

HB 181 -- Intrastate Commerce Act

Sponsor: Sommer

This bill establishes the Intrastate Commerce Act, which specifies that goods produced or manufactured in Missouri and kept within this state will not be deemed to have traveled in interstate commerce and therefore will not be subject to federal law, regulation, or the constitutional authority of Congress. The bill exempts goods manufactured in this state unless the goods are clearly marked "Made in Missouri"; goods produced in this state unless the goods are clearly marked "Product of Missouri", and goods purchased by the United States government from these provisions.
