

# JOURNAL OF THE HOUSE

Second Regular Session, 93rd GENERAL ASSEMBLY

FIFTY-THIRD DAY, MONDAY, APRIL 10, 2006

The House met pursuant to adjournment.

Speaker Jetton in the Chair.

Prayer by Reverend James Earl Jackson.

Unto You, O God, we lift up our eyes, unto You Who rules from on high. Have mercy on us, O Lord, have mercy on us, for we are sometimes overwhelmed by the weariness of our schedules, travels, meetings, decisions and the like.

As we begin this week's work, help us to guard our words. May our words and our thoughts be pleasing to You, Lord, because You are our mighty Rock and our Protector.

Grant us calm in the face of confusion, peace in the heat of debates, and consolation after the day's final gavel.

Thank You Lord for protecting us from all danger; for keeping us safe. May You continually keep watch over us as we come and go, both now and throughout the remainder of this session.

For it's in the name of Your Son we pray. Amen.

The Pledge of Allegiance to the flag was recited.

The Journal of the fifty-second day was approved as printed.

**HCS HB 1305, as amended**, relating to public employee retirement systems, was taken up by Representative Smith (118).

Representative Schlottach offered **House Amendment No. 2.**

*House Amendment No. 2*

AMEND House Committee Substitute for House Bill No. 1305, Page 2, Section 70.615, by inserting after all of said section the following:

“104.040. 1. Any member shall be entitled to creditable prior service within the meaning of sections 104.010 to 104.270 for all service in the United States Army, Navy, or other armed services of the United States, or any women's auxiliary thereof in time of active armed warfare, if such member was a state employee immediately prior to his or her entry into the armed services and became an employee of the state within ninety days after termination of such service by an honorable discharge or release to inactive status; the requirement of section 104.010 of duties during not less than one thousand hours for status as an "employee" shall not apply to persons who apply for creditable prior service pursuant to the provisions of this section.

2. Any member of the system who served as an employee prior to the original effective date of sections 104.010 to 104.270, but was not an employee on that date, shall be entitled to creditable prior service that such member would have been entitled to had such member become a member of the retirement system on the date of its inception if such member has, or hereafter attains, one year of continuous membership service.

3. Any employee who completes one continuous year of creditable service in the system shall receive credit for service with a state department, if such service has not otherwise been credited.

4. Any member who had served in the armed forces of the United States prior to becoming a member, or who is otherwise ineligible pursuant to subsection 1 of this section or other provisions of this chapter, and who became a member after his or her discharge under honorable conditions may elect, prior to retirement, to purchase all of his or her creditable prior service equivalent to such service in the armed forces, but not to exceed four years, if the member is not receiving and is not eligible to receive retirement credits or benefits from any other public or private retirement plan for the service to be purchased, and an affidavit so stating shall be filed by the member with the retirement system. However, if the member is eligible to receive retirement credits in a United States military service retirement system, the member shall be permitted to purchase creditable prior service equivalent to his or her service in the armed services, but not to exceed four years, any other provision of law to the contrary notwithstanding. The purchase shall be effected by the member's paying to the retirement system an amount equal to what would have been contributed by the state in his or her behalf had the member been a member for the period for which the member is electing to purchase credit and had his or her compensation during such period of membership been the same as the annual salary rate at which the member was initially employed as a member, with the calculations based on the contribution rate in effect on the date of his or her employment with simple interest calculated from date of employment from which the member could first receive creditable service to the date of election pursuant to this subsection. The payment shall be made over a period of not longer than two years, measured from the date of election, and with simple interest on the unpaid balance. Payments made for such creditable prior service pursuant to this subsection shall be treated by the retirement system as would contributions made by the state and shall not be subject to any prohibition on member contributions or refund provisions in effect at the time of enactment of this subsection.

