FISCAL ANALYSIS

ASSUMPTION

Officials at the **Missouri Ethics Commission (MEC)** assume the proposed legislation would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

- \$15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in §105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.
- 2 Business Analyst (at \$41,940) to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800 committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.
- If the Commission identifies significant violations during the process established in §105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The Commission would anticipate that changes or additions to the proposed language set forth in this bill, may require additional associated

In summary, MEC assumes the need for 2 FTE plus related expenses, totaling approximately \$132,000 per year.

In 2008, Senate Bill 1038 repealed campaign finance contribution limits in Missouri. At that time, the MEC did not reduce its number of FTE due to the cutback in the number of complaints and investigations caused by the campaign limits being repealed. Therefore, **Oversight** assumes the current FTE should be able to handle the increased number of complaints and investigations due to the limits being reimposed. Oversight assumes this proposal has no fiscal impact on the MEC.

Oversight assumes that the MEC has programmers on staff to handle the reprogramming of the computer systems and would not need to contract for these services. MEC did not reduce its programming staff when the campaign limits were repealed with SB 1038 and therefore the

ASSUMPTION (continued)

current FTE should be able to handle the increased programming responsibilities.

Oversight assumes that should MEC have a significant increase in complaints, they can seek additional resources through the appropriation process.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
