FISCAL ANALYSIS

ASSUMPTION

Oversight notes this proposal requires the institutions of higher education to create memoranda of understanding with local law enforcement agencies that detail policies and protocols regarding sexual assault, domestic violence, dating violence and stalking. The policies shall set out requirements for reporting of offenses as well as who has jurisdiction in certain cases. Oversight assumes the institutions and local law enforcement will be able to establish these policies using existing resources.

Officials at the **Department of Higher Education, Joint Committee on Administrative Rules** and the **Missouri Highway Patrol** each assume there is no fiscal impact from this proposal to their respective organizations.

Officials at the **State Technical College of Missouri** assume this would have minimal impact. The only impact is the time to formalize the policy with local law enforcement.

Officials at the **Boone County Sheriff Department** assume the costs incurred will be that of the hourly rate of the department staff who must engage in these meetings and consultations with the institutions. Boone County has three higher education institutions. It is unknown how many staff members or how much time will be needed to develop the memorandum of understanding.

Officials at the **Metropolitan Community College** and the **Springfield Police Department** each assume there is no fiscal impact from this proposal to their respective organizations.

Officials at the **University of Central Missouri** assume this would not have a fiscal impact as they already have an agreement with the City of Warrensburg and Johnson County. However, it could have an impact depending on the rules established by Department of Higher Education and the Department of Public Safety.

Officials at the **Northwest Missouri State University** assume this would have an impact but it would be difficult to quantify at this time.

Officials at the **Missouri State University** assume there is no fiscal impact from this proposal.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for

ASSUMPTION (continued)

this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Officials from the Boone County Sheriff Department, Buchanan County Sheriff's Department, Cass County Sheriff Department, Clark County Sheriff's Department, Cole County Sheriff Department, Columbia Police Department, Independence Police Department, Jackson County Sheriff Department, Jefferson City Police Department, Platte County Sheriff's Department, St. Charles Police Department, St. Joseph Police Department, and the St. Louis Metropolitan Police Department did not respond to **Oversight's** request for fiscal impact.

Officials at the following colleges: Crowder, East Central Community College, Harris-Stowe, Jefferson College, Lincoln University, Moberly Area Community College, Missouri Southern State University, Missouri Western State University, Southeast Missouri State University, State Fair Community College, St. Charles Community College, St. Louis Community College, Three Rivers Community College, Truman State University and the University of Missouri did not respond to **Oversight's** request for fiscal impact.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
