pass to allow carrying firearms in church.

Please repeal the prohibition in state law against carrying firearms for self-defense in places of worship. A gun free zone appeals to criminals who know that no one will have any means of protection while attending church services. reference the church shooting in Texas a couple years ago and do to swift action many lives were saved.

I support this bill because the U.S. Constitution allows citizens to keep and bear arms. MO state law permits us to concealed carry in order to protect ourselves and our property (Castle Doctrine). I remember one incident where an armed church member saved many by taking out the assassin. I believe it the responsibility of each individual church to decide whether to permit firearms in/on church property not the state.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Sirs/Madams, The continued restriction and regulation of firearms by legally enabled citizens ignores the fact that criminals don't obey the law. The emergence of lawless and desperate factions of people in our population is overtaking the ability of law enforcement to keep innocent people safe. If it were possible to turn the clock back and raise every person in a stable, safe and law-abiding home, society would not have the need to defend itself. Unfortunately, that is not possible. The penchant for the criminal element to attack people in their most vulnerable situations without warning negates the ability of police to enforce the law. Once people reach this granular level of survival, being able to meet or exceed the force being used against them is a matter of life and death. When we understand that, we can work on the root cause of aggravated violence to people-the criminal element and its mindset which present a clear danger to our peaceful existence. Lax judges, light sentences and little or no bail rules cannot be balanced by onerous demands on legal ownership of regulated firearms. Repeal this bill.

The right of an individual to defend him/herself is a fundamental right. I am a law abiding citizen with a Missouri concealed carry permit because I care. I care for the defense of good, honest, law-abiding citizens from those who would do them harm. Those who would restrict people from being able to protect themselves at all times don't care about good people and are tyrants who enable the criminals in society. When government would insert itself into the affairs of others without their permission, e.g. prohibiting churches from allowing their attendees from carrying weapons of self-defense, then that government has demonstrated itself to be a tyrant.

The current prohibition in state law against carrying firearms for self-defense in places of worship needs to be repealed. Churches and private property owners need to have the freedom to make decisions regarding security in their facilities. The government should not be attempting to mandate a one-size-fits-all kind of solution.

Over the last decade, we have witnessed several events where churches, temples or synagogues have been targeted by fringe elements of society. It is just as important that the citizens be able to protect themselves regardless of the venue they may find themselves in, just as they can in the privacy of their homes.

I am a female who carries concealed in all places that my permit allows. I am well-trained in the safe use of firearms, and for a number of years, I have also been a firearms instructor. My instruction includes the technical aspects of firearms, as well as the mental and legal aspects of their use. As I take responsibility for my own safety, I firmly believe that an organization (such as a church) should also be able to determine how it can best can assure the personal safety of its members. No person who intends to do harm in a church or any other "gun-free zone" will invest the time and money to get a permit to carry concealed. No government, no law enforcement agency, and no other entity can guarantee my safety when I am no longer armed. Therefore I support any actions that will enable law-abiding citizens to carry concealed in churches. Dee Ann DuCote, Missouri State Delegate, DC Project-Women for Gun Rights

The right to bear arms "shall not be infringed" period! The vast majority of firearms owners have firearms for personal protection, sport, recreation, etc. They are frequently trained in safety and handle firearms with extreme caution. Those that obtain firearms illegally through theft, fraud or other illicit means or are mentally ill are the problem. That contingent of the population is quite small. Their issues should be addressed systemically and aggressively, period.

We support the right to carry concealed firearms in churches or other houses of worship. As we gather with our families and friends, we meet to call on the mercy of God in worship and do not meet to make ourselves a vulnerable flock of sheep exposed to wicked men that seek to prey upon us as wolves; as evidenced in the US by increasing attacks on houses of worship in recent years.

I am writing in support of HB 1698. I am a registered MO voter and supporter of the second amendment of our constitution. I am also a person of faith and I attend church regularly. In this time of increased crime and attacks on people of faith of all types, it is critical to have laws protecting those who care to protect their places of worship. Please pass this important piece of legislation. Dr. Mark Howell

Please vote for HB1698 to repeal the prohibition in state law against carrying firearms for self-defense in places of worship. This would allow churches to decide for themselves whether their people are to be allowed to carry a firearm on premises or not. Thank you.