5. Any uniformed member of the highway patrol who served as a certified police officer prior to becoming a member may elect, prior to retirement, to purchase all of his or her creditable prior service equivalent to such service in the police force, but not to exceed four years, if he or she is not receiving and is not eligible to receive credits or benefits from any other public or private retirement plan for the service to be purchased, and an affidavit so stating shall be filed by the member with the retirement system. The purchase shall be effected by the member's paying to the retirement system an amount equal to what would have been contributed by the state in his or her behalf had he or she been a member of the system for the period for which the member is electing to purchase credit and had his compensation during such period been the same as the annual salary rate at which the member was initially employed as a member, with the calculations based on the contribution rate in effect on the date of his or her employment with simple interest calculated from the date of employment from which the member could first receive creditable service to the date of election pursuant to the provisions of this section. The payment shall be made over a period of not longer than two years, measured from the date of election, and with simple interest on the unpaid balance. Payments made for such creditable prior service pursuant to the provisions of this section shall be treated by the retirement system as would contributions made by the state and shall not be subject to any prohibition on member contributions or refund provisions in effect at the time of enactment of this section.

6. Any [uniformed] member of the [highway patrol] **system under section 104.030 or section 104.170 who is an active employee and** who served as a nonfederal full-time public employee in this state prior to becoming a

member may elect, prior to retirement, to purchase all of his or her creditable prior service equivalent to such service, but not to exceed four years, if he or she is not receiving and is not eligible to receive credits or benefits from any other public plan for the service to be purchased[, and an affidavit so stating shall be filed by the member with the retirement system]. The purchase shall be effected by the member's paying to the retirement system an amount equal to what would have been contributed by the state in his or her behalf had he or she been a member of the system for the period for which the member is electing to purchase credit and had his compensation during such period been the same as the annual salary rate at which the member was initially employed as a member, with the calculations based on the contribution rate in effect on the date of his or her employment with simple interest calculated from the date of employment from which the member could first receive creditable service to the date of election pursuant to the provisions of this section. The payment shall be made over a period of not longer than two years, measured from the date of election, and with simple interest on the unpaid balance. Payments made for such creditable prior service pursuant to the provisions of this section shall be treated by the retirement system as would contributions made by the state and shall not be subject to any prohibition on member contributions or refund provisions in effect at the time of enactment of this section. **All purchase payments under this subsection shall be completed prior to retirement or prior to termination of employment. If a member who purchased creditable service under this subsection dies prior to retirement, the surviving spouse may, upon written request, receive a refund of the amount contributed for such purchase of such creditable service, provided the surviving spouse is not entitled to survivorship benefits payable under section 104.110 or who are entitled to a deferred annuity under section 104.035 are not eligible to purchase service under this subsection.**"; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

On motion of Representative Schlottach, **House Amendment No. 2** was adopted.

Representative Lembke offered **House Amendment No. 3**.

"32.040. The board of public buildings shall provide the director of revenue and the department of revenue with suitable quarters in the City of Jefferson. The director of revenue shall establish and maintain permanent branch offices in the [cities of St. Louis and] **city of Kansas City**, and may select additional places in the state for special full-time or temporary offices."; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

On motion of Representative Lembke, **House Amendment No. 3** was adopted.

Representative Lampe offered **House Amendment No. 4**.

*House Amendment No. 4*

AMEND House Committee Substitute for House Bill No. 1305, Page 5, Section 105.684, Line 30, by inserting after all of said line the following:

"169.030. 1. The funds required for the operation of the retirement system created by sections 169.010 to 169.141 shall come from contributions made in equal amounts by members of the system and their employers, except as provided for certain members and employers by section 104.342, RSMo, and from such interest as may be derived from the investment of any part of such contributions. All contributions shall be transmitted to the board of trustees by employers in such manner and at such time as the board by rule shall require.

