FISCAL ANALYSIS

ASSUMPTION

According to officials from the **Department of Elementary and Secondary Education (DESE)**, there do not appear to be quantifiable costs to DESE if they are not allowed to complete the implementation of the Common Core Standards.

DESE assumes local school districts may have already expended funds toward this effort. Curriculum development is done as a regular component of district operations. It is up to the local school districts as to when, how much, and whether curriculum is updated. DESE cannot estimate the extent of any impact.

Officials from the **Missouri Senate** assume the proposal would not fiscally impact their agency.

In response to a similar proposal from this session (SB 210), officials from the **Missouri House of Representatives** stated the proposal would have no fiscal impact on their agency.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
