

HB 1471 -- INFRASTRUCTURE REPLACEMENT SURCHARGES

SPONSOR: Dugger

Currently, the limitation on surcharges under Section 393.1012, RSMo is based on 10% of a gas corporation's most recently approved base revenue level. This bill modifies the calculation to ensure that a surcharge cannot be approved if the limit would be exceeded in any three year consecutive period after the surcharge is approved.

The bill increases the time period that a surcharge is in effect from three to five years.