These restrictions "anywhere" are ridiculous. I says a CCW holder is safe and responsible "in general", walking the streets and going into various businesses etc, but as soon as he goes into a church or other "restricted" area he's a dangerous person and can't be trusted. Ridiculous!

We need to make sure that " We the people " do not have our rights stripped by individuals who do not have our best interest in mind, but the interest of those who wish to weaken good people's ability to defend themselves against the wicked who wish harm, and prey upon citizens put in vulnerable situations not by their choice, but by the choice of those in ivory towers.Sincerely,Grant H. Henderson

Church attendees appear to me, from my lifelong experiences, to be a bastion of those seeking help and those willing to assist in those needs. To render them helpless in such a dire situation with less, if any, effective defense simply increases the likelihood of a horrific event.

Injury and death due to violence inside a house of God is particularly disturbing. Forbidding firearms in churches only serves to take away any chance for law abiding citizens to protect themselves, their families, and their church members from anyone who ignores the law and is intent on causing destruction. It is imperative that Missouri citizens are permitted to protect themselves in churches. Thank you.

Unfortunately there have too many instances where someone comes into a church with the intention of killing those in attendance, and if said people knew that there is a good possibility that someone in the congregation is carrying a concealed weapon then hopefully they will think twice.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

The Second Amendment enshrines a pre-existing right to keep and bear arms in defense of Life, Liberty, and the pursuit of Happiness. It ends with admonishment to government that that right "...shall not be infringed." There is no carve-out contained therein restricting that right while attending the House of Our Lord in worship. We have seen repeatedly where worshipers are attacked by Evil, Violence, and Mayhem even in the houses of worship. Where gun free zones exist, they are only gun free for the good law abiding citizens....not the those with evil intent. Where gun free zones exist, they become killing zones rendering good people easy prey as "fishes in a barrel." Evil, Violence, and Mayhem have repeatedly and consistently been stopped by good people with the means to defend themselves and their loved ones. When seconds are critical to life, the police are always minutes away. Please vote in support of this legislation to not prohibit good citizens the inalienable right to keep and bears arms everywhere, even in the House of Our Lord.

Gun free zones are actually target rich zones with reduced risk of resistance to the criminal, and they should be eliminated everywhere. This bill is one more step in the right direction of not requiring us to leave our rights to self defense on the sidewalk when we go into a building.

I have a right to protect myself and family at any function, including Churches. Law enforcement will never arrive in time to deter an assailant. I shouldn't have to justify the weapon when the assailant has no requirement to do so. Churches and areas described as "gun free zones" are a magnet for the bad guys. You know it and so do I.

I support HB 1698 to allow firearms to be carried in places of worship. The world has become unpredictable and places of worship have been attacked by news reports in recent years past. Places of worship are especially vulnerable to attack due to a large number of people confined in a small, open space. Law enforcement will not be able to respond in a timely manner. A carried firearm in the hands of a trained individual(s) may be the only necessary means to stop or reduce the carnage.

I am a church-going man who carries a concealed firearm. It is my fervent hope that I never have to fire a firearm at a human being. The statistics tell me that the presence of a firearm can prevent violent crime without being fired something like 85% of the time. So, it certainly seems like the odds are in my favor. We hear of the pastor who was nearly decapitated in France, during a service, in the presence of the congregation. If this were to happen in Missouri, I respectfully request that the State of Missouri not disarm me at church. Why should a church be any different than any other private property? If I am traveling in the state, and have not had the opportunity to speak to the pastor of a church, I may not have had the opportunity to discuss my desire to carry in church with the pastor of a church. However, the owner of the church has the same opportunity to display signs about the right to carry concealed firearms. So, Missouri State Law should handle the concealed carry of firearms at churches the same as any other private property. If I see these signs, I will abide by them in accordance with the law. I will also use my firearm to protect life. If a violent person can be dissuaded by the threat of force, I will dissuade them. If I have to, I will fire my firearm to protect the lives of the innocent. If I can stop an attack without taking someones life, when persuasion has failed, I will. Aren't I the kind of person you want promoting peace, if possible, and using force, if given no other alternative? If so, please do not restrict my concealed carry permit in church. There are existing methods for property owners to restrict the carry of firearms on their property. Churches should use these methods just like anyone else.

