

HB 2802 -- HOME SCHOOL STUDENT MSHSAA PARTICIPATION

SPONSOR: Mathews

This bill specifies that any public school that participates in any activity sponsored by the Missouri State High School Activities Association (MSHSAA) must provide home school students, who reside in their attendance area, with the opportunity to participate in the activity on behalf of the public school in the same manner that the opportunity is provided to the students enrolled in the school. A home school student who participates or seeks to participate in an activity is subject to the same registration, age eligibility, fees, insurance, transportation, physical condition, qualifications, responsibilities, event schedules, standards of behavior, and performance requirements as enrolled students. The person who primarily provides home school instruction to the student must certify that the student is receiving a passing grade in each course and is maintaining satisfactory academic advancement. If the home school student was previously enrolled in a public school during a school year, the student is not authorized to participate during the remainder of that school year. The association cannot prohibit a home school student from participating in activities in compliance with these provisions.

This bill is similar to HB 232 (2015).
