

JOURNAL OF THE HOUSE

Second Regular Session, 93rd GENERAL ASSEMBLY

SEVENTIETH DAY, TUESDAY, MAY 9, 2006

The House met pursuant to adjournment.

Speaker Jetton in the Chair.

Prayer by Father Donald W. Lammers.

Let us pray.

Almighty God, in this last week of the 2006 Session of this body, sustain us in the zeal with which we began in January. May Your grace help us to give to each topic still on our agenda the attention it deserves. Hold us in the integrity with which we began, so that our judgments and decisions this week emerge from the best of our wisdom and study.

May the work we are accomplishing this session be like the young plants and crops in gardens and fields everywhere, destined to bear fruit aplenty, meeting the needs of all.

We pray to You Almighty God, living and reigning forever and ever. Amen.

The Pledge of Allegiance to the flag was recited.

The Speaker appointed the following to act as Honorary Pages for the Day, to serve without compensation: Ryan Coleman and Tavia Matthews.

The Journal of the sixty-ninth day was approved as corrected.

The board shall notify the applicant in writing of the reasons

for the refusal and shall advise the applicant of his or her right to file a complaint with the administrative hearing commission as provided by chapter 621, RSMo.

3. The board may establish an impaired licensee committee, to be designated as the "Well-being Committee", to promote the early identification, intervention, treatment and rehabilitation of licensees identified within this chapter, who may be impaired by reasons of illness, substance abuse, or as a result of any physical or mental condition. The board may enter into a contractual agreement with a nonprofit corporation or an association for the purpose of creating, supporting and maintaining such a committee. The board may promulgate rules subject to the provisions of this section to effectuate and implement any committee formed under this section. The board may expend appropriated funds necessary to provide for operational expenses of the committee formed under this section. Any member of the committee, as well as any administrator, staff member, consultant, agent or employee of the committee, acting within the scope of his or her duties and without actual malice and, all other persons who furnish information to the committee in good faith and without actual malice, shall not be liable for any claim of damages as a result of any statement, decision, opinion, investigation or action taken by the committee or by any individual member of the committee.

- (2) Its release is authorized in writing by the impaired licensee;
- (3) The committee is required to make a report to the board;
- (4) The information is subject to a court order.

7. In lieu of the pursuing discipline against a licensee for violating one or more causes stated in subsection 2 of section 338.055, the board may enter into a diversion agreement with a licensee to refer the licensee to the committee under such terms and conditions as are agreed to by the board and licensee. While the licensee participates in the committee, the time limitations of section 620.154, RSMo, shall toll under subsection 7 of section 620.154, RSMo. The committee shall report to the board the name of any licensee who fails to enter treatment within forty-eight hours following the provider's determination that the pharmacist needs treatment or any failure by a licensee to comply with the terms of a treatment contract during inpatient or outpatient treatment or aftercare or report a licensee who resumes the practice of pharmacy before the treatment provider has made a clear determination that the pharmacist is capable of practicing according to acceptable and prevailing standards.

9. The board may disclose information and records to the committee to assist the committee in the identification, intervention, treatment, and rehabilitation of any licensee who may be impaired by reason of illness, substance abuse, or as the result of any physical or mental condition. In the event a district fails to comply with this provision, the amount by which the district fails to spend funds as provided herein shall be deducted from the district's state revenue received under the provisions of subsections 1, 2, and 4 of this section for the following year, provided that the state board of education may exempt a school district from this provision if the state board of education determines that circumstances warrant such exemption.