In our country, we have seen an increased rate of violence that is directed to our places of worship (churches, temples, synagogues and mosques) and it is only the security teams organized in these places of worship that will be able to protect the facility and the practitioners within the worship centers. I agree, that before an individual should carry a concealed firearm on the premises, that the Senior Pastor should give his approval and blessing. People have a right to worship without fear of attack, and a secure facility reduces that fear.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I support HB 1698. Private property owners have the right to make such decisions regarding security on their own, rather than the government mandating a one-size-fits-all solution. So-called "gun-free zones" only disarm law-abiding citizens, while criminals ignore such arbitrary boundaries and continue to commit crimes. Currently a person would have to disarm themselves at their vehicle, leaving themselves and their family vulnerable from that point until they arrive back at their vehicle, as well as leaving the firearm susceptible to theft.

I support changing the law to allow carrying concealed weapons in places of worship where the person has a concealed carry permit. The present law makes those of us that attend worship services sitting ducks with almost no ability to protect ourselves or family members while attending worship service.

I beleve that its is essential that one has the legal right to protect ones self against criminal activity where ever it may happen and in particular church. Its well known that the alleged "gn free zone" is basically a call for criminal attach as the criminal knows that there will be no push back in those areas where the second ammendment is not allowed to be practiced. It is a constitutional right that shall not be infringed. Please support this bill

Having no gun zones allows criminals to plan their bad deeds knowing there will be no resistance. Church members of the congregation should be making there own decisions. Furthermore, there is a separation between church from state according to the Jefferson papers. So I personally don't believe the state has the right to make decisions for a place of worship.

House Bill 1698 I support the repeal of the prohibition in state law against carrying firearms for self-defense in places of worship. This empowers private property owners to make such decisions regarding security on their own, rather than the government mandating a one-size-fits-all solution.

Repeal the prohibition in state law against carrying firearms for self-defense in places of worship. This empowers private property owners to make such decisions regarding security on their own, rather than the government mandating a one-size-fits-all solution. So-called "gun-free zones" only disarm law-abiding citizens, while criminals ignore such arbitrary boundaries.

I fully support any bill that will allow me and any other law-abiding individual to carry concealed in a gathering for religious purpose. While I can understand not being allowed to carry into sports games or political places because of the differences of opinions and emotions running high on both sides as well as drinking can leads to stupidity and actions that can be violent at times, there has been times when church services have been disrupted by violence. But this, to my knowledge, has come from outside sources and not from the parishioners on the inside. As a matter of fact, if I'm not mistaken, it was a parishioner on the inside who ended the threat because he was lawfully carrying concealed. I strongly urge all elected representatives to vote for this bill because the Church is somewhere above all else where we should feel safe in our surroundings to worship in peace.

As shown on 5 November 2017 in Sutherland Springs even a house of worship is not safe from threat of firearms, even with an excellent response I have to wonder just how many more innocents would have been injured, maimed and or killed that day if there had not an armed, law abiding citizen there that day.

As a retired federal law enforcement officer, I am in full support of our state protecting the rights of Missouri citizens, eligible to carry firearms, to carry weapons in all areas of Missouri. The only people that are helped are criminals when we restrict the lawful carry of firearms by citizens capable of lawful carry. Only law abiding citizens care about such regulations; criminals do not heed them. We clearly see the benefit of law abiding citizens carrying concealed firearms in the shooting event in the Texas church not too long ago. But for that quick thinking citizen, more lives would have been lost to the bad behavior of a criminal. Please support our citizens' rights to carry concealed firearms in churches. Thank you.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

