FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration-Budget and Planning** assume this proposal does not directly impact Total State Revenue; however, this would presumably increase the number of seat belt violation fines, which could eventually lead to an increase in fines. The fines collected from highway law violations are deposited into the School Building Revolving Fund. There is no estimate on the possible increase to this fund since the fines that are collected by the county and municipal court systems may vary based on enforcement and increased compliance with the seat belt laws. These funds are then transferred to the State School Moneys Fund to be distributed to local school districts.

Officials from the **Department of Public Safety - Missouri Highway Patrol (MHP)** state the fine for failure to wear a safety belt is currently \$10. In 2015, the MHP issued the following number of citations:

- Operating commercial motor vehicle without seatbelt - 963
- Driver fail to secure child 80 pounds or more or over 4 feet 9 inches in booster seat or safety belt - 237
- Driver fail to secure child who is less than 8 years old in a child restraint or a booster seat - 1,636
- Driver/Front seat passenger fail to wear properly adjusted/fastened safety belt - 59,538
- Person under age 18 operating or riding in a truck fail to wear properly adjusted or fastened safety belt - 98
- Driver fail to secure child less than 16 years old in properly adjusted/fastened restraint - 1,188

Oversight assumes revenue collected for the 63,660 citations issued exceeds \$500,000 (based on the number of citations x \$10 fine) and also assumes there could be an increase in citations issued by removing the provision that no person shall be stopped, inspected, or detained solely to determine compliance, therefore Oversight will reflect a "Greater than \$500,000" fiscal impact to the School Building Revolving Fund. The amount of fine revenue collected would depend the enforcement of the law.

Officials from the **Department of Transportation, Department of Revenue, Office of Prosecution Services** and **Office of State Courts Administrator** each assume the proposal will have no fiscal impact on their respective organizations.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This proposal repeals the provision that prohibits a person from being stopped, inspected, or detained solely to determine compliance with safety belt regulations.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
