FISCAL ANALYSIS

ASSUMPTION

Officials at the **Missouri Ethics Commission (MEC)** assume §105.470.(8) would include special executive branch appointees to the definition of public official.

This change would require the MEC to do the following:

- Provide information to public officials and the public as specified in the Commission duties in §105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those filing lobbyist expenditures reports adhere to the requirements detailed in §105.473.
- Respond to written complaints, as established in §105.955.14, RSMo, through conducting investigations and any legal actions arising from those investigations.

MEC assumes this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

House Committee Amendment 1

MEC assumes no fiscal impact from the committee amendment. However, if this assumption is incorrect and there is a significant increase in complaints, the Commission would require additional investigative resources.

House Amendment 1

MEC assumes no fiscal impact from the floor amendment. However, if this assumption is incorrect and there is a significant increase in complaints, the Commission would require additional investigative resources.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
