FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Public Safety - Missouri Highway Patrol (MHP)** state the proposed legislation would change various provisions regarding the sale and possession of controlled substances. MHP states it would be a violation of state and federal laws, Title 28 CFR 50.12 (b), Title 28 CFR 20.33 (7)(d), Article IV, National Crime Prevention and Privacy Compact and CJIS Security Policy, to access the Missouri Uniform Law Enforcement System (MULES) for noncriminal purposes without fingerprints. If there was a change in state and federal law to allow this search, an interface would need to be created between MULES, Interstate Identification Index (III), and any electronic tracking database. If this were allowable under current law, the first year's cost would be approximately \$270,000 and have an annual maintenance cost of roughly \$20,700. However, because this cannot be done under current law, the Patrol is unable to provide any kind of fiscal impact.

MULES is considered a closed criminal justice network which is available only to law enforcement/criminal justice agencies and personnel. Therefore, MULES would not be available to a pharmacy or pharmacist. The purpose of the interface would be to check if the purchaser has a felony drug conviction or plea. The search of the Missouri criminal history database for a noncriminal justice purpose requires the submission of fingerprints to positively identify the applicant pursuant to Section 610.120, RSMo. If a response for out-of-state felony convictions is also required, fingerprints would need to be taken to produce a positive match of the applicant. The FBI NCIC is also a closed criminal justice network which is only available to law enforcement agencies and would not be available to pharmacies.

Officials from the **Department of Corrections (DOC)** state lowering the number of grams of precursor drugs or products for illegal possession may increase the number of offenders who are charged. Penalty provisions, the component of the bill to have potential fiscal impact for DOC, is for up to a class D felony. Currently, the DOC cannot predict the number of new commitments which may result from the creation of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase of direct offender costs either through incarceration (FY11 average of \$16.878 per offender, per day, or an annual cost of \$6,160 per inmate) or through supervision provided by the Board of Probation and Parole (FY11 average of \$5.03 per offender, per day or an annual cost of \$1,836 per offender).

ASSUMPTION (continued)

The following factors contribute to DOC's minimal assumption:

- DOC assumes the narrow scope of the crime will not encompass a large number of offenders;
- The low felony status of the crime enhances the possibility of plea-bargaining or imposition of a probation sentence;
- The probability exists that offenders would be charged with a similar but more serious offense or that sentences may run concurrent to one another.

In summary, supervision by the DOC through probation or incarceration would result in some additional costs, but it is assumed the impact would be \$0 or a minimal amount that could be absorbed within existing resources.

Officials from the **Department of Health and Senior Services**, **Office of Prosecution Services**, **Office of the State Public Defender**, and the **Office of the State Courts Administrator** each assume the proposal would not fiscally impact their respective agencies.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This proposal changes the laws regarding the sale and possession of controlled substances. In its main provisions, the proposal:

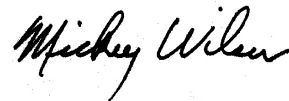

- (1) Lowers the amount from 24 to 15 grams of any methamphetamine precursor drug or combination of methamphetamine precursor drugs in which possession of is a class D felony;
- (2) Lowers, from 9 to 7.5 grams, the amount of any drug product containing ephedrine, phenylpropanolamine, or pseudoephedrine that can be sold to the same person within a 30-day period without regard to the number of transactions;
- (3) Specifies that each licensed pharmacy and pharmacist has the discretion to, in good faith, refuse to sell, dispense, or otherwise provide any individual with any methamphetamine precursor drug and will not be subject to criminal or civil liability in choosing to do so;
- (4) Requires any person who has been found guilty or pled guilty or nolo contendere to any drug crime to obtain a prescription to purchase, receive, or otherwise acquire any drug or drug product containing any amount of ephedrine, phenylpropanolamine, or pseudoephedrine; and
- (5) Requires the Department of Public Safety to implement a method of coordination between the MULES system and any electronic tracking system which tracks the purchase of controlled substances.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
