This proposal has a provision that may not have a fiscal impact until such time as the formula is fully funded (\$160.405). Oversight, for fiscal note purposes, is showing the impact of that provision as if the formula were fully funded.**

FISCAL ANALYSIS

ASSUMPTION

Oversight notes this proposal changes the laws regarding charter schools.

§160.400, §160.403 and §160.405 Charter School Expansion and Funding

Officials at the **Department of Elementary and Secondary Education (DESE)** assume §160.400.18 indicates that “The state, charter sponsor, or resident district shall not be liable for any outstanding liability or obligations of the charter school.” Therefore, no new cost to the department is anticipated from this provision.

DESE assumes in §160.405.4(5) that this provision expands the range of instruction to include early childhood for charter schools. Expanding early childhood education to the charter schools currently existing in Kansas City and St. Louis school districts could have a cost of \$6,443,408 due to the increase in average daily attendance since charter school ADA is based on current attendance estimates. This is a \$6.4 million cost does not account for the expansion which will likely occur in future years.

It is unlikely that the formula will be funded during the scope of the fiscal note. Until the formula is fully funded, this amount would decrease the share of funds for all other districts.

Oversight notes this proposal in §160.400 expands the number of school districts that may be eligible to have a charter school. The projection provided by DESE for §160.405 only includes the current charter schools located in Kansas City and St. Louis expanding to include early childhood education. Oversight will show the fiscal impact as Could exceed the estimate provided by DESE.

Oversight notes that DESE and the Office of Administration's Division of Budget and Planning were not able to provide Oversight with a projection of when the foundation formula may be fully funded. This proposal has a provision that may not have a fiscal impact until such time as the formula is fully funded. Oversight for fiscal note purposes is showing the impact of that provision as if the formula were fully funded.

§160.405.16 Committee on Facility Access and Affordability

In response to the previous version of this proposal, officials at the **Missouri House of Representatives** assumed there was no fiscal impact from this proposal.

Officials at the **Missouri Senate** assume there is no fiscal impact from this proposal.

ASSUMPTION (continued)

Oversight notes this proposal requires, in §160.405.16, the Joint Committee on Education to create a committee to investigate facility access and affordability for charter schools. This committee is required to report its findings by December 31, 2016. In similar legislation filed this year, this committee was to be created by DESE. DESE estimated \$20,000 in committee expenses. Oversight will show the \$20,000 in expenses for FY 2017.

§167.241 Transportation to Charter Schools

DESE assumes §167.241 indicates that the unaccredited district would have to provide transportation costs to all “approved charter schools”. In the St. Louis district area (Normandy and Riverview Gardens) could be paying for transporting students to 9 Charter LEAs (16 school sites). The charter LEAs would be: City Garden Montessori, North Side Community, St. Louis Language Immersion, Premier, Grand Center Arts, Gateway, Kipp, Vernare and Tessara.

There would be no new cost to the department. However, unaccredited districts would have significant new transportation costs. The amount of those costs is entirely dependent on the degree of and pattern of enrollment in the various charter schools.

Oversight notes that in §167.241 Normandy and Riverview Gardens would be impacted. Oversight did not receive a response from Riverview Gardens as to the impact of this proposal on their district. Oversight notes that the Normandy School District does not participate in Oversight’s fiscal note response system. Oversight will show an impact as Could exceed \$100,000 for the transportation to charter schools.

Officials at the **Carondelet Leadership Academy** assume there is no fiscal impact from this proposal.

Officials at the following charter schools: Eagle College Prep, Frontier Schools and the KIPP Endeavor Academy of Kansas City did not respond to **Oversight's** request for fiscal impact.

§160.405.3 - Requires the state board to approve or deny a charter application within 60 days of its receipt. If the state board disapproves a charter application, it must do so in writing and identify the specific failures of the application to meet statutory requirements. The written disapproval must be provided to the sponsor within 10 business days.

§160.405.9 - Specifies that a charter school with an annual performance report consistent with a classification of accredited for three of the last four years and is fiscally viable may have an expedited renewal process.

FISCAL DESCRIPTION (continued)

§160.410.3 - Specifies that students who have been enrolled in a charter school for a full academic year must be counted in the performance of that school on the statewide assessments of that year. Currently, students who are present for the January membership are counted in the performance.

§160.415.12 - Requires a charter school to satisfy all its financial obligations within 12 months of notice from the charter sponsor's closure. A charter school must return any remaining state and federal funds to DESE once its financial obligations are met.

§167.241 - Specifies when transportation must be provided and who should pay for it.

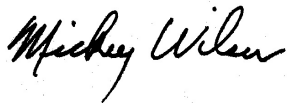

This proposal contains an emergency clause.
