## FISCAL ANALYSIS

### ASSUMPTION

Officials at the **Department of Higher Education** and the **Joint Committee on Administrative Rules** each assume there is no fiscal impact from this proposal to their respective organizations.

Officials at the **University of Central Missouri** assume annual additional costs of \$100,000 to open and staff an office to administer procedures and ensure compliance.

Officials at the **Metropolitan Community College, Missouri State University, Northwest Missouri State University, State Technical College of Missouri** and the **University of Missouri** each assume there is no fiscal impact from this proposal to their respective institutions.

**Oversight** assumes this proposal requires the higher education institutions to create a policy on student favoritism. Oversight assumes creating the policy would not fiscally impact state revenue as the costs to the Colleges to create the policy could be absorbed with existing resources or offset by the tuition paid by the students.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

**Oversight** assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.
