FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Revenue** (DOR) assume this proposal would require programming changes related to the sales tax distribution in St. Louis County. DOR officials did not indicate any other fiscal impact for this proposal.

DOR officials provided an estimate of the cost to make the programming changes of \$3,180 based on an 120 hours of time for programming by the Office of Administration, Information Technology Services Division staff assigned to DOR (ITSD-DOR).

Oversight assumes ITSD-DOR is provided with core funding to handle a certain amount of activity each year. Oversight assumes ITSD-DOR could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, ITSD-DOR could request funding through the appropriation process.

Oversight did not receive any responses from St. Louis County or municipalities in St. Louis County. Oversight assumes that this proposal would not change the total amount collected or distributed overall, but that individual municipalities might receive more or less revenue under a revised distribution system. For fiscal note purposes, Oversight will indicate no impact to local governments.
