FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Health and Senior Services (DHSS)** state the proposed legislation currently duplicates an existing program. The Missouri Healthcare Workforce Registry and Exchange (MoHWoRx) is an information system developed by DHSS to help health professionals meet state registration requirements and to provide comprehensive and timely information on health care access statewide. MoHWoRx currently supports the Missouri Health Professionals Registry and the Bureau of Narcotics and Dangerous Drugs (BNDD) online registration. The Missouri Health Professionals Registry is a voluntary registration tool that provides the foundation for a comprehensive Missouri health care workforce information system and the Division of Professional Registration provides data to MoHWoRx to provide a more complete registry of health care professionals in Missouri. A data warehouse for MoHWoRx has been built to facilitate data quality assurance and analytics. Currently reports are being written to provide information on health care shortage areas and demographic, geographic and practice characteristics.

Section 324.001 of the proposal allows state boards to collaborate with the DHSS to collect and analyze workforce data to assess the availability of qualified health providers.

It is assumed that the MoHWoRx platform for the collection of information on the healthcare workforce will continue to be utilized and that additional resources will be added to ensure data quality, identify data gaps and provide the advanced analytics necessary to provide the information on the workforce to the various boards.

To perform these additional duties, the Division of Community and Public Health (DCPH) will need one FTE Research Analyst III (\$39,984 annually). Total costs to the General Revenue Fund are estimated to be \$67,569 for FY 2016; \$74,376 for FY 2017; and \$75,318 for FY 2018.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration (DIFP)** state this legislation would have an unknown cost to various Professional Registration funds until contracts are established for the purpose of data collection. It is assumed the proposal would apply to all health-related boards.

The boards would incur minimal costs to collect the data. If the board(s) enter into a third party contract to analyze the data, the cost of the contract(s) would be based on the Request For Proposal (RFP).

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Officials from the **Department of Higher Education**, the **Joint Committee on Administrative Rules**, and the **University of Missouri** each assume the proposal would not fiscally impact their respective agencies.

Officials from **Truman State University** did not respond to **Oversight's** request for a statement of fiscal impact.
