

HB 786 -- ADEQUACY OF HEALTH CARRIER NETWORKS

SPONSOR: Meredith

This bill requires the Director of the Department of Insurance, Financial Institutions and Professional Registration, when reviewing an access plan filed by a health carrier, to deem a managed care plan's network to be adequate if the health carrier offering the plan has been accredited by the Accreditation Association for Ambulatory Health Care (AAAHC) at a level of accredited or better and the accreditation is in effect at the time the access plan is filed.