On behalf of the tens of thousands of NRA Members in Missouri, I am submitting testimony in strong support of House Bill 1698 which would protect law-abiding citizens right to self-defense while attending church or other place of religious worship. At present, Missouri law prohibits an individual from carrying a concealed firearm into "any church or other place of religious worship without the consent of the minister or person or persons representing the religious organization..." This equates to a blanket ban on the lawful carrying of a firearm for self-defense by a law abiding citizen who has obtained a Missouri CCW Permit. The proposal before you would ensure that law abiding citizens who have a CCW have the right to defend themselves and their families in the event of an attack, while maintaining the private property rights of places of worship. Churches and other places of religious worship will still have the right to prohibit the carrying of firearms if they choose to establish such a policy. There is no evidence that so-called "gun free zones" save lives. Criminals have no regard for the law and studies have shown that these zones are not going to stop them from breaking the law. We do know that right-to-carry in places of worship can save lives. On December 29, 2019, a deranged gunman opened fire at West Freeway Church of Christ near Fort Worth, Texas, killing two members of the congregation. Further bloodshed was prevented that day when concealed carrier Jack Wilson drew his firearm and killed the gunman. Video of the horrifying event revealed that several other members of the congregation were carrying that day and were prepared to defend themselves if Wilson had not been there to halt the attack. For his heroic actions Wilson was presented the Governor's Medal of Courage, Texas's highest civilian honor. Thank you, Chairman Trent and members of the committee for your consideration and support of House Bill 1698.

By creating so called 'gun free zones' the government restricts the ability of their citizens to defend themselves. It is one 'job' of government to protect and ensure the safety of its citizens, not restrict them.

As a woman who carries concealed for not only my own protection, but also that of my church family as part of our safety team, I am in wholehearted support of HB 1698 & HB 1912 and thank the sponsors for continuing to shepherd this legislative change session after session. Debate on this topic seems to often focus on 'more guns' not being the answer to curbing the violence we see in this world. I do not concur with this assessment, as even the low estimates out there to be found on use of firearms to prevent violence (including just being able to show you have it if needed), far exceed the numbers for firearms used to commit violent acts. Guns save lives. I have no qualms with having my pistol on me along with less lethal means as I keep an eye out each Sunday. We are each precious in His sight and therefore worth defending if endangered. My in-person testimony on this last year included the following: An FBI study shows that between 2000-2017, of the 33 'Active Shooter' incidents where an armed citizen was present; they were able to stop the incident from continuing 75.8%(25) of the time. And additionally successful in reducing the number of lives lost 18.2%(6) of the time. In only 2 incidents (6.1%) was the armed citizen not helpful in any way. And especially to be noted.. There was ZERO times when an armed citizen injured or killed an innocent person. All told, this means the armed citizens were successful 94% of the time. That should dispel the myth that only law enforcement is capable of responding to threats. Many opposed to HB1698 & HB1912 argue that the state should not enact regulations interfering with church control or separation of church and state. But what they are missing (whether intentionally or not) is that the bills indeed do just exactly what they proclaim to wish for. The mention of churches and other places of worship are to be removed from current legislation. Thus, leaving it up to each church to act as any and every other private property has the right to do - decide for themselves whether or not to allow concealed firearms in their place of worship. The other argument comes down to the fact that some churches do not like the idea of having to post signage signaling their 'gun-free' policy. Therefore, they prefer the law stay as it is. Could this mean they are in favor of state edicts placed on your houses of worship in some cases then? Would love for someone to ask them that question. A representative on the committee when this bill was heard last year even stated that churches had reached out to her, stating that they didn't want to become like 'sitting ducks' if they were to post the sign. Well, thanks for shining the light on just how pointless and unsafe gun-free zones truly are. Susan Myers, Missouri State Director, DC Project - Women for Gun Rights

I feel this is important and sorely needed legislation. I have a Missouri Concealed Carry permit, but I am currently denied my right to self-protection as soon as I enter my church. I have never needed to use a firearm to protect myself and pray that I never will, but churches are no longer safe havens from violence. It makes me uncomfortable to know how easily a violent person, whether unbalanced or just evil, could walk in and attack my family or friends, and I would be helpless to prevent it.

