

HB 1787 -- Merchant's List of Suppliers

Sponsor: Rizzo

This bill requires every merchant in the state to develop and maintain a current list of all the suppliers of products which are sold or otherwise available in its establishment. The list must contain the supplier's name, address, and contact person or registered agent and his or her phone number. Upon request from any law or drug enforcement officer or agency for information on a specific product's supplier, the merchant must immediately disclose the information. Any merchant who violates these provisions will be fined \$500 for a first violation and \$1,000 for a subsequent violation. The business license of any merchant who has violated these provisions 10 or more times must be subject to sanction.