7. If a school district's annual audit discloses that students were inappropriately identified as eligible for free and reduced lunch, special education, or limited English proficiency and the district does not resolve the audit finding, the department of elementary and secondary education shall require that the amount of aid paid pursuant to the weighting for free and reduced lunch, special education, or limited English proficiency in the weighted average daily attendance on the inappropriately identified pupils be repaid by the district in the next school year and shall additionally impose a penalty of one hundred percent of such aid paid on such pupils, which penalty shall also be paid within the next school year. The board of education may provide transportation for pupils living less than one mile from school at the expense of the district and may prescribe reasonable rules and regulations as to eligibility of pupils for transportation, **and, notwithstanding any other provision of law, no such district shall be subject to an administrative penalty when the district demonstrates pursuant to rule established by the state board of education that such students are required to cross a state highway or county arterial in the absence of sidewalks, traffic signals, or a crossing guard and that no existing bus stop location has been changed to permit a district to evade such penalty.** If no increase in the tax levy of the school district is required to provide transportation for pupils living less than one mile from the school, the board may transport said pupils. If an increase in the tax levy of the school district is required to provide transportation for pupils living less than one mile from school, the board shall submit the question at a public election. If a two-thirds majority of the voters voting on the question at the election are in favor of providing the transportation, the board shall arrange and provide therefor.

2. The proposal and the ballots may be in substantially the following form:

The minimum charge would be the actual cost of transporting the pupil for ninety school days, which actual cost is to be determined by the average per pupil cost of transporting children in the school district during the preceding school year. The full actual cost shall be paid by the parent or guardian of the pupil and shall not be paid out of any state school aid funds or out of any other revenues of the school district. The cost of transportation may be paid in installments, and the board of education shall establish the cost of the transportation and the time or times and method of payment."; and

(2) "Average daily attendance", the quotient or the sum of the quotients obtained by dividing the total number of hours attended in a term by resident pupils between the ages of five and twenty-one by the actual number of hours school was in session in that term. To the average daily attendance of the following school term shall be added the full-time equivalent average daily attendance of summer school students. "Full-time equivalent average daily attendance of summer school students" shall be computed by dividing the total number of hours attended by [all] only those summer school pupils **who are attending summer school classes in the core academic areas of communication arts, mathematics, science, and social studies** by the number of hours required in section 160.011, RSMo, in the school term. For purposes of determining average daily attendance under this subdivision, the term "resident pupil" shall include all children between the ages of five and twenty-one who are residents of the school district and who are attending kindergarten through grade twelve in such district. If a child is attending school in a district other than the district of residence and the child's parent is teaching in the school district or is a regular employee of the school district which the child is attending, then such child shall be considered a resident pupil of the school district which the child is attending for such period of time when the district of residence is not otherwise liable for tuition. (3) "Current operating expenditures":

(a) For the fiscal year 2007 calculation, "current operating expenditures" shall be calculated using data from fiscal year 2004 and shall be calculated as all expenditures for instruction and support services except capital outlay and debt service expenditures minus the revenue from federal categorical sources; food service; student activities; categorical payments for transportation costs pursuant to section 163.161; state reimbursements for early childhood special education; the career ladder entitlement for the district, as provided for in sections 168.500 to 168.515, RSMo; the vocational education entitlement for the district, as provided for in section 167.332, RSMo; and payments from other districts;

from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payments for any district from the first preceding calculation of the state adequacy target;

The total Missouri wage and salary disbursements of the metropolitan area as defined by the Office of Management and Budget divided by the total Missouri metropolitan wage and salary employment for the metropolitan area for the county signified in the school district number or the city of St. Louis, as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year and recalculated upon every decennial census to incorporate counties that are newly added to the description of metropolitan areas; or if no such metropolitan area is established, then:

b. The total Missouri wage and salary disbursements of the micropolitan area as defined by the Office of Management and Budget divided by the total Missouri micropolitan wage and salary employment for the micropolitan area for the county signified in the school district number, as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year, if a micropolitan area for such county has been established and recalculated upon every decennial census to incorporate counties that are newly added to the description of micropolitan areas; or

c. If a county is not part of a metropolitan or micropolitan area as established by the Office of Management and Budget, then the county wage per job, as defined in paragraph (a) of this subdivision, shall be used for the school district, as signified by the school district number;

(c) "Regional wage ratio", the ratio of the regional wage per job divided by the state median wage per job;

