FISCAL ANALYSIS

ASSUMPTION

§ 644.145 - Clean Water Law:

Officials from the **Department of Natural Resources (DNR)** assume this proposal would add public water or sewer treatment works to the types of facilities DNR would be required to make finding of affordability determinations when issuing permits that incorporate a new requirement for discharges.

DNR assumes this proposal modifies language for when a finding of affordability is required of the DNR. Under this proposal DNR would no longer be required to make a finding of affordability for communities with less than three thousand three hundred residents.

DNR assumes this proposal relates to publicly owned water and sewer facilities permitted to discharge and therefore would anticipate minimal fiscal impact.

Oversight assumes this proposal will have no direct fiscal impact on state or local government funds.

Officials from the **Department of Health and Senior Services, Department of Economic Development-Division of Energy** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Cole County Public Water District #4, Franklin County Water District, Cole County Public Water District #3, and the St. Charles County Public Water Supply District #2** did not respond to **Oversight's** request for fiscal impact.

<u>FISCAL IMPACT - State Government</u>	FY 2016 (10 Mo.)	FY 2017	FY 2018
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>
<u>FISCAL IMPACT - Local Government</u>	FY 2016 (10 Mo.)	FY 2017	FY 2018
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

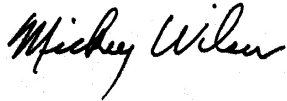

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