2. For each school year following the date on which the system becomes operative, each and every employer of one or more persons who are members of the system shall transmit to the board of trustees, in the manner and

accompanied by such supporting data as the board shall prescribe, twice the amount that is deductible from the pay of such employee or employees during the school year. Failure or refusal to transmit such amount as required shall render the person or persons responsible therefor individually liable for twice the amount so withheld. Suits for the recovery of amounts for which individuals are thus rendered liable shall be instituted and prosecuted by the board of trustees in the name of the retirement system. In addition to such civil penalty, and not in lieu thereof, any person or persons made responsible for the payment of contributions who shall willfully and knowingly fail or refuse to transmit such contributions or any part thereof to the board of trustees shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than twenty-five dollars and not more than two hundred dollars, and each day such person or persons shall so fail or refuse to transmit such contributions shall be deemed a separate offense.

3. The contributions of members of the retirement system shall be collected by their employers through appropriate deductions from paychecks, except as provided for certain members and employers by section 104.342, RSMo. The total amount deducted from the paychecks of members during any school year shall equal such a percent of their salary rates as may be required by the contribution rate then in effect. Contributions transmitted to the retirement system before February 20, 1996, based on salary rates which either included or excluded employer-paid medical benefits for members, shall be deemed to have been in compliance with this section. The retirement system shall not refund or adjust contributions or adjust benefit determinations with respect to any period before February 20, 1996, solely because of the treatment of employer-paid medical benefits for members. Effective December 31, 1995, compensation in excess of the limitations set forth in Section 401(a)(17) of Title 26 of the United States Code shall be disregarded for purposes of determining contributions under this section and calculating benefits paid by the public school retirement system of Missouri. The limitation on compensation for eligible employees shall not be less than the amount which was allowed to be taken into account under the system as in effect on July 1, 1993. For this purpose, an "eligible employee" is an individual who was a member of the system before July 1, 1996.

4. The board of trustees shall fix and certify to the employers the level rate of contribution subject to the following:

(1) The level rate of contribution for a fiscal year shall not exceed the level rate of contribution for the prior fiscal year by more than one-half percent;

(2) The board shall fix and certify to the employers the rate of contribution for a fiscal year no later than six months prior to the date such rate is to be effective;

(3) The board shall fix and certify to the employers the rate of contribution for a fiscal year based on an actuarial valuation of the system as of a date not earlier than the last day of the second prior fiscal year. Such actuarial valuation of the system shall be performed using processes and actuarial assumptions that are in accordance with actuarial standards of practice in effect at the time the valuation is performed, as promulgated by the actuarial standards board or its successor; provided that such actuarial valuation shall be based on the entry age normal actuarial cost method and an asset valuation method based on the market value of system assets that may provide for smoothing of investment gains and losses, and, further, that the level rate of contribution shall be the total of the normal cost rate and a rate which shall amortize the unfunded actuarial accrued liability over a period that shall not exceed thirty years from the date of the valuation, subject to the limitations of this subsection; and

(4) Not less than once every ten years the board shall have an actuary, other than the actuary performing the actuarial valuation pursuant to this section, review such actuarial valuation and perform an additional valuation of the system.

5. Regardless of the provisions of any law governing compensation and contracts, every teacher or employee shall be deemed to consent and agree to the deductions provided herein. Payment of salary or compensation less such deduction shall be a full and complete discharge of all salary or compensation claims and demands during the period covered by such payment, except as to the benefits provided under sections 169.010 to 169.141.

[6. Notwithstanding any other provision of sections 169.010 to 169.141 to the contrary, no legislation shall be enacted after July 1, 2003, that increases benefits provided to members or retirees of the public school retirement system of Missouri above that which may be funded using a rate of contribution of ten and one-half percent as determined using an actuarial valuation as provided in subsection 4 of this section; provided that, notwithstanding the provision of this subsection, legislation may be enacted after July 1, 2003, that provides for an extension of time within which a member may make an election pursuant to subdivisions (3) to (8) of subsection 1 of section 169.070.]