(7) "Free and reduced lunch threshold" shall be calculated by dividing the total free and reduced lunch pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(8) "Limited English proficiency pupil count", the number in the preceding school year of pupils aged three through twenty-one enrolled or preparing to enroll in an elementary school or secondary school who were not born in the United States or whose native language is a language other than English or are Native American or Alaskan native, or a native resident of the outlying areas, and come from an environment where a language other than English has had a significant impact on such individuals' level of English language proficiency, or are migratory, whose native language is a language other than English, and who come from an environment where a language other than English is dominant; and have difficulties in speaking, reading, writing, or understanding the English language sufficient to deny such individuals the ability to meet the state's proficient level of achievement on state assessments described in Public Law 107-10, the ability to achieve successfully in classrooms where the language of instruction is English, or the opportunity to participate fully in society;

(9) "Limited English proficiency threshold" shall be calculated by dividing the total limited English proficiency pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(10) "Local effort":

(a) For the fiscal year 2007 calculation, "local effort" shall be computed as the equalized assessed valuation of the property of a school district in calendar year 2004 divided by one hundred and multiplied by the performance levy less the percentage retained by the county assessor and collector plus one hundred percent of the amount received in fiscal year 2005 for school purposes from intangible taxes, fines, escheats, payments in lieu of taxes and receipts from state-assessed railroad and utility tax, one hundred percent of the amount received for school purposes pursuant to the merchants' and manufacturers' taxes under sections 150.010 to 150.370, RSMo, one hundred percent of the amounts

received for school purposes from federal properties under sections 12.070 and 12.080, RSMo, except when such amounts are used in the calculation of federal impact aid pursuant to P.L. 81-874, fifty percent of Proposition C revenues received for school purposes from the school district trust fund under section 163.087, and one hundred percent of any local earnings or income taxes received by the district for school purposes. Under this paragraph, for a special district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, a tax levy of zero shall be utilized in lieu of the performance levy for the special school district;

(b) In every year subsequent to fiscal year 2007, "local effort" shall be the amount calculated under paragraph (a) of this subdivision plus any increase in the amount received for school purposes from fines. If a district's assessed valuation has decreased subsequent to the calculation outlined in paragraph (a) of this subdivision, the district's local effort shall be calculated using the district's current assessed valuation in lieu of the assessed valuation utilized in calculation outlined in paragraph (a) of this subdivision;

"Full-time equivalent number of part-time students" is determined by dividing the total number of hours for which all part-time students are enrolled by the number of hours in the school term. "Full-time equivalent number of summer school pupils" is determined by dividing the total number of hours for which all summer school pupils were enrolled by the number of hours required pursuant to section 160.011, RSMo, in the school term. Only students eligible to be counted for average daily attendance shall be counted for membership;

(15) "School purposes" pertains to teachers' and incidental funds;

(16) "Special education pupil count", the number of public school students with a current individualized education program and receiving services from the resident district as of December first of the preceding school year, except for special education services provided through a school district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, in which case the sum of the students in each district within the county exceeding the special education threshold of each respective district within the county shall be counted within the special district and not in the district of residence for purposes of distributing the state aid derived from the special education pupil count;

(17) "Special education threshold" shall be calculated by dividing the total special education pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(18) "State adequacy target", the sum of the current operating expenditures of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, divided by the total average daily attendance of all included performance districts. The department of elementary and secondary education shall first calculate the state adequacy target for fiscal year 2007 and recalculate the state adequacy target every two years using the most current available data. The recalculation shall never result in a decrease from the previous state adequacy target amount. Should a recalculation result in an increase in the state adequacy target amount, fifty percent of that increase shall be included in the state adequacy target amount in the year of recalculation, and fifty percent of that increase shall be included in the state adequacy target amount in the subsequent year. The state adequacy target may be adjusted to accommodate available appropriations;

(19) "Teacher", any teacher, teacher-secretary, substitute teacher, supervisor, principal, supervising principal, superintendent or assistant superintendent, school nurse, social worker, counselor or librarian who shall, regularly, teach or be employed for no higher than grade twelve more than one-half time in the public schools and who is certified under the laws governing the certification of teachers in Missouri;

