

HB 961 -- Towing Truck Companies

Sponsor: Atkins

This bill authorizes the State Highway Patrol and any law enforcement agency to use a rotation list when requesting wrecker or towing services for the removal of a vehicle for specified reasons.

A towing truck operator who is called to tow or remove a disabled vehicle following an accident must immediately make all reasonable efforts to clear the highway of any debris. Any towing company violating this provision will be removed from the rotation list of the law enforcement agency for a specified period of time based on the number of violations.
