FISCAL ANALYSIS

ASSUMPTION

Oversight notes for the fiscal note to the original bill, sufficient time to obtain agency responses was not provided. Oversight assumed the proposal would have an unknown fiscal impact on the Department of Health and Senior Services for form development and promulgation of rules. In addition, Oversight assumed the proposal would result in unknown costs to hospitals and that the state would be responsible for a share of those costs beginning in FY 2020.

Officials from the **University of Missouri (UM)** states the proposal should not create an additional expense in excess of \$100,000 annually because the UM Health Care is a state operated institution and is not required to be licensed.

Oversight assumes the UM can absorb these potential expenses within current funding levels.

Officials from the **Department of Health and Senior Services**, the **Department of Social Services**, **MO HealthNet Division** and **Division of Legal Services** and the **Joint Committee on Administrative Rules** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Officials from the following **hospitals**: Barton County Memorial Hospital, Bates County Memorial Hospital, Cedar County Memorial Hospital, Cooper County Hospital, Excelsior Springs Medical Center, Putnam County Memorial Hospital and Washington County Memorial Hospital did not respond to **Oversight's** request for a statement of fiscal impact.