(20) "Weighted average daily attendance", the average daily attendance plus the product of twenty-five hundredths multiplied by the free and reduced lunch pupil count that exceeds the free and reduced lunch threshold, plus the product of seventy-five hundredths multiplied by the number of special education pupil count that exceeds the special education threshold, and plus the product of six-tenths multiplied by the number of limited English proficiency pupil count that exceeds the limited English proficiency threshold. For special districts established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, weighted average daily attendance shall be the average daily attendance plus the product of twenty-five hundredths multiplied by the free and reduced lunch pupil count that exceeds the free and reduced lunch threshold, plus the product of seventy-five hundredths multiplied by the sum of the special education pupil count that exceeds the threshold for each county district, plus the product of six-tenths multiplied by the limited English proficiency pupil count that exceeds the limited English proficiency threshold. None of the districts comprising a special district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, shall use any special education pupil count in calculating their weighted average daily attendance.""; and"; and

House Amendment No. 2

to

House Amendment No. 5

AMEND House Amendment No. 5 to House Committee Substitute for Senate Substitute for Senate Committee Substitute for Senate Bill No. 894, Page 1, Line 11, by inserting after said line the following:

"House Committee Substitute for Senate Substitute for Senate Bill No. 1058, Section 105.711, Page 13, Line 217, by inserting after all of said section, the following:

"163.011. As used in this chapter unless the context requires otherwise:

(1) "Adjusted operating levy", the sum of tax rates for the current year for teachers' and incidental funds for a school district as reported to the proper officer of each county pursuant to section 164.011, RSMo;

(2) "Average daily attendance", the quotient or the sum of the quotients obtained by dividing the total number of hours attended in a term by resident pupils between the ages of five and twenty-one by the actual number of hours school was in session in that term. To the average daily attendance of the following school term shall be added the full-time equivalent average daily attendance of summer school students. "Full-time equivalent average daily attendance of summer school students" shall be computed by dividing the total number of hours attended by all summer school pupils by the number of hours required in section 160.011, RSMo, in the school term. For purposes of determining average daily attendance under this subdivision, the term "resident pupil" shall include all children between the ages of five and twenty-one who are residents of the school district and who are attending kindergarten through grade twelve in such district. If a child is attending school in a district other than the district of residence and the child's parent is teaching in the school district or is a regular employee of the school district which the child is attending, then such child shall be considered a resident pupil of the school district which the child is attending for such period of time when the district of residence is not otherwise liable for tuition. Average daily attendance for students below the age of five years for which a school district may receive state aid based on such attendance shall be computed as regular school term attendance unless otherwise provided by law;

(3) "Current operating expenditures":

(a) For the fiscal year 2007 calculation, "current operating expenditures" shall be calculated using data from fiscal year 2004 and shall be calculated as all expenditures for instruction and support services except capital outlay and

debt service expenditures minus the revenue from federal categorical sources; food service; student activities; categorical payments for transportation costs pursuant to section 163.161; state reimbursements for early childhood special education; the career ladder entitlement for the district, as provided for in sections 168.500 to 168.515, RSMo; the vocational education entitlement for the district, as provided for in section 167.332, RSMo; and payments from other districts;

(b) In every fiscal year subsequent to fiscal year 2007, current operating expenditures shall be the amount in paragraph (a) plus any increases in state funding pursuant to sections 163.031 and 163.043 subsequent to fiscal year 2005, not to exceed five percent, per recalculation, of the state revenue received by a district in the 2004-05 school year from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payments for any district from the first preceding calculation of the state adequacy target;

(4) "District's tax rate ceiling", the highest tax rate ceiling in effect subsequent to the 1980 tax year or any subsequent year. Such tax rate ceiling shall not contain any tax levy for debt service;

(5) "Dollar value modifier", an index of the relative purchasing power of a dollar, calculated as one plus fifteen percent of the difference of the regional wage ratio minus one, provided that the dollar value modifier shall not be applied at a rate less than 1.0:

(a) "County wage per job", the total county wage and salary disbursements divided by the total county wage and salary employment for each county and the city of St. Louis as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year;