169.070. 1. The retirement allowance of a member whose age at retirement is sixty years or more and whose creditable service is five years or more, or whose sum of age and creditable service equals eighty years or more, or who has attained age fifty-five and whose creditable service is twenty-five years or more or whose creditable service is thirty years or more regardless of age, may be the sum of the following items, not to exceed one hundred percent of the member's final average salary:

- (1) Two and five-tenths percent of the member's final average salary for each year of membership service;
- (2) Six-tenths of the amount payable for a year of membership service for each year of prior service not exceeding thirty years.

In lieu of the retirement allowance otherwise provided in subdivisions (1) and (2) of this subsection, a member may elect to receive a retirement allowance of:

- (3) Between July 1, 1998, and July 1, 2008, two and four-tenths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-nine years or more but less than thirty years, and the member has not attained age fifty-five;
- (4) Between July 1, 1998, and July 1, 2008, two and thirty-five-hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-eight years or more but less than twenty-nine years, and the member has not attained age fifty-five;
- (5) Between July 1, 1998, and July 1, 2008, two and three-tenths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-seven years or more but less than twenty-eight years, and the member has not attained age fifty-five;
- (6) Between July 1, 1998, and July 1, 2008, two and twenty-five-hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-six years or more but less than twenty-seven years, and the member has not attained age fifty-five;
- (7) Between July 1, 1998, and July 1, 2008, two and two-tenths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-five years or more but less than twenty-six years, and the member has not attained age fifty-five;
- (8) Between July 1, 2001, and July 1, 2008, two and fifty-five hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is thirty-one years or more regardless of age.

2. In lieu of the retirement allowance provided in subsection 1 of this section, a member whose age is sixty years or more on September 28, 1975, may elect to have the member's retirement allowance calculated as a sum of the following items:

- (1) Sixty cents plus one and five-tenths percent of the member's final average salary for each year of membership service;
- (2) Six-tenths of the amount payable for a year of membership service for each year of prior service not exceeding thirty years;
- (3) Three-fourths of one percent of the sum of subdivisions (1) and (2) of this subsection for each month of attained age in excess of sixty years but not in excess of age sixty-five.

3. (1) In lieu of the retirement allowance provided either in subsection 1 or 2 of this section, collectively called "option 1", a member whose creditable service is twenty-five years or more or who has attained the age of fifty-five with five or more years of creditable service may elect in the member's application for retirement to receive the actuarial equivalent of the member's retirement allowance in reduced monthly payments for life during retirement with the provision that:

Option 2. Upon the member's death the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member as the member shall have nominated in the member's election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the retired member elected option 1;

OR

Option 3. Upon the death of the member three-fourths of the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 4. Upon the death of the member one-half of the reduced retirement allowance shall be continued throughout the life of, and paid to, such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance shall be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 5. Upon the death of the member prior to the member having received one hundred twenty monthly payments of the member's reduced allowance, the remainder of the one hundred twenty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the one hundred twenty monthly payments, the total of the remainder of such one hundred twenty monthly payments shall be paid to the estate of the last person to receive a monthly allowance. If the total of the one hundred twenty payments paid to the retired individual and the beneficiary of the retired individual is less than the total of the member's accumulated contributions, the difference shall be paid to the beneficiary in a lump sum;

OR

Option 6. Upon the death of the member prior to the member having received sixty monthly payments of the member's reduced allowance, the remainder of the sixty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the sixty monthly payments, the total of the remainder of such sixty monthly payments shall be paid to the estate of the last person to receive a monthly allowance. If the total of the sixty payments paid to the retired individual and the beneficiary of the retired individual is less than the total of the member's accumulated contributions, the difference shall be paid to the beneficiary in a lump sum.