Please vote to support these bills as they will give law abiding citizens the ability to protect themselves and others when their lives are threatened by criminals rather than being sitting ducks while waiting for a delayed and extended response from law enforcement due to inherent and unpredictable response times. The first seconds and minutes of resistance to a criminal act will determine whether or not many law abiding victims are killed or seriously injured.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

The Jewish Community Relations Council (JCRC), guided by Jewish values, advocates, educates, collaborates, and mobilizes action on issues important to the Jewish community, 60,000 strong in St. Louis. We are committed to pursuing religious tolerance, civic discourse and social justice in St. Louis and beyond. Our Jewish Community firmly defends the Establishment Clause of the Constitution which protects citizens' right to practice their religion as they please, so long as the practice does not run afoul of a "public morals" or a "compelling" governmental interest. This is also commonly referred to as the Separation of Church and State. HB 1698 and 1912 clearly cross the line of this sacred separation. These bills take away the rights of clergy and religious community to determine what is and is not allowed in their private spaces. Missouri law currently automatically bans concealed weapons from houses of worship unless an individual receives "the consent of the minister or person or persons representing the religious organization that exercises control over the place of religious worship." This makes sense. A religious community should be able to define for itself if they desire for individuals to bring guns into their holy place. But these bills would switch the default position so that individuals with a concealed carry endorsement or permit could automatically bring a firearm into a house of worship unless that religious group posted significant signs at every entry. A church, synagogue, mosque, or other house of worship would not be able to determine its own policy regarding concealed guns without either accepting weapons or posting government-mandated signs on their sacred space. Do not take away the power of our community institutions to decide how to create a safe and welcoming environment for our members and guests. Government control has no place in our houses of worship. Please oppose HB 1698 & HB 1912.

I am a Missouri citizen and I strongly oppose both of these bills. Clergy in each particular house of worship are the ones who should be making the decision about whether or not to allow firearms. To force clergy to allow guns in sensitive places such as sanctuaries where people are praying would violate separation of church and state. History and the facts show that allowing more guns in houses of worship leads to more bloodshed, not less. Do not force clergy to be put in a position of allowing more lethal weapons in their sacred spaces. This is the wrong thing to do and will make us less safe.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

The Missouri Catholic Conference (MCC) respectfully opposes HB 1698. Under current Missouri law, gun owners are prohibited from carrying a weapon into a church. Missouri properly recognizes that churches are spaces in which guns have no place as a matter of public policy. They are appropriately considered gun-free zones, because they are spaces in which we meet for worship. HB 1698 changes this paradigm. It makes churches places gun owners can lawfully carry, rather than recognizing them in law as gun-free spaces. Churches wishing to remain gun-free would be required to post signage in a conspicuous place. This signage would likely have to be posted near the sacred space of worship. The MCC views this as an inappropriate and unnecessary intrusion upon religious freedom, which is guaranteed under the First Amendment of the U.S. Constitution. The MCC recognizes that we now live in a society where legally recognized gun-free zones will not always protect innocent people from gun violence. Churches are free under current law, however, to address these situations by establishing security protocols tailored to meet their situation. The MCC believes this is a more appropriate way to address the current proliferation of gun violence than removing churches from the list of places guns are not permitted.

**Synagogues, mosques and churches are already under threat to the safety of their congregants and buildings. The idea if allowing guns to be brought in by anyone is abhorrent.**

**This bill robs churches of local control. I doubt they appreciate that.**

Please **OPPOSE** the passage of HB 1698 from the House General Laws Committee and by the Missouri House. I **OPPOSE** forcing churches to accept the concealed carry of weapons without permission of the pastor or church leadership. I don't think it is infringing on mine or anyone else's 2nd Amendment rights to allow for churches to prohibit or limit guns by the pastor or church leadership. In my opinion, guns in churches doesn't equal safer churches. Even Police have a difficult time determining who is a 'good guy' with a gun and who is a 'bad guy' with a gun, in some situations. The courtesy to know who is carrying a concealed weapon and therefore the ability to vet that person and extend permission, should remain with the pastor or church leadership. Please vote to **OPPOSE** HB 1698.