(b) "Regional wage per job":

a. The total Missouri wage and salary disbursements of the metropolitan area as defined by the Office of Management and Budget divided by the total Missouri metropolitan wage and salary employment for the metropolitan area for the county signified in the school district number or the city of St. Louis, as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year and recalculated upon every decennial census to incorporate counties that are newly added to the description of metropolitan areas; or if no such metropolitan area is established, then:

b. The total Missouri wage and salary disbursements of the micropolitan area as defined by the Office of Management and Budget divided by the total Missouri micropolitan wage and salary employment for the micropolitan area for the county signified in the school district number, as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year, if a micropolitan area for such county has been established and recalculated upon every decennial census to incorporate counties that are newly added to the description of micropolitan areas; or

c. If a county is not part of a metropolitan or micropolitan area as established by the Office of Management and Budget, then the county wage per job, as defined in paragraph (a) of this subdivision, shall be used for the school district, as signified by the school district number;

(c) "Regional wage ratio", the ratio of the regional wage per job divided by the state median wage per job;

(d) "State median wage per job", the fifty-eighth highest county wage per job;

(6) "Free and reduced lunch pupil count", the number of pupils eligible for free and reduced lunch on the last Wednesday in January for the preceding school year who were enrolled as students of the district, as approved by the department in accordance with applicable federal regulations;

(7) "Free and reduced lunch threshold" shall be calculated by dividing the total free and reduced lunch pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(8) "Limited English proficiency pupil count", the number in the preceding school year of pupils aged three through twenty-one enrolled or preparing to enroll in an elementary school or secondary school who were not born in the United States or whose native language is a language other than English or are Native American or Alaskan native, or a native resident of the outlying areas, and come from an environment where a language other than English has had a significant impact on such individuals' level of English language proficiency, or are migratory, whose native language is a language other than English, and who come from an environment where a language other than English is dominant; and have difficulties in speaking, reading, writing, or understanding the English language sufficient to deny such individuals the ability to meet the state's proficient level of achievement on state assessments described in Public Law 107-10, the ability to achieve successfully in classrooms where the language of instruction is English, or the opportunity to participate fully in society;

(9) "Limited English proficiency threshold" shall be calculated by dividing the total limited English proficiency pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five

percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(10) "Local effort":

(a) For the fiscal year 2007 calculation, "local effort" shall be computed as the equalized assessed valuation of the property of a school district in calendar year 2004 divided by one hundred and multiplied by the performance levy less the percentage retained by the county assessor and collector plus one hundred percent of the amount received in fiscal year 2005 for school purposes from intangible taxes, fines, escheats, payments in lieu of taxes and receipts from state-assessed railroad and utility tax, one hundred percent of the amount received for school purposes pursuant to the merchants' and manufacturers' taxes under sections 150.010 to 150.370, RSMo, one hundred percent of the amounts received for school purposes from federal properties under sections 12.070 and 12.080, RSMo, except when such amounts are used in the calculation of federal impact aid pursuant to P.L. 81-874, fifty percent of Proposition C revenues received for school purposes from the school district trust fund under section 163.087, and one hundred percent of any local earnings or income taxes received by the district for school purposes. Under this paragraph, for a special district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, a tax levy of zero shall be utilized in lieu of the performance levy for the special school district;

(b) In every year subsequent to fiscal year 2007, "local effort" shall be the amount calculated under paragraph (a) of this subdivision plus any increase in the amount received for school purposes from fines **or less any decrease in the amount received for school purposes from fines in any school district located at least partially in any county, except in any county of the first classification with more than one hundred ninety-eight thousand but fewer than one hundred ninety-nine thousand two hundred inhabitants, that has created or creates a county municipal court after June 30, 2004.** If a district's assessed valuation has decreased subsequent to the calculation outlined in paragraph (a) of this subdivision, the district's local effort shall be calculated using the district's current assessed valuation in lieu of the assessed valuation utilized in calculation outlined in paragraph (a) of this subdivision;

(11) "Membership" shall be the average of:

(a) The number of resident full-time students and the full-time equivalent number of part-time students who were enrolled in the public schools of the district on the last Wednesday in September of the previous year and who were in attendance one day or more during the preceding ten school days; and

(b) The number of resident full-time students and the full-time equivalent number of part-time students who were enrolled in the public schools of the district on the last Wednesday in January of the previous year and who were in attendance one day or more during the preceding ten school days, plus the full-time equivalent number of summer school pupils.