(2) The election of an option may be made only in the application for retirement and such application must be filed prior to the date on which the retirement of the member is to be effective. If either the member or the person nominated to receive the survivorship payments dies before the effective date of retirement, the option shall not be effective, provided that:

(a) If the member or a person retired on disability retirement dies after acquiring twenty-five or more years of creditable service or after attaining the age of fifty-five years and acquiring five or more years of creditable service and before retirement, except retirement with disability benefits, and the person named by the member as the member's beneficiary has an insurable interest in the life of the deceased member, the designated beneficiary may elect to receive either survivorship benefits under option 2 or a payment of the accumulated contributions of the member. If survivorship benefits under option 2 are elected and the member at the time of death would have been eligible to receive an actuarial equivalent of the member's retirement allowance, the designated beneficiary may further elect to defer the option 2 payments until the date the member would have been eligible to receive the retirement allowance provided in subsection 1 or 2 of this section;

(b) If the member or a person retired on disability retirement dies before attaining age fifty-five but after acquiring five but fewer than twenty-five years of creditable service, and the person named as the member's beneficiary has an insurable interest in the life of the deceased member, the designated beneficiary may elect to receive either a payment of the member's accumulated contributions, or survivorship benefits under option 2 to begin on the date the member would first have been eligible to receive an actuarial equivalent of the member's retirement allowance, or to begin on the date the member would first have been eligible to receive the retirement allowance provided in subsection 1 or 2 of this section.

4. If the total of the retirement or disability allowance paid to an individual before the death of the individual is less than the accumulated contributions at the time of retirement, the difference shall be paid to the beneficiary of the individual, or to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) estate of the individual in that order of precedence. If an optional benefit as provided in option 2, 3 or 4 in subsection 3 of this section had been elected, and the beneficiary dies after receiving the optional benefit, and if the total retirement allowance paid to the retired individual and the beneficiary of the retired individual is less than the total of the contributions, the difference shall be paid to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) estate of the beneficiary, in that order of precedence, unless the retired individual designates a different recipient with the board at or after retirement.

5. If a member dies before receiving a retirement allowance, the member's accumulated contributions at the time of the death of the member shall be paid to the beneficiary of the member or, if there is no beneficiary, to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) to the estate of the member in that order of precedence; except that, no such payment shall be made if the beneficiary elects option 2 in subsection 3 of this section, unless the beneficiary dies before having received benefits pursuant to that subsection equal to the accumulated contributions of the member, in which case the amount of accumulated contributions in excess of the total benefits paid pursuant to that subsection shall be paid to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) estate of the beneficiary, in that order of precedence.

6. If a member ceases to be a public school employee as herein defined and certifies to the board of trustees that such cessation is permanent, or if the membership of the person is otherwise terminated, the member shall be paid the member's accumulated contributions with interest.

7. Notwithstanding any provisions of sections 169.010 to 169.141 to the contrary, if a member ceases to be a public school employee after acquiring five or more years of membership service in Missouri, the member may at the option of the member leave the member's contributions with the retirement system and claim a retirement allowance any time after reaching the minimum age for voluntary retirement. When the member's claim is presented to the board, the member shall be granted an allowance as provided in sections 169.010 to 169.141 on the basis of the member's age, years of service, and the provisions of the law in effect at the time the member requests the member's retirement to become effective.

8. The retirement allowance of a member retired because of disability shall be nine-tenths of the allowance to which the member's creditable service would entitle the member if the member's age were sixty, or fifty percent of one-twelfth of the annual salary rate used in determining the member's contributions during the last school year for which the member received a year of creditable service immediately prior to the member's disability, whichever is greater, except that no such allowance shall exceed the retirement allowance to which the member would have been entitled upon retirement at age sixty if the member had continued to teach from the date of disability until age sixty at the same salary rate.

9. Notwithstanding any provisions of sections 169.010 to 169.141 to the contrary, from October 13, 1961, the contribution rate pursuant to sections 169.010 to 169.141 shall be multiplied by the factor of two-thirds for any member of the system for whom federal Old Age and Survivors Insurance tax is paid from state or local tax funds on account of the member's employment entitling the person to membership in the system. The monetary benefits for a member who elected not to exercise an option to pay into the system a retroactive contribution of four percent on that part of the member's annual salary rate which was in excess of four thousand eight hundred dollars but not in excess of eight thousand four hundred dollars for each year of employment in a position covered by this system between July 1, 1957, and July 1, 1961, as provided in subsection 10 of this section as it appears in RSMo, 1969, shall be the sum of:

(1) For years of service prior to July 1, 1946, six-tenths of the full amount payable for years of membership service;

(2) For years of membership service after July 1, 1946, in which the full contribution rate was paid, full benefits under the formula in effect at the time of the member's retirement;

(3) For years of membership service after July 1, 1957, and prior to July 1, 1961, the benefits provided in this section as it appears in RSMo, 1959; except that if the member has at least thirty years of creditable service at retirement the member shall receive the benefit payable pursuant to that section as though the member's age were sixty-five at retirement;

(4) For years of membership service after July 1, 1961, in which the two-thirds contribution rate was paid, two-thirds of the benefits under the formula in effect at the time of the member's retirement.

10. The monetary benefits for each other member for whom federal Old Age and Survivors Insurance tax is or was paid at any time from state or local funds on account of the member's employment entitling the member to membership in the system shall be the sum of:

(1) For years of service prior to July 1, 1946, six-tenths of the full amount payable for years of membership service;

(2) For years of membership service after July 1, 1946, in which the full contribution rate was paid, full benefits under the formula in effect at the time of the member's retirement;

(3) For years of membership service after July 1, 1957, in which the two-thirds contribution rate was paid, two-thirds of the benefits under the formula in effect at the time of the member's retirement.

11. Any retired member of the system who was retired prior to September 1, 1972, or beneficiary receiving payments under option 1 or option 2 of subsection 3 of this section, as such option existed prior to September 1, 1972, will be eligible to receive an increase in the retirement allowance of the member of two percent for each year, or major fraction of more than one-half of a year, which the retired member has been retired prior to July 1, 1975. This increased amount shall be payable commencing with January, 1976, and shall thereafter be referred to as the member's retirement allowance. The increase provided for in this subsection shall not affect the retired member's eligibility for compensation provided for in section 169.580 or 169.585, nor shall the amount being paid pursuant to these sections be reduced because of any increases provided for in this section.

12. If the board of trustees determines that the cost of living, as measured by generally accepted standards, increases two percent or more in the preceding fiscal year, the board shall increase the retirement allowances which the retired members or beneficiaries are receiving by two percent of the amount being received by the retired member or the beneficiary at the time the annual increase is granted by the board with the provision that the increases provided for

in this subsection shall not become effective until the fourth January first following the member's retirement or January 1, 1977, whichever later occurs, or in the case of any member retiring on or after July 1, 2000, the increase provided for in this subsection shall not become effective until the third January first following the member's retirement, or in the case of any member retiring on or after July 1, 2001, the increase provided for in this subsection shall not become effective until the second January first following the member's retirement. Commencing with January 1, 1992, if the board of trustees determines that the cost of living has increased five percent or more in the preceding fiscal year, the board shall increase the retirement allowances by five percent. The total of the increases granted to a retired member or the beneficiary after December 31, 1976, may not exceed [eighty] **ninety** percent of the retirement allowance established at retirement or as previously adjusted by other subsections. If the cost of living increases less than five percent, the board of trustees may determine the percentage of increase to be made in retirement allowances, but at no time can the increase exceed five percent per year. If the cost of living decreases in a fiscal year, there will be no increase in allowances for retired members on the following January first.

13. The board of trustees may reduce the amounts which have been granted as increases to a member pursuant to subsection 12 of this section if the cost of living, as determined by the board and as measured by generally accepted standards, is less than the cost of living was at the time of the first increase granted to the member; except that, the reductions shall not exceed the amount of increases which have been made to the member's allowance after December 31, 1976.

14. Any application for retirement shall include a sworn statement by the member certifying that the spouse of the member at the time the application was completed was aware of the application and the plan of retirement elected in the application.

