

HB 191 -- Telemarketing No-Call List

Sponsor: Jones (117)

This bill prohibits using an automatic dialing announcing device (ADAD) to call a residential subscriber who is on the No-Call List unless:

- (1) The subscriber has knowingly or voluntarily authorized receipt of the message; or
- (2) The message is immediately preceded by a live operator who obtains the subscriber's consent before the message is delivered. The operator must disclose the name of the business for which the message is being made, the purpose of the message, whether or not the message will solicit money, and the kinds of goods or services the message is promoting.

ADAD equipment cannot be used unless it disconnects no more than 10 seconds after the subscriber ends the phone call.

These provisions do not apply to telephone calls:

- (1) From school districts to students, parents, or employees;
- (2) To subscribers with whom the caller has a current business or personal relationship; or
- (3) To employees advising them of work schedules.

Currently, the Attorney General is required to establish an advisory group to compile and promote a list of educational literature to help consumers understand their options with regard to telephone solicitations. The Attorney General is also required to include information on his or her web site informing residential subscribers of their right to be included on the No-Call List and how to place their names and phone numbers on this list. The bill repeals these provisions.