"Full-time equivalent number of part-time students" is determined by dividing the total number of hours for which all part-time students are enrolled by the number of hours in the school term. "Full-time equivalent number of summer school pupils" is determined by dividing the total number of hours for which all summer school pupils were enrolled by the number of hours required pursuant to section 160.011, RSMo, in the school term. Only students eligible to be counted for average daily attendance shall be counted for membership;

(12) "Operating levy for school purposes", the sum of tax rates levied for teachers' and incidental funds plus the operating levy or sales tax equivalent pursuant to section 162.1100, RSMo, of any transitional school district containing the school district, in the payment year, not including any equalized operating levy for school purposes levied by a special school district in which the district is located;

(13) "Performance district", any district that has met all performance standards and indicators as established by the department of elementary and secondary education for purposes of accreditation under section 161.092, RSMo, and as reported on the final annual performance report for that district each year;

(14) "Performance levy", three dollars and forty-three cents;

(15) "School purposes" pertains to teachers' and incidental funds;

(16) "Special education pupil count", the number of public school students with a current individualized education program and receiving services from the resident district as of December first of the preceding school year, except for special education services provided through a school district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, in which case the sum of the students in each district within the county exceeding the special education threshold of each respective district within the county shall be counted within the special district and not in the district of residence for purposes of distributing the state aid derived from the special education pupil count;

(17) "Special education threshold" shall be calculated by dividing the total special education pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of

average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(18) "State adequacy target", the sum of the current operating expenditures of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, divided by the total average daily attendance of all included performance districts. The department of elementary and secondary education shall first calculate the state adequacy target for fiscal year 2007 and recalculate the state adequacy target every two years using the most current available data. The recalculation shall never result in a decrease from the previous state adequacy target amount. Should a recalculation result in an increase in the state adequacy target amount, fifty percent of that increase shall be included in the state adequacy target amount in the year of recalculation, and fifty percent of that increase shall be included in the state adequacy target amount in the subsequent year. The state adequacy target may be adjusted to accommodate available appropriations;

(19) "Teacher", any teacher, teacher-secretary, substitute teacher, supervisor, principal, supervising principal, superintendent or assistant superintendent, school nurse, social worker, counselor or librarian who shall, regularly, teach or be employed for no higher than grade twelve more than one-half time in the public schools and who is certified under the laws governing the certification of teachers in Missouri;

(20) "Weighted average daily attendance", the average daily attendance plus the product of twenty-five hundredths multiplied by the free and reduced lunch pupil count that exceeds the free and reduced lunch threshold, plus the product of seventy-five hundredths multiplied by the number of special education pupil count that exceeds the special education threshold, and plus the product of six-tenths multiplied by the number of limited English proficiency pupil count that exceeds the limited English proficiency threshold. For special districts established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, weighted average daily attendance shall be the average daily attendance plus the product of twenty-five hundredths multiplied by the free and reduced lunch pupil count that exceeds the free and reduced lunch threshold, plus the product of seventy-five hundredths multiplied by the sum of the special education pupil count that exceeds the threshold for each county district, plus the product of six-tenths multiplied by the limited English proficiency pupil count that exceeds the limited English proficiency threshold. None of the districts comprising a special district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, shall use any special education pupil count in calculating their weighted average daily attendance.”; and

Further amend said amendment, Page10, Section B, Line 29, by inserting after all of said line the following:

"Section F. Because of the need to provide a quality education for Missouri students, sections 163.011 and 163.031 are deemed necessary for the immediate preservation of the public health, welfare, peace and safety, and is hereby declared to be an emergency act within the meaning of the constitution, and sections 163.011 and 163.031 shall be in full force and effect on July 1, 2006, or upon its passage and approval, whichever comes later."; and
