

HB 1672 -- Federal Seizure Proceeds

Sponsor: Fuhr

Currently, a law enforcement agency involved in using the federal forfeiture system under federal law is required each fiscal year to acquire an independent audit of the federal seizures and proceeds therefrom and provide the audit to its governing body, the Department of Public Safety, and the Office of the State Auditor. This bill removes the audit requirement and requires the law enforcement agency to file an annual report by January 31 regarding federal seizures and proceeds for the previous year with the department and the auditor's office. The detailed information that the report must contain is specified.
