

FIRST REGULAR SESSION  
HOUSE COMMITTEE SUBSTITUTE FOR  
SENATE COMMITTEE SUBSTITUTE FOR

# Senate Concurrent Resolution No. 30

## 98TH GENERAL ASSEMBLY

2397H.03C

D. ADAM CRUMBLISS, Chief Clerk

1           **WHEREAS**, humans need a varied diet containing protein in order to be healthy; and

2

3           **WHEREAS**, eggs are an efficient, nutritious, and affordable form of animal protein on  
4 which millions of Americans rely; and

5

6           **WHEREAS**, Article I, Section 8, Clause 3 of the United States Constitution, also known  
7 as the Commerce Clause, was designed to ensure free trade between the states by preventing any  
8 state from imposing a tariff or other restriction on goods from another state; and

9

10          **WHEREAS**, California is one of the nation’s largest producers and consumers of eggs  
11 for human consumption; and

12

13          **WHEREAS**, conventional chicken enclosures, also known as battery cages, have been  
14 proven to better protect egg-laying hens from bone breaks, cannibalism, disease, smothering, and  
15 predation than free range operations or operations using so-called “enriched cages”; and

16

17          **WHEREAS**, forcing egg producers to switch to “enriched cages” or nonconfinement  
18 operations drove up the cost of eggs in the European Union while also leading to food shortages  
19 and the closure of countless farms; and

20

21          **WHEREAS**, forcing egg farmers in America to abandon battery cages in favor of  
22 “enriched cages” or nonconfinement operations will lead to the same impacts on the U.S.  
23 economy and food supply; and

24

25          **WHEREAS**, the Humane Society of the United States, also known as HSUS, is  
26 America’s largest animal rights group and has aggressively pursued an agenda intended to  
27 decrease and eventually eliminate the public’s consumption of animal protein; and

28

29           **WHEREAS**, California voters adopted Proposition 2 to their state constitution in 2008,  
30 requiring the state’s egg producers to switch to “enriched cages” or nonconfinement operations  
31 in a campaign led and funded by the Humane Society of the United States; and

32

33           **WHEREAS**, in 2010, at the behest of HSUS, the California legislature passed AB 1437,  
34 which was signed into law by Governor Arnold Schwarzenegger, prohibiting the sale of eggs  
35 from other states that do not meet the requirements of Proposition 2 of 2008; and

36

37           **WHEREAS**, together, California’s Proposition 2 and AB 1437 violate the Commerce  
38 Clause of the U.S. Constitution by preventing free trade among the states; and

39

40           **WHEREAS**, together, California’s Proposition 2 and AB 1437 have artificially increased  
41 egg prices and restricted the availability of affordable eggs and vital animal protein to  
42 Californians, especially low-income citizens:

43

44           **NOW THEREFORE BE IT RESOLVED** that the members of the House of  
45 Representatives of the Ninety-eighth General Assembly, First Regular Session, the Senate  
46 concurring therein, hereby condemn California’s anti-trade actions and call on the California  
47 legislature to repeal AB 1437 and urge the voters of California to reconsider and repeal  
48 Proposition 2.