15. Notwithstanding any other provision of law, any person retired prior to September 28, 1983, who is receiving a reduced retirement allowance under option 1 or option 2 of subsection 3 of this section, as such option existed prior to September 28, 1983, and whose beneficiary nominated to receive continued retirement allowance payments under the elected option dies or has died, shall upon application to the board of trustees have his or her retirement allowance increased to the amount he or she would have been receiving had the option not been elected, actuarially adjusted to recognize any excessive benefits which would have been paid to him or her up to the time of application.

16. Benefits paid pursuant to the provisions of the public school retirement system of Missouri shall not exceed the limitations of Section 415 of Title 26 of the United States Code except as provided pursuant to this subsection. Notwithstanding any other law to the contrary, the board of trustees may establish a benefit plan pursuant to Section 415(m) of Title 26 of the United States Code. Such plan shall be created solely for the purpose described in Section 415(m)(3)(A) of Title 26 of the United States Code. The board of trustees may promulgate regulations necessary to implement the provisions of this subsection and to create and administer such benefit plan.

17. Notwithstanding any other provision of law to the contrary, any person retired before, on, or after May 26, 1994, shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. As compensation for such duties the person shall receive an amount based on the person's years of service so that the total amount received pursuant to sections 169.010 to 169.141 shall be at least the minimum amounts specified in subdivisions (1) to (4) of this subsection. In determining the minimum amount to be received, the amounts in subdivisions (3) and (4) of this subsection shall be adjusted in accordance with the actuarial adjustment, if any, that was applied to the person's retirement allowance. In determining the minimum amount to be received, beginning September 1, 1996, the amounts in subdivisions (1) and (2) of this subsection shall be adjusted in accordance with the actuarial adjustment, if any, that was applied to the person's retirement allowance due to election of an optional form of retirement having a continued monthly payment after the person's death. Notwithstanding any other provision of law to the contrary, no person retired before, on, or after May 26, 1994, and no beneficiary of such a person, shall receive a retirement benefit pursuant to sections 169.010 to 169.141 based on the person's years of service less than the following amounts:

- (1) Thirty or more years of service, one thousand two hundred dollars;
- (2) At least twenty-five years but less than thirty years, one thousand dollars;
- (3) At least twenty years but less than twenty-five years, eight hundred dollars;
- (4) At least fifteen years but less than twenty years, six hundred dollars.

18. Notwithstanding any other provisions of law to the contrary, any person retired prior to May 26, 1994, and any designated beneficiary of such a retired member who was deceased prior to July 1, 1999, shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement or aging and upon request shall give written or oral opinions to the board in response to such requests. Beginning September 1, 1996, as compensation for such service, the member shall have added, pursuant to this subsection, to the member's monthly annuity as provided by this section a dollar amount equal to the lesser of sixty dollars or the product of two dollars

multiplied by the member's number of years of creditable service. Beginning September 1, 1999, the designated beneficiary of the deceased member shall as compensation for such service have added, pursuant to this subsection, to the monthly annuity as provided by this section a dollar amount equal to the lesser of sixty dollars or the product of two dollars multiplied by the member's number of years of creditable service. The total compensation provided by this section including the compensation provided by this subsection shall be used in calculating any future cost-of-living adjustments provided by subsection 12 of this section.

As compensation for such duties the person shall receive a payment equivalent to eight and seven-tenths percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 12 and 13 of this section for the purposes of the limit on the total amount of increases which may be received.

20. Any member who has retired shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such request. As compensation for such duties, the beneficiary of the retired member, or, if there is no beneficiary, the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) estate of the retired member, in that order of precedence, shall receive as a part of compensation for these duties a death benefit of five thousand dollars. **Notwithstanding any provision of law, the five thousand dollars received under this subsection shall not be subject to taxation.**

As compensation for such duties, the person shall have added, pursuant to this subsection, to the monthly annuity as provided by this section a dollar amount equal to five dollars times the member's number of years of creditable service.

22. As compensation for such duties, the person shall receive a dollar amount equal to three dollars times the member's number of years of creditable service, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 12 and 13 of this section for the purposes of the limit on the total amount of increases which may be received."; and
