FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** assume this proposal changes the laws regarding consumer credit interest rates. If the adoption of the measure results in a reduction of fee revenue from consumer credit entities, the department anticipates it would expend a correspondingly smaller amount to regulate these entities.

Officials at the **Office of the Secretary of State (SOS)** assume many joint resolutions are considered by the General Assembly that would require the SOS to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with \$1.6 million historically appropriated in even numbered fiscal years and \$100,000 appropriated in odd numbered fiscal years to meet these requirements. The appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2013, and the August and November elections, there were 5 statewide Constitutional Amendments or ballot propositions that cost \$2.17 million to publish (an average of \$434,000 per issue). Therefore, the SOS assumes, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. However, because these requirements are mandatory, we reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly change the amount or eliminate the estimated nature of our appropriation.

Oversight assumes the SOS could absorb the costs of advertising the statewide ballot measure related to this proposal within their current appropriation level. If multiple bills pass or if multiple ballot initiatives are validated which require similar advertising at substantial costs, the SOS could request funding through the appropriation process.

Oversight has reflected in this fiscal note, the state potentially reimbursing local political subdivisions the cost of having this joint resolution voted on during a special election in fiscal year 2017. This reflects the decision made by the Joint Committee on Legislative Research, that the cost of the elections should be shown in the fiscal note. The next scheduled statewide primary election is in August 2016 and the next scheduled general election is in November 2016 (FY 2017). It is assumed the subject within this proposal could be on one of these ballots; however, it could also be on a special election called for by the Governor.

ASSUMPTION (continued)

Therefore, Oversight will reflect a potential election cost reimbursement to local political subdivisions in FY 2017.

In addition, the **SOS** states that many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Officials from the **Office of Prosecution Services**, the **Office of the State Public Defender** and the **Office of the State Courts Administrator** assume the current proposal would not fiscally impact their agency.
